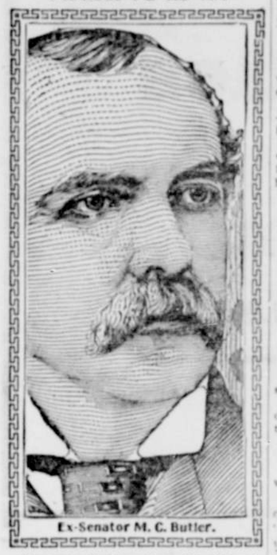
The Dim Past.

Laban was justifying the deception he had practiced upon Jacob in the matter of Leah.

"I didn't mind letting him have Leah," he said, "but I'm a little more particular as to Rachel. I've had my doubts all the time, anyhow, about taking into my family a young man who is willing to work seven whole years just for a girl. He doesn't seem to me to be the kind of man that would be likely to get ahead in the world."

But Jacob's willingness to work another seven years for Rachel struck the old man as showing grit and perseverance, and it is a matter of history that the young man finally made good as a son-in-law.

UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA



Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused by Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy for Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catrrh must be eradicated. Only an internal catarrh remedy, such as Peruna, is available. Peruna exactly meets the indications.

Tillie Wanted to Make Sure.

It was Tuesday morning. The clothes had been washed, dried and folded and common sense pointed to the fact that it was ironing day, but cautious Scandinavian Tillie, the new maid, was not going to make the mistake of going ahead before being sure that she was right. Before committing herself to the obvious task she poked her head into the dining room to say, appealingly: "Meesis, I skuld like to speak something." "What is it, Tillie?" "Skal I cook some flatiron?" asked Tillie, earnestly.

It was declared at Edinburgh recently that more fishermen were drowned from the custom of wearing long boots than by all the storms.

IN THE NATIONAL HALLS OF CONGRESS

Monday, May 7.

Washington, May 7.—The senate today spent the major portion of its time on one amendment, but instead of accepting it, adopted a substitute. The provision which was made the basis of the discussion was that suggested by Foraker prohibiting the granting of rebates, passes, drawbacks, or special rates to passengers on railways and also prohibiting discrimination in the way of accommodations where equal rates are paid.

The discussion took a broad range, covering first the pass question and then the race question in the Southern states. The race issue was raised in connection with the clause relative to discrimination, which was interpreted as referring to separate cars for the races, and it called out very warm protests from Bacon, Money, Culberson and other Southern senators.

Washington, May 7.—Notwithstanding that this was the speaker's seventieth birthday, the house, after a splendid demonstration to Mr. Cannon as he ascended to the speaker's table, settled down to one of the biggest days in the history of the present session. The day was notable for the number of bills passed, forty-five in number, covering a large number of subjects. Many of the bills could have been passed by unanimous consent, but with Williams' determination to object to any legislation by unanimous consent," these bills came up under suspension of the rules, this being known as "suspension day."

The following were among the bills passed:

Granting to the Chicago, Milwaukee & St. Paul Railway Company the right of way through the Fort Keogh military reservation, Montana.

To punish the cutting, chipping or boxing of trees on the public domain.

To amend an act concerning leases in the Yellowstone National Park.

To authorize the Minnesota, Dakota & Pacific Railroad Company to construct a bridge across the Missouri river.

For the relief of certain entrymen and settlers within the limits of the Northern Pacific Railway land grant.

To provide for the subdivision and sale of certain land in the state of Washington.

To amend the act to provide a government for the territory of Hawaii.

Friday, May 4.

Washington, May 4.—In accordance with the agreement of last Monday, the senate today entered upon the consideration of amendments to the rate bill under the 15-minute rule, but made little progress. The greater part of the day was devoted to Lodge's provision bringing pipe lines within the terms of the bill, and it was ultimately unanimously agreed to, after being so amended as to make it exclude gas and water lines from its operation, thus practically confining it to oil lines. There were two roll-calls, but neither was of importance, as on the one accepting the amendment there was no division whatever, while the action taken on the other, on the question of confining the provision to oil lines, was practically nullified by the subsequent elimination of gas and water from the amendment.

Washington, May 4.—The house spent another day in consideration of the naval appropriation bill, the speeches in large measure being in support of the bill and the naval program therein outlined. Burton, of Ohio, delivered a scholarly address against what seemed the needless enlargement of the navy, contending that the American nation could well afford to serve notice upon the other nations that it stood for international arbitration and the peace of the world.

