## ANNOUNCEMENTS.

THE SANTIAM NEWS, being the only newspaper published in the Forks of the Santiam, and believing in giving all political parties a square deal, we will publish announcements of persons aspiring for political office, giving a short personal write-up of the persons announcing themselves, all at reasonable advertising rates. If you desire to be a candidate, you cannot have the fact too well known by the voters.

## HE VOTED RIGHTLY.

We have lately learned that there may be some opposition to the re-election of Hon. M. A. Miller for the reason that when it was attempted, at the last Legislature, to amend the Local Option law Mr. Miller voted against the amendment. Mr. Miller was right in doing as he did and should be commended rather than condemned for his action.

Suppose the proposed amendment had carried, what would have been the logical consequence? If the Legislature has power to amend a law enacted by the people, it has power to repeal a law enacted by the people. If it has power to amend or repeal the Local Option law, it has power to amend or repeal the Initiative and Referendum. This is the exact position in which all laws enacted by the people, by virtue of the Initiative, would be placed should it be conceded that the Legislature possesses the power to alter, amend, repeal, or in any way interfere with a law enacted by the people. The News thinks that a law enacted by the people has more the same nature that an amendment to the State Constitution has. As the foundation of all political power lies with the people, a power delegated by the people cannot supersede or override the power of the people themselves. In other words, the people cannot delegate power greater than that which they possess. As the people are the source from which all power is derived, by our system of government, any law enacted by the people, must be supreme. Therefore, any law enacted by the people, providing that it does not conflict with other laws similarly enacted, is and ought to be beyond the power of Congress, State Legislature, or any of the courts to nullify or change. Should a law enacted by the State or Nation be ambiguous in its meaning, or susceptible of more than one interpretation, then it is within the province of the courts to determine what was the intent of the people, but in no case to nullify the law entirely.

Senator Miller's action in this particular instance is and should be commended by all right-thinking people.

## SCIO BUSINESS MEN, WAKE UP!

Last Monday a meeting of the Scio Business Men's League was called to meet at the city hall. Not more than one person was present. Have Scio's business men gone into a sort of Rip Van Winkle sleep? Do we want our town to develop—to have two or three times our present population? If so we must shake off the lethargy that seems to have taken hold of us. Let us manage in some way to rub the moss from our backs. Our sister towns in every direction are growing. New enterprises are being developed that furnish employment to their laboring people and which are profitable to the promoters. Scio can do the same if her people will simply get a move on. We are on the eve of having a system of electric railways built in the Willamette Valley. Scio can have one of these lines if she will simply make the electric people know that they would be welcome and that our people will give such an enterprise their patronage. But if we continue in our present state of somnolence those people will not know that there is such a place as Scio on the map. We all want prosperity! We want business! We want more people! We want more months of school! In fact our wants are many; but unless we wake up and get a move on we probably will continue to want. Now, when another meeting of the League is called, let every member be on hand and come prepared to put his shoulder to the wheel and push and then push.

SUPPOSE Mr. Furnish had been elected instead of Governor Chamberlain; the people of Oregon would have had to pay about \$371,000 in taxes that they will not now probably have to pay. The Governor has surely earned his salary.

## THEY SHOULD BE RE-ELECTED.

The opinion is fast gaining ground among the people that the selection of men for public officials should not be based upon a sort of charity or personal favoritism, but upon the grounds of honesty, qualification, ability and experience. Many people, and we believe a majority of them, believe that it is poor policy and unwise to turn down an official who has proven himself honest, capable and efficient in every way, and select an untried and inexperienced official in his place. The people are coming to think that they should use as much wisdom in the selection of a public, as they do in the choosing of a private servant.

In conformity with this opinion, we are glad to state that Senator M. A. Miller and County Clerk B. M. Payne will stand for re-election to the official positions they now occupy. The records of both gentlemen are as an open book. Against neither of them can the slightest suspicion of graft or dishonesty be brought. Both have been tried in the balance and not found wanting.

Senator Miller should be elected, and merits re-election for several reasons: His several years training in legislative matters; his unalterable opposition to the Normal School graft; his great friendship for and understanding of all matters pertaining to the common schools, and his ever standing up to be counted in the interests of the people ought to and will commend him to the people, irrespective of party, that his election is assured. We believe that we are safe in making the statement that every vote he has given during his senatorial term, and especially during the last session, was in the interests of the people. This can be said of but very few of his associate senators.

Another very important reason for his re-election is: The people, through the Referendum, have held up the big blanket appropriation bill of last session and which will be vetoed at the polls next June. At the next session of the Legislature the Normal School lobby will be on hand in greater force than ever, fully determined to secure not only the appropriation that has been denied them during the past two years but appropriations for their needs during the next two years as well. The fight is going to be a life-and-death struggle on the part of the Normals, and it behooves the people, if they would throttle the whole graft and its debauching effects upon all legislative action, to send our best trained and most experienced men to Salem at that time. Senator Miller probably understands the methods and tricks of these Normal School legislators better than any other man in Linn County, as he led the fight against them in the Senate at the last session.

