

FOR CATARRH OF HEAD THROAT LUNGS STOMACH KIDNEYS BLADDER FEMALE ORGANS

Colonel Arthur L. Hamilton, of the 7th Ohio Volunteers, 239 Goodale street, Columbus, O., writes: "As a remedy for catarrh and stomach trouble I can fully recommend Pepsin. Mrs. Hamilton, wife of the gallant Colonel, is an ardent friend of Pepsin also."

PEPSIN THE GREAT TONIC

HALF ACTUAL SIZE.

A Blackmailing Instrument.
The street musician paused at the steps.
"Music?"
"No, no. Here's a quarter for you. Move along."
"Thank you, sir. It is such a fine song."
"Fine! It's the worst box of discordant whistles I ever heard!"
"It is do finest song I ever heard. It plays a tune not so much, but it brings da more mood."

Healthy Children.
Without good health life is not worth living. Sickly, peevish children are a source of endless trouble and anxiety to their parents, yet the children's condition is frequently due to their parents' ignorance or thoughtlessness, or both.

To make children healthy and to keep them in that condition it is necessary to feed them proper food and to see that they get plenty of exercise and fresh air. Meat is very bad for children. It should be avoided and food rich in phosphate, such as Pillsbury's Vitos, should be given in its place.

This food is truly the "meat of the wheat." It is made by the world's greatest millers and it is free from artificial coloring or adulteration. It is not especially a child's food. Your whole family will enjoy this common sense cereal. It makes a wholesome, substantial breakfast or an appetizing dessert, and can be prepared in one hundred different ways.

Every good grocer will supply you with Pillsbury's Vitos. Large package—enough to make twelve pounds of strength-building food, 20c. Ask your grocer about it today.

Somewhat Different.
"I suppose that old chap with the long white whiskers over there is one of your old settlers, isn't he?" said the grocery drummer.
"I reckon he's what you might call a old resident," rejoined the village merchant, "but he ain't no old settler. He's been a-own' me for nigh onto thirty years."

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh of the Bladder. This is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
Hall's Family Pills are the best.

It "Listened Like" It.
Two Germans, one from out of the city, were at Electric Park Saturday night hearing Elmer's band. The non-resident German thought he had heard the band before, but wasn't sure. After a well-placed suggestion he turned to his companion and asked:
"Is dot a Cee-cincenti panti?"
"Oh, no; not at all it isn't," was the reply.
"Well," said the first, "it listens like it."

Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and faded of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair restorer, a perfect hair restorer. It keeps the scalp clean and healthy.

"I am well acquainted with Ayer's Hair Vigor and I like it very much. I would especially recommend it as an excellent dressing for the hair, keeping it soft and smooth, and preventing the hair from falling out at the roots."—MRS. J. F. FETTER, Vernon, Mich.

Made by J. C. Ayer & Co., Lowell, Mass. Also sold by druggists.

OREGON STATE ITEMS OF INTEREST

NEW LUMBER CENTER.

Two Mills Building and Three Under Consideration at Dallas.

Dallas—Though situated in the midst of a splendid fruitraising and hop-growing territory, Dallas promises to become a great lumber center as well. In addition to the Cone mill, now being built, and the Nap mill, which will be remodeled, three more propositions are now before the business interests of the city for consideration.

Plans for the remodeling of the Nap mill are completed. The mill will be rebuilt several hundred feet west of the present location, and enlarged to a 50,000-foot plant. A pond will be excavated between the "Y" tracks of the Falls City railroad and will be fed with water from the same source as the Cone mill.

The Cone pond is completed, and the superstructure of the mill under cover. The sawing frames and carriage trucks are being put in place and everything indicates the early completion of the plant.

Every house in Dallas is occupied, and new cottages are springing up in every quarter. The common comment of all newcomers is that Dallas is a beautiful town and has the finest courthouse lawn in the state. Although the Lewis and Clark fair is said to have drained the valley of all the stray change, the merchants say trade is good.

Big Land Deal.