Butler of Pennsylvania, and Calder of New York, supported the bill, both agreeing that the measure had less to criticiete in it than any bill reported from the naval affairs committee of the house in years.

Thursday, May 3.

Washington, May 3.—The naval appropriation bill, which carries nearly a hundred million dollars for the naval establishment, was taken up by the House today. Beyond the explanation of the bill by Foss of Illinois, chairman of the committee on naval affairs, and the running fire of questions which his presentation called forth, little interest was shown in the early part of the debate that ensued. Toward the close of the day, however, a lively colloquy occurred among Bates of Pennsylvania, Williams of Mississippi, Clark of Missouri, and Payne of New York, over certain statements made by Bates in relation to the price of steel rails. The discussion took on a wide tariff range, a forerunner of still further tariff discussion as the session nears its close.

Washington, May 3.—This was the last day for general debate in the Senate on the railroad rate bill, and it was fully occupied. Following a brief speech by Nelson, Tillman spoke at length in an effort to show by criticism of individual judges that the power of granting temporary injunctions by inferior United States courts should be taken from them in Interstate Commerce Commission cases, and he was followed by Bacon, Bailey, Teller and Foraker in speeches at some length.

Bailey opposed Bacon's contention that the judiciary should not be criticised on the floor of the Senate. Consideration of the army appropriation bill was resumed, and after further amendment it was passed.

Wednesday, May 2.

Washington, May 2.—Daniel continued his speech on the railroad rate bill in the senate today, reporting briefly his objections to Bailey's proviso for the non-suspension by the courts of the orders of the interstate commerce commission. In cases where the courts have suspended the rates of the commission, Mr. Daniel suggested that a substantial bond be required of the railroads.

The rate bill was then temporarily laid aside, and the army appropriation bill taken up. An important amendment authorizes the establishment of a general depot for supplies at Fort Mason, San Francisco, and appropriates $1,500,000 for the purpose. Of the amount appropriated, $750,000 is made immediately available.

Another amendment appropriating $500,000 for a cable from Key West to Panama via Guantanamo, Cuba, was made.

Consideration of the bill was not concluded when, at 5:45 p. m., the senate went into executive session.

Washington, May 2.—The house devoted almost the entire day to discussion of the agricultural appropriation bill, which is now almost completed.

Tuesday, May 1.

Washington, May 1.—By a vote of 153 to 58 the House today decided to continue the free distribution of garden and flower seeds. Many of the items in the agricultural bill broadening the scope of the Bureau of Chemistry and Dr. Wiley's department were eliminated on points of order, particularly those relating to the adulteration of foods, condiments, drugs and beverages. Considerable progress was made on the bill after the free-seed proposition was out of the way, and the bill will be completed tomorrow.

Washington, May 1.—The proceedings in the Senate today included an extended discussion of the railroad rate bill by Daniel, an explanation of the status of the appropriation for the relief of the earthquake sufferers in California by Allison and a controversy among several Senators as to the propriety of adopting without referring to a committee a resolution tendering the thanks of Congress to General Horace Porter for his services in recovering the body of John Paul Jones from its long lost resting place in Paris. In the last mentioned proceedings Aldrich opposed action by the Senate in advance of committee consideration, and succeeded in having the measure referred to the committee on foreign relations.

Statehood Compromise.

Washington, May 5.—All of the minor amendments to the statehood bill are either disposed of or in shape to be made the foundation of argument at a moment's notice.

At today's session of the conferees on that measure the climax of the situation was reached for the first time. The question of the admission of Arizona and New Mexico as one state was discussed at length.

No proposition for a compromise was offered, and the meeting adjourned until Tuesday.

In a general way it is known that the compromise will be the Foraker amendment, allowing the people of the two territories to vote upon the question of being joined in statehood.

Whether this vote is to be coupled with the election for state officers or is to be held prior to such elections is one of the questions yet to be decided.

Were Cruel to Insane.

Washington, May 5.—Inquiry into the conditions at St. Elizabeth's asylum for the insane was begun today by the special committee of the house of representatives appointed by Speaker Cannon. Nearly a dozen witnesses were heard. Evidence was adduced showing that some of the patients who worked in the hospital laundry had been cruelly treated, and some of the witnesses testified that Foreman E. L. Maench, of the laundry, frequently was intoxicated while on duty.

The testimony showed that Henry Setterfield, one of the employes in the laundry, teased the patients and then choked them for becoming angry and excited. None of the patients, according to the testimony, was severely hurt. The inquiry will be continued next week.

Belmont Is Satisfied.

