NEWS OF THE WEEK

DRIVE OUT CASTRO.

Venezuela Is To Be Opened to American Capital and Enterprise.

New York, April 3.—The World today says: "One of the largest merchants in New York said last night that arrangements are being perfected here and in Paris for an invasion of Venezuela, which will annihilate Castro and open up the country to American capital and enterprise."

A number of rich New York merchants are said to be interested in the movement, which, the promoters declare, will involve the employment of 50,000 soldiers and the expenditure of \$5,000,000 in the campaign, under which President Castro is to be either expelled or destroyed and a native Venezuelan statesman is to be installed as his successor.

In this connection it is said that Castro, anticipating a successful revolution against him sooner or later, has converted some of his alleged \$4,000,000 into cash and has sent it to America and France.

Carlos H. Fugere, Venezuelan consul in New York, said last night at his home that he had heard such an expedition was being organized or being promoted, but had been unable to learn anything definite about it. He said he had understood shares in the scheme were being sold.

"I would like to get hold of some of those shares," he said. "I will buy all that are offered."

The consul inquired eagerly as to the point the expedition was to sail from. The expedition is to set out soon from Europe in three large steamships, which are already under contract. They are to carry about 5,000 volunteers, with the following quantities of arms and ammunition: Eight thousand Manner rifles of the latest pattern, 24,000 rounds of cartridges, 500 shells, 8 rapid fire guns, 8,000 army belts, 1,000 officers' swords, 5,000 officers' revolvers, 3,000 pocket and army swords, together with other supplies.

GREAT TRADE WITH MEXICO.

Relations With Republic on the South Are Very Close.

Washington, April 3.—A bulletin issued by the department of Commerce and Labor shows that the trade of the United States with Mexico in the fiscal year 1905 aggregated in value \$92,000,000, as compared with \$89,000,000 in 1895, and \$18,000,000 in 1885. Of Mexico's total imports of merchandise, 53 per cent is drawn from the United States, and of her total exports 71 per cent is sent to the United States.

No other country except Canada draws so large a percentage of its imports from the United States as does Mexico, and no other country except Cuba sends so large a percentage of its exports to the United States as does Mexico.

Estimates made by American consular representatives and others and by persons in the United States familiar with the subject, the bulletin says, indicates that fully \$1,000,000,000 of capital from the country is now invested in Mexico, Canada and Cuba, of which about one-half is in Mexico.

THREE TRAINS IN A WRECK.

Insure Water for Land.

Salmon.—The State Land board is preparing to enforce a rule with regard to the sale of lands reclaimed under the Carey act, which will insure the settler ample supply of water for all land purchased. Until recently contracts have been entered into for the sale of land before the irrigation canals were completed or exact supply of water available known. In order that there may be no question in future, the board will insist that the government now has in land. The Furish ditch is 30 miles in length, while the government canal will be 22 miles long and will also supply water for 20,000 acres.

Seek Danger to Sheep Herds.

Pilot Rock.—The Cunningham Sheep & Land company has finished shearing. R. A. Kelsey, a member of the firm, reports an excellent quality of wool this season, which he attributes to the heavy rains, which washed the fleeces unusually clean. Mr. Kelsey apprehends difficulty by the sheepsman of Oregon as a result of the division of the summer range, and the invasion by Washington woolgrowers of Oregon's territory.

Storing Wool in Hoopner Warehouses.

Heppner.—Wool is beginning to arrive at the warehouses here, where it will be stored until the sales days in the latter part of May and the first of June. A large crop will be produced in this county this year, and very little is being contracted, stockmen preferring to hold until the sales days, when it will be sold to the highest bidder.

Cut Timber Illegally.

Prineville.—John Doe and A. R. Eastwood were arraigned before United States Commissioner H. R. Biggs last week on a charge of cutting timber on government land. They were held in the sum of \$50 to appear before the United States grand jury.

SETTLE ALL POINTS.

Delegates at Algiercas Conference Complete Their Work.

Algiercas, April 2.—After a preliminary session lasting until 6 o'clock this evening, the conference on Moroccan reforms registered a complete accord and appointed a committee to embody this accord in a formal protocol. The consummation of the work in the conference was announced in the following official communication:

"The conference has terminated its labors and accord is established upon all points. It has adopted a definite text of the remaining articles concerning the state banks and customs. The final article, regulating the distribution of police at ports, was adopted from the Russian draft. By it France will police four ports, Mogador, Safi, Magan and Rabat, and Spain two, Tetuan and Larache. France and Spain together will police Tangier and Casa Blanca, subject to the approval of the Moroccan government. The Dutch delegate announced that his government declined to appoint an officer. The conference has appointed a special committee to revise the text of the agreement."

Mr. White, the American delegate, is of the opinion that the result is satisfactory, not only because the immediate future of Morocco is secured, but because the manner of the settlement is satisfactory both to France and Germany and removes the causes for friction and restores international relations to normal. The principals for which Germany insisted, the integrity of Morocco and equal commercial and economic rights there, Mr. White thought were recognized, while the special position claimed by France was also acknowledged.

MINERS WIN IN PENNSYLVANIA.

Great Majority Will Get the Advance After Brief Shutdown.

