Intelligent Critic.

"Ha! ha! That was a funny joke you wrote about the fellow who didn't know a 'bunker' from a 'stymie,'" said the golfer.

"Made a hit with you golfers, eh?" replied the funny man.

"Yes. Such ignorance is laughable."

"I suppose so. Say, what are 'bunkers' and 'stymies,' anyway?"—Philadelphia Ledger.

He Was Looking Ahead.

In a cosy chair Mr. Trouble Hunter sat in front of a big warm stove, but looked sad as the smoke curled from his clear Havana cigar.

His lovely wife placed her arm on the top of the chair back and with the other hand stroked his troubled brow.

"Has something gone wrong in business, dear?" she asked.

He remained silent.

"You've been disappointed over something?"

He remained silent and on his face care brooded.

"What on earth is worrying you, dear?" she asked with tears in her voice.

"I was just thinking," he said sadly, "of the approach of spring, when I'll have to take the stovepipe down."—Indianapolis Star.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Planting Corn in Panama.

"Anyone who is willing to work can get rich in the Republic of Panama," said Dillwynn M. Hazlett to a Kansas City Journal writer. "It costs 10 cents a bunch to raise bananas and there is always sale for them at 30 cents a bunch. Three crops of corn can be raised a year and no cultivation is required. A man walks along and drops the corn in the footprints he makes and a native follows and covers the corn with his big toe. That is all there is to do until it is time to gather it."

He Read the Signs.

One morning two young women entered the Saltville grocery, and after some discussion bought a pound of dates, two pounds of gingersnaps and two pounds of crackers.

"Stopping at Miss Gray's?" inquired the clerk, as he tied up the bundles.

"Yes," said one of the young women, with evident surprise.

"Came about yesterday forenoon?" said the clerk.

"How did you know?" asked the other young woman, curiously.

"Um. Well, I can most generally tell," said the clerk, without glancing at the objects of his mind-reading. As he twitched a knot in the string. "You see, it's pretty drizzly and muddy today, and I knew there wouldn't be anybody's boarders but Miss Gray's feel the need of coming out here such weather; and long as you didn't come till today, I knew for sure you couldn't have been here more'n one day. Three meals is about the average."

Indianapolis Transportation Facilities.

Indianapolis has 18 railroads, reaching all the important cities of the Central West, and 14 interurban electric lines and connections extending from 25 to 75 miles in every direction. These bring into Indianapolis an enormous trading population. From a radius of 50 miles more than 25,000 manufacturers and dealers come to Indianapolis for their supplies. Editors and publishers will visit Indianapolis in June, the occasion being the annual convention of the National Editorial association.

Fallacy About Jewelers.

Jewelers, when watches are with them for repairs, are frequently insulted with the remark:

"I trust there is no danger of crystals being substituted for the jewels in the works of my watch."

For a great many persons think there are dishonest jewelers who make a practice, with "full-jeweled" watches, of substituting crystals for the jewels at an enormous profit.

As a matter of fact, there is no truth in this suspicion. A jeweler, no matter how dishonest, could not steal the jewels in a watch, for they are valueless; they only cost 10 cents apiece.

In antique watches the jewels were often costly. In modern watches they are never worth more than $15 a gross.

IN THE NATIONAL HALLS OF CONGRESS

Monday, June 11.

Washington, June 11. — The senate this evening passed the Mondell bill amending the national irrigation law so as to permit the secretary of the Interior to reduce the minimum area of farm units in government projects from 40 acres to 20 acres. The bill was amended in the senate by prescribing regulations for granting an extension of time to settlers under irrigation projects for completing entries when delay is caused by failure of the government to complete the project and furnish the water in time to complete entries in the time specified by the land laws.

It was amended also by the insertion of a provision authorizing the secretary of the Interior to appraise lots in Heyburn and Rupert townsites and sell them to occupants who have erected permanent buildings thereon not readily removable.

