Councilman Johnston Dead.

Last week we noted that G. C. (Joe) Johnston was confined to his bed with an attack of scarlet fever. When we went to press, it was thought that he was getting along nicely. On Saturday, word passed along the street that Mr. Johnston was worse and that his complaint, scarlet fever, had been succeeded by an attack of pneumonia. The services of a trained nurse were deemed necessary and Dr. Prill procured one from the Salem hospital. The nurse came to Jefferson on the Albany local Saturday evening, where a team had been sent from this city. It was thought all day last Sunday, that while Mr. Johnston's condition was very grave, his disease appeared to be under control of medicine. Monday morning, he was reported to be very much worse and for a while in the morning he was reported to be dying. He rallied somewhat in the afternoon. Tuesday morning he was reported to be just alive and at about 9 a. m. the end came. Owing to the fact that scarlet fever was the cause of the sickness, the Johnston home has been closely quarantined, and but the persons necessary to conduct the burial were allowed to attend the funeral, which occurred on Wednesday morning.

G. C. Johnston was one of our best and most prominent citizens and was upright and thoroughly reliable. He was the junior member of Johnston Bros., who conduct a planing mill and lumber business in this city. Last year he was elected a member of the city council and re-elected at the recent city election.

George Christie Johnston, was born in Scotland, October 7, 1870. He came to Oregon with his parents in 1877, who located on a farm near Meisama. Here Mr. Johnston grew to manhood. In 1900 he removed to Scio and entered in to the planing mills in this city with his brother H. S. On December 23, 1903, he was married to Miss Flora Layton. His death occurred on Tuesday morning January 24, making his exact age 32 years, 2 months and 17 days. A wife and brother and several relatives survive him to mourn his loss.

Saved His Thumb.

J. J. Barnes has a baby sawmill at his shop on the South side. It is utilized in sawing material that is used for building and repairing wagons, hacks, buggies, etc., in the shops. Saturday, July was operating the saw. In attempting to remove a piece of shab or splinter from near the buzzing saw, the thumb of his right hand came in contact with the saw. The saw we believe was unguarded by the contact. The thumb did not fare so well and presented a mangled, gory appearance in consequence. Dr. Prill dressed the injured member. Jud thinks he will save the thumb and that it may serve to unseat the house.

Were Muzzed.

A rather laughable affair occurred last week in our town. It is well known that many of our telephone patrons are quite inquisitive and are not adverse to hearing what ever may be passing over their particular line. So when a call is "ring up" these inquisitive persons are ready to take down their receivers and listen. The incident we refer to occurred in two of our young people, talking over the wire for the benefit of the above said inquisitives. Say one, "Did you hear of the fire at Wesley's?" "No" was the response. "Yes" said the first party, "Wesley's house and contents, even the black dog was burned." This was quite enough to start the rubber-necks. The news was soon spread that the news was at once communicated to Wesley Bros' store. John and another party started on foot, while others secured a team. When John returned, which was in a few minutes and after he found out he was hoaxed, it may be inferred, that he was vowing vengeance on the instigator of the report. It should be remembered that the first two parties did not spread the report. This was done by news-hunters, who had no right to listen. The lesson to be learned from this, intended hoax is, to never take down the receiver of your phone unless you are "ring up" or wish to "ring up" some one. It all will observe this rule, you will have an infinitely better phone service.

Engine "A" Gone.

Engine "A", which has done service between Scio and West Scio, is no longer with us. Some time ago a bridge on the line gave way since which time engine "A" has been standing idle on the line, as no watchman was employed to look after it, miscellaneous boys did it considerable damage by taking away many parts of the machine. When the engine was ordered to the shops, these missing parts had to be supplied from the car shops at Portland. They were sent up last Friday and have been fitted to the engine by A. W. Hagey and Joe Strjck. Tuesday this, the entire motive power of the Scio railroad, left us, perhaps never to return. This engine, by the way, we believe is the first one brought to Portland by the old O. & C. railroad about 34 or 35 years ago. It has been in use on the Scio line for the past 14 years. The S. P. should place "T. & Betsy" in exhibition at the big fair, as a Pacific coast curiosity.