Weston—Two of the largest real estate transactions consummated in this section for some time were recorded this week. One was the sale of 240 acres of land, with fine improvements by Mrs. Annie O'Hara to Charles M. Price for \$18,500. This is one of the finest farms in this section of the country, having upon it a handsome brick residence. Mr. Price also owns a third interest in what is known as the Steen place, located on Dry creek, consisting of 560 acres. This, it is said, he is about to dispose of to his brothers.

Grind Wheat Where Grown.

La Grande—It is estimated by grain dealers that perhaps 90 per cent of the wheat crop of Union county has changed hands this season, and that fully 75 per cent of the amount sold will remain in the county and be ground by the flouring mills. There are six mills in the county, and estimating the wheat crop of the county at 1,000,000 bushels, each mill on an average, has purchased 100,000. The price this season reached 70 cents a bushel for the finest grades, paid by the Imber Flouring Mills.

Old Picture of General Lane.

Salem—State Librarian J. B. Putnam has received from New Orleans an old photograph of General Joseph Lane, Oregon's first territorial governor and one of this state's first senators. The picture bears no date, but was taken in Washington, D. C., presumably while Lane was delegate in congress or senator. No communication or explanation came with the photo further than the words, "Compliments of William Beer, Howard Memorial Library, New Orleans, La."

Irrigating Harney Land.

Burns—Ten thousand acres of the best sagebrush land in the state will be put on the market as soon as inspected by the proper state official, as a result of the operations of the Portland Land company. It will be sold in tracts of from 40 to 160 acres at \$10 per acre, a lower price than that for any irrigated land yet put on the market in Oregon. This company was first to get a contract from Oregon to irrigate land.

Southern Pacific After Gravel.

Eugene—Southern Pacific surveyors have laid out a route for a spur in the northeastern part of the city to the gravel beds across the river, just outside the city limits. It is said that the company intends getting its ballast material for its proposed new line from Norton across the mountains from the extensive beds here. A trestle will have to be constructed across the river, which is narrow at that point.

River at Very Low Stage.

Eugene—The river at this point is almost as low as it was during August and lower than was ever before known in November. Loggers find great scarcity of water above here for driving logs, and would welcome a few days of rain. There is plenty of snow high up on the mountains, which fell a month ago, but the weather has continued cold and the snow does not melt.

Buy Indian Creek Mill.

Elgin—J. G. Brown, of the firm of Shockey & Brown, sawmill men, has disposed of his interest in that firm to his partner, and has purchased the Comstock mill, located on Indian creek, together with 320 acres of timberland. H. G. and H. E. Reed, experienced sawmill men, are interested in the deal. A new engine, edger and gang lathe mill will be added.

Want Pay for Dead Cattle.

Elgin—F. E. Graham, of this town, has presented a claim against Union county, amounting to \$290, for the loss of cattle killed by the collapse of the Wallows bridge. Hector McDonald, who was also driving a herd of cattle across the bridge at the time and suffered a similar loss, has also put in a claim against Wallows county for damages.

No Right to Sell the Land.

Salem—Attorney General Crawford has held that the State Land Board has no authority to sell land bequeathed to the state for the Soldiers' home. He holds that the board can sell land only when it has authority of law to do so and its general authority extends only to the sale of state land granted by the government.

ADVANCE IN PRICE OF LOGS.

Logging Camps Soon to Shut Down, and Shortage Is Expected.

Astoria—While several of the loggers in the Lower Columbia river district are under contract to deliver logs at \$7.50 per thousand until the first of the year, the others have advanced the price for fir logs to \$8 and a few sales are said to have been made at figures a shade higher. In spite of this advance in price, the demand is excellent and the logs are being taken as fast as they are put in tide water. A number of the larger logging companies will close down their camps for at least a month or six weeks as soon as the heavy rains set in and as, with the single exception of the Eastern & Western Lumber company, none of the mills have a large supply of logs on hand, a shortage is looked for before the end of the winter season.

Notwithstanding the advance in the price of fir logs, spruce is still selling at about \$7.

Buy 2,000 Lambs.