Washington, June 11.—After nearly four hours spent in the consideration of legislation affecting the interests of the District of Columbia, the house today resumed consideration of the sundry civil bill, and, after an hour and a half spent in its consideration, adjourned. An amendment was passed, permitting the appointment of retired officers of the United States corps of engineers, U. S. A., as members of the International Waterways commission, as provided for in the river and harbor bill creating this commission.

The house in committee of the whole refused to make an additional appropriation for marking the places where American soldiers fell and were temporarily interred in Cuba and China, on the ground that it was a bad precedent.

Saturday, June 9.

Washington, June 9. — The bill prohibiting corporations from making campaign contributions was passed by the senate without debate this afternoon. It makes it unlawful for any national bank or any corporation under a government charter to make a contribution in connection with any election and also unlawful for any corporation whatever to make a contribution to any presidential, senatorial or congressional election whatever.

A fine not exceeding $5,000 is the penalty for offending corporations, and a fine of not exceeding $1,000 for every officer or director who shall consent to the granting of any contribution.

Washington, June 9.—The item in the sundry civil appropriation bill appropriating $25,000 for the president went out in the house of representatives on a point made by Williams, of Mississippi. The decision, however, that the matter was new legislation came after a free discussion, Democrats and Republicans generally expressing themselves in sympathy with the idea of giving the president a fund for railroad expenses.

Beyond the debate on the president's traveling expenses, the house devoted the day to the sundry civil bill. Sulzer, of New York, talked on good roads and Sims, of Tennessee, discussed the rural free delivery box question, which, he said, will grow into a scandal should the government persist in compelling rural patrons to purchase certain styles of boxes.

Friday, June 8.

Washington, June 8.—The senate today listened to two set speeches, one by Morgan in support of his resolution providing for an investigation by a senate committee of the affairs of the Isle of Pines, and the other by Hopkins in opposition to the sea level canal bill. Neither measure was acted on. Some time was also spent in considering the District of Columbia appropriation bill.

Wahington, June 8.—With the exception of an hour spent on pension legislation, in which time 327 bills for the relief of Civil and Spanish American war veterans were passed, the house labored today on the sundry civil bill, making much headway.

Under the lead of Keifer, of Ohio, the house refused to transport silver coins and other money by registered mail, insisting that their transportation should be handled by the express companies. During the arguments it was contended that the West and South need silver dollars for circulation.

Thursday, June 7.

Washington, June 7.—The senate today sent the rate bill back to conference, after a debate on several topics, which ended in the rejection of the conference report.

Objection was made by Tillman to any effort to instruct the conferees, as proposed, by Hale, who then withdrew his motion that it was the sense of the senate that no railroad employes and their families should be exempt from the anti-pass amendment.

Daniel and Carter opposed stringent anti-pass legislation, the latter saying that the postmaster general should have authority to issue passes over every railroad in the United States to members of congress, to afford opportunity to obtain information of the railroads.

Washington, June 7. — Representative Prince in the house today during the discussion of the sundry civil bill spoke of the anti-pass amendment to the railroad bill and of the bill itself and insisted that the country would hold the house primarily responsible for depriving 1,296,121 railway employes, as well as members of their families, of free transportation; likewise persons actually and necessarily in charge of livestock, who are deprived of free transportation when going to point of shipment or returning from point of delivery.

Wednesday, June 6.

Washington, June 6.—When the conference report on the railroad rate bill was taken up by the senate today, the anti-pass conference amendment received the attention of Spooner. In the main he endorsed the prohibition of passes, but he contended that there should be exceptions, including railroad employes. Congress had no right, he said, to step between empolyer and employe.

Washington, June 6.—The consideration by the house of the sundry civi appropriation bill in committee of the whole today was made the occasion of some severe strictures by Democrats of the heads of departments for exceeding their legal powers, Sullivan, of Massachusetts, leading the attack.

Tawney, in explaining the provisions of the bill, which deals with all departments of the government and is the next to the last money bill to be acted on by the house, stated that the total appropriation for the sundry civil expenses for the fiscal year 1907 carried by this bill is $94,342,156. Of the total amount $25,456,575 is for the Panama canal and is reimbursable from the proceeds of the sale of bonds. In addition to this sum, the amount carried for river and harbor acts, and especially by the act passed at the last session of congress, is in excess of the amount appropriated in the current law for that purpose by 6,774,044.