Pittsburg, April 2.—Pittsburg delegates to the Miners' National convention who returned from Indianapolis today were jubilant over the adoption by the convention of the Perry resolution, which permits the operation of all mines where the wage scale of 1903 is accepted. While this action practically means the disruption for a time at least, of the interstate agreement between the miners of Western Pennsylvania, Ohio, Indiana and Illinois, it also means that there will be no strike of importance in this field, and that 25,000 of the 28,000 miners in the Pittsburg district will continue to work, with possibly a shutdown of work of accumulated stock.

Chairman Robbins returned from Indianapolis today. He is pleased over the result, and said the conservative action of the miners reflects great credit upon them in being willing to depart from precedents, which have been against individual settlements in order that a great strike might be averted.

Mr. Robbins said that all the mines of the Pittsburg district would be in full operation on Tuesday.

REFUSES TO BE DISMISSED.

Panama Official on Canal Thrown Out by Police.

Colon, April 2.—Henry Barnett, late assistant manager of the labor and quarters department, today received a letter signed by Chief Engineer Stevens to E. Bernudes, whom he was to supersede as commissariat at Cristobal. Bernudes declined to accept the letter, and, on Mr. Barnett's insisting on his right to take immediate charge, a squad of police was called in and stopped all deliveries.

Nearly the whole staff of the commissariat then quit work in sympathy with Bernudes, but the majority of them returned to their duties later, though Chief Clerk Delgado and 11 other employees declined to resume work. The taking of stock in the commissariat is now going on. It is not known why Bernudes, who is a Panamanian, was superseded.

owing to the continued drought, Colon is threatened with a water famine.

Would Abandon Many Posts.

Washington, April 2.—The abandonment of a number of army posts in the West and Southwest is proposed in a recommendation for the redistribution of troops prepared by Lieutenant General J. C. Bates, chief of staff. It is the purpose of the general staff to have as many brigade posts as possible. Two or three years would be required to effect the changes. The posts recommended for evacuation are Forts Lincoln and Davis, Alaska; Ringgold, Texas; Missonia, Mont.; Nibarra, Neb., and Reno, Okla.

Censure Dead Captain.

Washington, April 2.—Captain Johnson, who commanded the ill-fated steamer Valencia, wrecked on Vancouver island, is to be severely censured by the government board that conducted the recent investigation at Tacoma. This board, it is understood, is convinced that Johnson displayed lack of judgment and that there was every evidence of poor navigation, in that he made no calculation for wind or tide on the night he ran aground.

German Colony Massacred.

Berlin, April 2.—A report received here late Saturday night states that a force of Hottentots surprised a German colony in Southwest Africa and killed 11 and wounded six. No particulars are available.

WILLAMETTE VALLEY DIRECTORS MAKING UP PROGRAM FOR YEAR.

Oregon City.—The board of directors of the Willamette Valley Chautauqua association is preparing the program for the 1906 assembly to be held at Gladstone next July. Dr. Charles Edward Locke, who was in Portland 10 years ago, but is now pastor of one of the largest Methodist churches in the United States, at Brooklyn, N. Y., will be one of the speakers. Captain Jack Crawford, the famous post-scout, has been engaged for the coming assembly, as has also Rabbi Leon Harrison, of St. Louis, who will be heard in two lectures, on "Sisylock" and "The Glory and Shame of America."

Professor Mark B. Beal, of the Occidental college of oratory, of Los Angeles, will be the eloquist of the year. Dr. W. C. Sherman, of Sacramento, who last year had charge of the class in Bible study, has been retained for another year. Other classes will be conducted as usual in music, domestic science, United States history, elocution, English literature, physical culture, junior Bible study and a W. C. T. U. institute.

The Chautauqua management is in communication with a great many other lecturers and entertainers with whom contracts will be entered into if possible. Another meeting of the board of directors will be called soon, when the program will be completed.

New Rail Lines for Lane.

Engene.—Portland, New York and Engene capitalists who recently applied to the city council for franchise to construct a system of street railways here, announce that they intend to build an electric line between Engene and Springfield and a steam railway from there up McKenzie river to the Blue river mining district. Length of the electric line will be four miles. That of the steam road about 45 miles. The Willamette river will be bridged at Engene, and the line will reach Springfield up the eastern banks of the river.

Cherry Crop Destroyed.

Scappoose.—Early cherries, with few exceptions, are killed by the early frosts. Royal Annes are completely destroyed, as well as early pears. Apples, pines and plums are apparently all in good condition, having been uninjured. Nearly all orchards in this locality are being sprayed this season. Fruits from the Scappoose district are not inferior to any in quality, as attested by premiums won at the Lewis and Clark exposition.

Plan to Supply Court Reports.

Albany.—The County court will probably order the Supreme court reports, 44 volumes—for use of the court and county officials and the Circuit court. An effort may be made at the next session of the legislature to secure a measure providing that the state shall furnish the County courts of each county with the Oregon reports as statutes and sessions laws are supplied to county officials and justices of the peace.

New Mill at Scappoose.

Scappoose.—The Brace Lumber company is building a sawmill up a tract bought of Rev. Mr. Brown. The mill will cut 30,000 feet a day. This makes five mills within a radius of eight miles of Scappoose. The new mill will be in operation in about three weeks.