Prineville—Stockmen here are still commenting on the sale recently of 2,000 lambs by Williamson & Genser to the Baldwin Sheep & Land company, at \$2.50 per head. Such a large sale at this time of the year is considered as remarkable, particularly when the price is such a good one. In the spring there would be nothing extraordinary about the transfer. That such a large band should be transferred just at the feeding season is coming on, and at a good figure, is taken to mean that there are indications somewhere of a good price for both mutton and wool next spring.

West Coast Lumber in Demand.

Portland—Within the last few weeks a new market has been opened up for Oregon and Washington lumber, and already shippers are preparing to transport by water more than 9,000,000 feet to New York. Part of this lumber will go from Portland on sailing vessels and part of it will be taken from the mills of Puget sound. Outside of the extreme heavy timber heretofore there has been practically no demand for Oregon and Washington lumber in the New York markets, and the suddenness and magnitude of the orders of recent date have come as a surprise.

Can Corn at McMinnville.

McMinnville—If present interest in the matter does not wane, next year will see McMinnville with a large corn-canning factory. Several years ago samples of corn were sent to this company to test soil, climate and other conditions. The results sent back to the promoters show the quality first class in every particular. The Eastern people contemplating building a factory here state the plant will be the same size as the one they now operate, paying out about \$10,000 each year for the product and about \$6,000 in wages.

Grub Up Hop Yards.

Eugene—The present condition of the hop market is having its effect upon the growers of Lane county, and it is reported several new yards will be abandoned and no new ones will be set out next year, nor will any new hop houses be built. Marion Davis, a Springfield grower, has already commenced grubbing up a fine young yard of 10 acres. Many old growers, among who are George A. Dorris, Campbell & Walker and T. D. Linton, will do but little work on their yards next year, making expense of cultivation light.

Extensive Plant at Carlton.

Carlton—The Carlton Lumber company's new mill and extensive plant, representing an outlay of over a million dollars, will be in full operation by April, 1906. With the natural advantages Carlton already enjoys through its position among the foothills of the Coast mountains and the other improvements now being made, Carlton expects soon to be numbered among the leading scenic and industrial towns of the Willamette valley.

PORTLAND MARKETS.

Wheat—Club, 73c per bushel; blue stem, 75c; valley, 74c; red, 69c.
Oats—No. 1 white feed, 22c; gray, 20c per ton.

Veal—Dressed, 3 @ 7 1/2c per pound.
Mutton—Dressed, fancy, 7 @ 7 1/2c per pound; ordinary, 4 @ 5c; lambs, 7 1/2 @ 8c.
Pork—Dressed, 6 @ 7 1/2c per pound.

CASTRO REFUSES TO PAY MORE

Keeps Back Second Installment on Plumley Award.

Paris, Nov. 17.—The foreign office is advised that President Castro yesterday refused to pay the second installment of the Plumley arbitration award. The arbitration covered damages sustained by French citizens in Venezuela during the revolutionary periods prior to 1903.

Judge Frank Plumley, of Northfield, Vermont, was president of the arbitration committee, which met at Northfield last year. The judgment was in favor of France, which was awarded about \$650,000, and President Castro paid the first installment of the award three months ago. The second payment was due yesterday, but was not paid.

Apparently the Venezuelan President's failure to pay the installment was on the ground that diplomatic relations between France and Venezuela are interrupted. The officials here decline to admit that this justified President Castro in not paying the installment. The incident is considered to be a further provocation.

CZAR HELPS PEASANTS.

Remits Millions Due on Lands and Makes Purchase Easy.

London, Nov. 17.—A dispatch from St. Petersburg to Reuter's Telegram agency says that an imperial manifesto granting land concessions to the peasants was issued this morning. By its terms the land redemption tax payments from January 14, 1906, will be reduced by one-half, and from January 14, 1907, the payments will be totally abolished.

At the same time the capital of the Peasant bank is increased and the bank is granted additional loan privileges with the object of facilitating to the utmost the purchase of lands by peasants.

It is estimated that the amount of taxation thus lifted from the peasants by the manifesto will aggregate \$40,000,000, while the extension of the credit operations of the Peasants' bank will enable vast tracts of crown and private lands gradually to become the property of the peasants.

PRETENDER LEADS PEASANTS.

Army of 50,000 Supports Usurper's Claim to Czardom.

