The Lebanon Criterion states that a daughter of Postmaster Train, Miss Arlene, is sick with the smallpox. It is thought that a good many people were exposed before quarantine was fully established. It is somewhat strange that neither Albany paper has mentioned so important a news item.

Dowie, who has been deposed as the head of the Christian Catholic Church is returning from Mexico and threatens to make trouble for the deposers. In turn the church at Zion City accuse him of all manner of evil, such as polygamy, too great a love for wine and general wastefulness of the church funds.

We have this week received a very handsome illustrated calendar, put out by G. B. Hansard, proprietor of the St. Charles Hotel, Lebanon. This hostelry has been thoroughly renovated and new up-to-date furniture has been used in the furnishings, making it easily the leading hotel of Lebanon.

Assessor McKnight reports that taxpayers are listing more notes and accounts for assessment purposes than ever before. He is assessing land at its full cash value this year. This will increase the gross amount of property for taxation fully one-third, which should materially reduce the rate in the levy.

Goat shearing is now in progress. J. A. Bilyeu's band of 200 was sheared the first of the week, the Griffin Bros., George and John, doing the work. They used a machine clipper and could divest a goat of its wool in about ten minutes. The machine method of shearing is much more humane than the old time plan with shears.

It is your duty as a good citizen to devote April 20 to the patriotic duty of selecting good men for nominees for political office in either party. Then, no matter which party is successful, good officials will result. But if bad, dishonest or incompetent men are named, and you have neglected to do your duty on Primary day, on you will rest the blame.

A lively runaway occured early Monday morning on Mill street. Mr. Donahue drove into town and was going to tie up the horse to a hitching post on Mill street. As he got out of the buggy and before he reached the horse's head the horse snorted and was off in a flash. When the escapade was over, a pair of broken shafts and a sprung axle was the damage reported.

The Hood River Glacier quotes the following from an exchange in its issue of March 1 regarding H. M. Cake's candidacy for United States Senator: "H. M. Cake, President of the Portland Commercial Club, has become a candidate for United States Senator on the Republican ticket. The man that runs against Mr. Cake will have to take his dust most of the way and come up loser at the finish, for he is popular, genial, a witty and brilliant speaker, and fully capable of conducting honor to any position within the gift of the people."

Never were would-be candidates so well advertised prior to nominating day as they are at the present time. Formerly the mass of the people had not the least idea prior to convention day as to who the nominee would be for any particular office. Now, thanks to the Primary law, candidates are compelled to come out in the open. Their qualifications and fitness are thoroughly understood before nomination. Surely under this plan there is less chance to select a bad man for office than by the old plan.

STATE TREASURER.

Although there are six candidates in the field for State Treasurer, it is now conceded that either Ralph Hoyt, of Portland, or E. V. Carter, of Jackson County, will be nominated.

Mr. Carter says, "If elected, I will reside in Salem and give the office my personal attention." Mr. Hoyt is silent on this point.

Mr. Carter says. "If elected, I will turn over to the State every dollar of the interest paid on State funds." This money, from $10,000 to $20,000 per annum, has heretofore been retained by the Treasurer. As Mr. Hoyt is silent on this point also, it is fair to assume that he intends to pocket this interest money as has been done in the past.

Will you vote for a Portland man and thus continue this graft? A vote for E. V. Carter is a vote to stop this graft and reduce taxes accordingly.

A Disastrous Fire.

Last Friday the upper story (8th floor) of the Chamber of Commerce Building, in Portland, was destroyed by fire. This floor was occupied by the Commercial Club, having reception parlors, recreation and wine rooms, restaurant, etc. The blaze started in the ladies' reception parlor by the draperies catching fire. There was probably 50 persons in the restaurant when the alarm of fire was sent in. By the heroic bravery of the four elevator boys, all but ten of these persons were conveyed to the ground floor safely. All of the ten were saved by the use of the fire escape, fire ladders and nets save one, a Mr. Hallock, who jumped out of a window and was dashed to death. Tom Richardson, secretary and manager of the club, whose office was in the cupola, was rescued from the roof by the firemen on fire ladders. The loss on building is estimated at $100,000; insured for $50,000. The Commercial Club's loss is placed at $40,000; insured for $20,000. It is thought the walls are uninjured. The fire department proved itself to be very efficient.