Washington, May 8.—Perry Belmont was asked today what he thought of the proposed amendments to the publicity bill. He replied: "I believe the proposed amendments will improve the bill, which already covers national and congressional committees, but did not provide for the publication of contributions and expenses under the close of campaigns, while the amendments provide for publication, both before and after elections. As the principle of the publicity is preserved intact by the amendments, I am confident that no member of our organization will object to them."

No Cash to Clear Streets.

San Francisco, May 1.—Money for clearing the streets of debris was cut off this morning, and the work consequently ceased, but a great deal of progress has been made upon the principal thoroughfares within the last fortnight. Probably one-tenth of the streets in the burned district are now passable. Lack of funds and ignorance of the amount of the appropriation to be given by the finance committee have, according to Commissioner Thomas Egan, retarded the operations of the Board of Public Works in clearing the streets of debris and garbage and repairing the sewers.

Hermann Still Fights Delay.

Washington, May 1.—Representative Hermann has about abandoned hope of being brought to trial in this city on the letter-book indictment before Fall. District Attorney Baker insists upon postponement on account of the enforced absence of Special Prosecutor Heney from this city. Tomorrow Judge Gould will give Hermann's attorneys an opportunity to show cause why the trial should not be postponed; but there is little expectation that he will disregard the wishes of the Government prosecutors.

Auto Industry Thriving.

Washington, May 8.—The automobile industry, according to a preliminary bulletin issued by the census bureau today, shows a very large increase for the calendar year 1904, as compared with 1900, the year of taking the twelfth census. In the former year 21,386 passenger and pleasure machines were produced, as against 3,316 in 1900, and 1,441 vehicles of other styles in 1904, as against 407 in 1900. In 1900 the amount of capital invested was $20,555,247, as against $5,768,857. The value of products increased 461 per cent, the amounts being stated at $26,645,064 in 1904, as against $4,748,011 in 1900.

Protests Against Barnes.

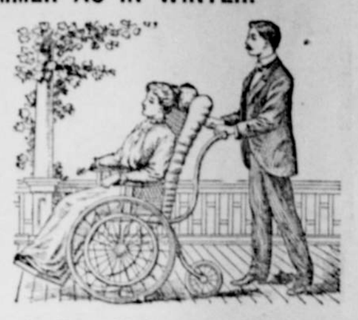
Washington, May 1.—The nomination of R. F. Barnes, assistant secretary to President Roosevelt, to be postmaster at Washington was before the Senate in executive session today. No action was taken. Senator Culbertson stated that a general protest had been filed by citizens against the confirmation of Mr. Barnes, and the postoffice committee had failed to give the protests the consideration of an investigation. The charges relate to the action of Mr. Barnes in having Mrs. Minor Morris ejected from the White House, and that the office should be given to a citizen.

Yellow Macaroni Is Barred.

Washington, May 8.—The department of agriculture today announced that inspection of recent importations of macaroni, noodles, and similar products, contain chemical preservatives, such as fluorids, which are regarded as injurious to health, and that after June 1 next no importation of macaroni colored with martius yellow, or other colors forbidden by the Italian law, or preserved with fluorids or other preservatives injurious to health, will be permitted.

RHEUMATISM

ALMOST AS COMMON IN SUMMER AS IN WINTER.



While the damp, cold, changing weather of Winter intensifies the pains and other disagreeable symptoms of Rheumatism, it is by no means a winter disease exclusively. Through the long months of Summer its wandering pains and twitching nerves are felt by those in whose blood the uric acid, which produces the disease, has accumulated.

Rheumatism is a disease that involves the entire system. Its primary cause results from the failure of the eliminative organs, the Liver, Kidneys and Bowels, to carry out of the system the urea, or natural refuse matter. This coming in contact with the different acids of the body forms uric acid which is taken up and absorbed by the blood. This acid causes fermentation of the blood, making it sour and unfit for properly nourishing the body, and as this vital stream goes to every nook and corner of the body, the poison is distributed to all parts. The nervous system weakens from lack of rich, pure blood, the skin becomes feverish and swollen, the stomach and digestion are affected, the appetite fails and a general diseased condition of the entire system is the result.

Last Summer I had a severe attack of Inflammatory Rheumatism in the knees, from which I was unable to leave my room for several months. I was treated by two doctors and also tried different kinds of liniments and medicines which seemed to relieve me from pain for awhile, but at the same time I was not any nearer getting well. One day while reading a paper I saw an advertisement of S. S. S. for Rheumatism. I decided to give it a trial, which I did at once. After I had taken three bottles I felt a great deal better, and I continued to take it regularly until I was entirely cured. I now feel better than I have for years.