St. Petersburg, Nov. 17.—A false emperor has suddenly made his appearance near Penza, and already his followers number 50,000. This is the startling report received this afternoon in a dispatch from Simbirsk. Penza is in the heart of the vast region extending westward from the Volga, where agrarian uprisings on a large scale have occurred, and if the report turns out to be true that the pretender to the throne has placed himself at the head of the peasantry, the government will soon face, besides its other troubles, a formidable agrarian rebellion. It required a year to suppress the famous rebellion led by Pugachev, who impersonated the deposed and murdered Peter III in the time of Catherine II. That uprising was started in the same region on the banks of the Volga.

STORM CLOUD IN AFRICA.

Germany Protests Against an Anglo-French Agreement in Liberia.

Washington, Nov. 17.—The State department has learned that Germany has protested to Great Britain and France against the conclusion of certain negotiations now on foot between those two governments and the government of Liberia. Liberia wished to borrow some money and is willing to hypothecate certain territory as security. Germany sees in this proposition a threat of undue expansion of British and French influence in that quarter of Africa. The State department has not felt called upon to take any action in this matter, and in fact regards the communication merely as information.

Want Statehood on Any Terms.

Tucson, Ariz., Nov. 17.—A number of leading business and professional citizens held a meeting tonight to organize a campaign in the interest of immediate statehood for Arizona, on the best terms congress will give. Ex-Mayor Charles Schumacher was made president. The meeting adopted the following resolution: "Resolved, That we favor the admission of Arizona as a state in the Union upon such terms as congress may grant, even accepting annexation of New Mexico rather than remain any longer a territory."

Anarchy at Vladivostok.

St. Petersburg, Nov. 17.—The latest reports from Vladivostok indicate that the rioting has not yet been suppressed. Both sailors and fortress artillerymen participated in the outbreak. The commandant lost his head, the situation got beyond control, and energetic measures were not taken until a large part of the city had been destroyed. The population is still seeking refuge on the vessels in the harbor. According to one report from Vladivostok, 300 rioters, mostly sailors and artillerymen, were killed or wounded.

Battleship Idaho Not Ready.

Washington, Nov. 17.—The Navy department has not been advised by the Cramp Shipbuilding company that any date has been set for launching the battleship Idaho, although Senator Heyburn has been informed that it will take place December 9. The Idaho is only 40 per cent completed. It is unusual to launch ships in that early stage, and it seems improbable that the launching would be fixed for a date so near without notifying the Navy department.

Standard Oil's Big Dividend.

New York, Nov. 17.—The Standard Oil company has declared a quarterly dividend of \$10 a share. The previous dividend was \$9 a share and the dividend at this time last year was \$7 a share. Today's declaration brings the total dividends for the year to \$40 a share. Last year it was \$36.

Twice as Good One Third the Cost

Every day is bargain day in the Wave Circle. Come in and get acquainted. K. C. will help you cut down the living expenses and make doctor's bills a thing of the past. Do you realize that you can get the best and purest baking powder in the world

Harter—Grumleigh strikes me as being rather selfish. He seems to live entirely with himself.
Carter—Oh, well, he isn't the only man in town who lives in a fat.

The Century in 1906.

The lavish promises of a year ago were splendidly fulfilled in The Century during 1905—its verse and essays, its pictures and fiction, its articles of timely interest and permanent value, went beyond all promise and expectation. The fact in 1906 will be even richer than in 1905. There will be the new novel by Mrs. Humphry Ward, "Fenwick's Career," a new humorous serial by the creator of "Susan Clegg," and short stories by the ablest and most popular writers of the day. There will be authoritative accounts of such wonderful work as our construction of the Panama canal. W. S. Harwood will tell of "Saving California's Crops." The director of Cornell's School of Agriculture, Professor L. H. Bailey, will discuss the important problem of the young man and the farm. There will be many other articles of kindred value and interest.

His Happiest Hour.

He—Do you remember the night I asked you to marry me?
She—Yes, dear.
He—For a whole hour we sat there, and not a word did you speak. Ah, that was the happiest hour of my life!—Echo de Paris.