But the Normal School clique was too strong and carried its point. To hold up the entire appropriation bill was the people's only alternative. Now that we have started the ball rolling towards extermination, let us keep it rolling to a successful conclusion.

County Clerk Payne needs no eulogy. His work during the past, nearly four years, speaks louder and more effectively to the people than could be done through or by any other method. Not a more competent, painstaking and accommodating county clerk can be found in the State of Oregon than he. During his entire two terms not a complaint of neglect of duty; not an accusation of graft, or the misappropriation of a cent of public funds has been brought against him. He has protected the interests of the public at all times and is absolutely correct in the conduct of the County's business that comes within his jurisdiction. Can we afford to turn down a man who so completely fills the bill as an ideal public servant, for an untried and inexperienced successor?

BY DECISION of the Missouri Supreme Court the Standard Oil Company will be compelled to answer questions in court just the same as ordinary, everyday people. It will be a great day for the American people when the Standard Oil, as well as every other corporation, will be compelled to obey the law just the same as the rest of us. We pay taxes to have our laws executed and to punish all violators. The State and Nation has entered into an agreement with the people that for the patriotic support of the people, the laws will be executed with equality and justice to all. Unless the trusts, railroads, and all other corporations are compelled to obey the law, just as the most inconspicuous citizen is required to do, the State or Nation is violating its part of the contract.

STATEMENT No. 1 in the Primary Law is being pretty thoroughly discussed by the newspapers of the State. The vast majority of opinion of the press is that the law, at the time of its enactment, intended that each party should by vote indicate its choice for Senator and that choice should be ratified by the party's legislators. Such, at least, was the intent, so we are informed, of the State Senator who introduced the bill. So far as we have been able to learn the people in this locality generally are favorable to this construction of the law and will insist that candidates for the Legislature, if elected, shall be governed by this interpretation.

THE Irrigon Irrigator thinks that Hood River Smith is the only man in Oregon that can defeat Governor Chamberlain for re-election. Brother Bennett says that should either Withycombe, Geer or Johns be nominated, Governor George E. will have a walkover. Well, perhaps the Sage of Rabbitville is a prophet. The News thinks that even Hood River Smith will know he has a fight on his hands should he be the nominee.

THE Railroad Rate law, it is reported, can only be passed by the Senate at the expense of the Philippine Tariff bill. Another straw going to show that the United States Senate has outlived its usefulness.

## WHAT IS ACTUALLY AT STAKE.

The Citizens who vote only in the general election has done but a part of duty, and the lesser part of that. The greater obligation is to take part in the primaries, thereby doing his share toward curing good men as the party nominees.

Party success is of little moment in local and state affairs, as compared with the triumph of decency and honesty. If capable, honorable men are nominated by both parties it is no great matter whether the Republicans or the Democrat is elected. But when an unfit man is nominated by either party the responsibility lies at the door of the individual members of the party, whose indifference has permitted the nomination to be made.

As in always the case, there will probably be a large number of voters next June who will find something to criticize in their party ticket. But unless they have done what they should at the primaries to insure the selection of the best men as the party's nominees they have no right to complain. The blame will rest on their own shoulders.

The direct primary law will work no miracle. It will not eliminate venality from the politics of Oregon who are in a way of his vote. It simply gives to the honest voter a greater opportunity than he has had in the past to direct the selection of the nominees for public office. And the responsibility imposed by the law upon the individual voter is as great as the opportunity.

It is a common saying that the direct primary law is on trial. As a matter of fact it is the people of Oregon who are on trial. If the people show themselves alive to the responsibility imposed by the law there can be no doubt as to the good results that will flow from it. If, on the other hand, the people prove careless and indifferent, the direct primary law cannot save them from a relapse into the old system of bossism and machine rule.—Oregon Journal.

How hard a mother has to coax before she can get her child to take the first step. It is just about as hard to induce a man to take the first step in the right direction. It is really one suffering with weakness, with aching limbs, with aching joints, to

take the first step to health. There is a lack of confidence, and perhaps a crushing experience of a former failure which depresses and discourages the sufferer. In spite of double doses of medicine, the sufferer will not take the first step to health when you take the first dose of Dr. Pierce's Golden Medical Discovery. It never fails to help. It is almost a miracle of one kind or another. It never fails to cure. Never mind about the symptoms. Obtain a course of blood, emaciation, night-sweats, spitting of blood, which if neglected or unsatisfactorily treated, terminate in consumption, have all been perfectly and permanently cured by Dr. Pierce's Golden Medical Discovery.

"I am thankful to say that Dr. Pierce's Golden Medical Discovery cured me of consumption. I had been in bed for months, and my health had been so bad that I could not get up. I began to use your medicine and had symptoms of consumption. I had lost my appetite and a great deal of flesh. I was weak and nervous, and I had been told that I was dying. I began to use your medicine and I began to feel better. I began to eat and to sleep, and I began to get up. I am now perfectly well, and I am able to do my work. I am very grateful to you for your medicine. I have recommended it to many of my friends, and they are all well now. I am sure that your medicine is the best in the world. I have tried many other medicines, but none of them did me any good. I am sure that your medicine is the only one that can cure consumption.