CHAS. E. GILDERSLEEVE.
613 32nd Street, Newport News, Va.

Not only is Rheumatism the most painful of all diseases, with its swollen, stiff joints, throbbing muscles and stinging nerves, but it is a formidable and dangerous trouble. If the uric acid is allowed to remain in the blood, and the disease becomes chronic, chalky deposits form at the joints, and they are rendered immovable and stiff, and the patient left a helpless cripple for life. Every day the poison remains in the system the disease gets a firmer hold. The best time to get rid of Rheumatism is in warm weather; because then the blood takes on new life and the skin is more active and can better assist in the elimination of the poisons. With the proper remedy to force the acid out of the blood, and at the same time build up and strengten the Liver, Kidneys, Bowels and other organs of the body, Rheumatism can be permanently cured. External applications relieve the pain and temporarily reduce the inflammation, and for this reason are desirable, but they cannot have any effect on the disease. The blood is poisoned and the blood must be treated before a cure can be effected.

S. S. S., a remedy made from roots, herbs and barks, is the best treatment for Rheumatism. It goes into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the sour blood so it can supply nourishment and strength to every part of the body, it cures Rheumatism permanently. S. S. S. is the only safe cure for the disease; being purely vegetable, it will not injure the system in the least, as do those medicines which contain Potash or some other mineral ingredient. S. S. S. tones up every part of the body by its fine tonic properties. While cleansing the blood of all poisons it builds up the appetite and digestion, soothes the excited nerves, reduces all inflammation, relieves pain and completely cures Rheumatism in every form—Muscular, Inflammatory, Articular or Sciatic. If you are worried with the nagging pains of Rheumatism, do not wait for it to become chronic, but begin the use of S. S. S. and purge the blood of every particle of the poison. Write for our book on Rheumatism, and ask our physicians for any advice you wish. We make no charge for either.

The Watch-Dog in your Vest Pocket

YOU can buy Health Insurance now.

Several good "Accident" Companies sell it.

Sixty dollars per year will bring you $25.00 per Week, for every week you are Sick.

But, your time alone may be worth far more than that.

And $200 per week might not pay for your suffering.

That's why "Cascaret" Insurance which prevents Sickness, is worth ten times as much money as other "Health" Insurance.

Yet "Cascaret Insurance" will cost you less than Ten Cents a week.

That gives you a "Vest Pocket" Box to carry constantly.

• • •

"Indigestion" means food eaten but only partially digested.

"Constipation" means food retained in the body undigested too long, till it decays.

It then supplies the poisons of decay to the system, in place of the nourishment it might have supplied.

Isn't that a tremendous handicap worth insuring against?

What does it cost to Cure Constipation or Indigestion, with their train of small and great ills, and to Insure against a return of them?

Not so very much.

One 10 cent box of Cascarets per week, at most, perhaps half that.

One candy tablet night and morning, taken regularly for a short time, is warranted to cure the worst case of Constipation or Indigestion that walks the earth.

• • •

One tablet taken whenever you suspect you need it will insure you against 90 per cent of all other ills likely to attack you.

Because 90 per cent of these ills begin in the Bowels, or exist through poor Nutrition.

Cascarets don't purge, don't weaken, don't irritate, nor upset your stomach.

No,—they act like Exercise on the Bowels, instead.

They stimulate the Bowel-Muscles to contract and propel the Food naturally past the little valvgs that mix Digestive Juices with Food.

They strengthen these Bowel-Muscles by exercising them.

• • •

The time to take a Cascaret is the very minute you suspect you need one.

—When your tongue is coated a little.

—When your breath is not above suspicion.

—When your head feels dull, dizzy, or achy.

—When you have eaten too heartily, or too rapidly.

—When you have drunk more than was good for your digestion.

—When you have a touch of Heartburn, Gas-belching, Acid-rising-in-throat, or a Coming-on-Cold.

• • •

Carry the "Vest Pocket" Box where it belongs, just as you would your Watch, Pocket-knife or Lead-pencil.

It costs only 10 cents. At any druggist.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

• • •

IF FREE TO OUR FRIENDS!

We want to send to our friends a beautiful French-designed, GOLD-PLATED BONBON BOX, hard-enameled in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this dainty trinket is loaded. 730

Send to-day, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.

Some Other Town.

"Wants to be a police inspector, does he? Has he anything to recommend him for the position?"

"Yes—he's already rich."