WHEREAS, the Secretary of State of the State of Oregon has notified me in writing that pursuant to the provisions of an act entitled "An Act making effective the Initiative and Referendum provisions of Section 1 of Article IV, of the Constitution of the State of Oregon, and regulating elections thereunder, and providing penalties for violations of provisions of this act," approved February 24, 1903, the People's Power League of Oregon duly filed in his office on February 2d, 1906, an initiative petition containing 8362 signatures properly attached to a copy of said measure, certified in accordance with law, demanding that a proposed amendment to Section 2 of Article XI of the Constitution of the State of Oregon shall be submitted to the legal voters of the State of Oregon for their approval or rejection at the general election to be held in said state on the 4th day of June, being the first Monday in June, 1906, designated by said People's Power League of Oregon as "Constitutional amendment giving cities and towns exclusive power to enact and amend their charters," which said proposed amendment is hereinafter particularly set forth.

Now, therefore, I, George E. Chamberlain, Governor of the State of Oregon, in obedience to the provisions of said act hereinbefore first mentioned, do hereby make and issue this Proclamation to the people of the State of Oregon, announcing that the People's Power League of Oregon has filed said initiative petition with the requisite number of signatures thereto attached demanding that there be submitted to the legal voters of the State of Oregon for their approval or rejection at the regular election to be held on the 4th day of June, 1906, said day being the first Monday in said month, a proposed amendment to Section 2 of Article XI of the Constitution of the State of Oregon, designated by said People's Power League of Oregon as "Constitutional Amendment giving cities and towns exclusive power to enact and amend their charters," which said proposed amendment is as follows:

"SECTION 2. Corporations may be formed under general laws, but shall not be created by the legislative assembly by special laws. The legal voters of every city and town are hereby granted power to enact and amend their municipal charter, subject to the Constitution and criminal laws of the State of Oregon."

Done at the Capitol at Salem, this 28th day of February, A. D., 1906.

(Signed) GEO. E. CHAMBERLAIN,
By the Governor: Governor.
F. I. DUNBAR, Secretary of State.

BEE.

Scio Is Proud of Them.

Manager Joe Young is now comfortably located at the Frost barn, on South Main Street, with the Franklin Butte Stock Company's two famous stallions. During the past Winter both horses appear to have grown some and have increased in weight. They are both in pink of condition. Their glossy coats and playful, sprightly action give evidence that Mr. Young is an artist in caring for the horse. There may be other just as good horses in the valley as are these, but as the News man was raised near Missouri, the fact must be shown.

G. Wash Phillips was the lucky man in the free pair of shoes and the late shoe drawing of Wesely & Cain. His money was returned to him for his purchase.

OPEN PUBLICITY THE BEST GUARANTY OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and honest publicity.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription."

Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this world-famed medicine is advised. No other medicine for women has any such *professional* endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's *free* for the asking.

Tindall Paid a Fine.

Thursday of last week Marion Tindall, of Shelburn, came into town and plead guilty before Justice of the Peace Shelton to slapping Ruby Hull, of the same neighborhood. Squire Shelton assessed the damage at $10, which was promptly paid. For several months past there has been a neighborhood racket going on there, and who is to blame, or who is the disturbing element, deponent sayeth not. This recent fracas is probably connected in some way with the neighborhood racket of last year. Surely if every one in that neighborhood would attend to his or her own business, and concede that everyone has a right to live in this world and has personal rights that should not be encroached upon by a neighbor, all would be peace and harmony, as it should be.

Accidentally Shot At Lebanon.

"Last Saturday's Albany Herald published the following account of an accidental shooting over at Lebanon: When August Kenner, foreman of the Lebanon tannery, went home to his dinner to day he noticed a squirrel in the yard. Taking down his shotgun he fired one barrel at the squirrel, but only wounded it. Holding the gun by the barrel with the muzzle toward him he struck the squirrel with the stock, discharging the other barrel, sending a charge of shot into his right thigh. Kenner is in a critical condition.