Tuesday, June 5.

Washington, June 5. — Before the senate had begun business in earnest today Senator Hale took the floor to urge the importance of all possible promptness in the disposition of the appropriation bills.

"This," he said, "is absolutely necessary if we are going to adjourn before the end of this month, and do the very best we may it will be the very last days of the month before we can possibly get through."

He gave notice that immediately after the close of the routine morning business today he would move to take up the naval appropriation bill, and he suggested that this bill should be followed by other appropriation bills, even to the exclusion of conference reports. He called attention to the fact that there are six of the big appropriation bills still unacted on by the senate.

Washington, June 5.—In many particulars today was a "red letter" day in the house, not only in the number of bills passed, but in the general character of the legislation enacted. What bids fair to cause endless trouble, the naturalization bill, was passed under suspension of the rules, the speaker and the gentleman in charge of the bill, Bonynge, of Colorado, doing team work of a superior kind.

The house refused to pass a bill leasing to a private firm or corporation the right to mine coal on the island of Batan, in the Philippine group, although it was stated that such a lease would decrease the amount paid by the government for coal very considerably.

For two hours the house worked under suspension of the rules. The rest of the day was taken up with the passage of bills by unanimous consent.

Calls for All Information.

Washington, June 11.—Representative Fulkerson, of Missouri, has introduced a resolution calling on the president and the secretary of agriculture to immediately make public any and all information that they may secure from "the great army of meat inspectors employed by the government," or from any other source that will tend to credit or discredit the product of any plant where meat products are prepared. The resolution also calls upon the secretary to immediately give his opinion of conditions of the plants.

Save Life on North Coast.

Washington, June 5.—Senator Piles offered the following amendments to the sundry civil bill: Appropriating $30,000 for a lifesaving station at Neah bay, Washington, authorizing a life saving station at Cape Flattery, $30,000; appropriating $60,000 to establish three life saving stations between Cape Flattery and Grays harbor; appropriating $30,000 for a lighthouse on Eliza island, Fallingham bay; appropriating $255,000 for a revenue cutter for Puget sound, and $10,000 for two steam vessels for the revenue service.

Eight-Hour Law in Islands.

Washington, June 11.—In response to a complaint by President Gompers, of the American Federation of Labor, Solicitor Charleton, of the Philippine government, has reported to Secretary Taft that the eight hour law is enforced in the Philippines and is held to apply to all works there provided for by appropriation of public money of the United States. As to the employment of Chinese laborers, the solicitor says they are now excluded.

Gatch Made Bank Examiner.

Washington, June 11.—On recommendation of Senator Fulton, Claude Gatch, of Salem, has been appointed national bank examiner to succeed A. J. Johnson, of Corvallis, who resigned upon being elected to the legislature. Mr. Gatch is assigned to duty in Oregon, Washington, Idaho and Montana. Mr. Fulton first recommended Frank Meredith, of Salem, but he had had only limited experience in banking business and the department insisted upon having a man thoroughly familiar with banking.

Nebraska Balks at Drydock.

Seattle, June 55—The battleship Nebraska, building at Moran Bros., tried twice this morning to get back to her dock and each time was swung away from the slip by a heavy wind and a strong ebb tide. Once she came near ramming the company's dry dock and the second time narrowly escaped crashing into the Pacific Coast company's coal bunkers. Then the attempt was given up and the boat taken out to a city buoy. The battleship was taken out Saturday for a preliminary trial spin.

No Mail for Seward Peninsula.

Seattle, June 5.—Because of the fact that the postal department made no arrangements for the forwarding of mails from Seattle to Nome this year, no mail will be forwarded to the Seward peninsula for some time. Last year the government paid 4 cents a pound on mail from Seattle to Nome and St. Michael. The steamship companies advanced the rate to 8 cents this year. The department has asked for bids for the contract, to be opened June 19.

Oil Tank Set on Fire.

Neodesha, Kan., June 12. — Lightning struck an oil tank containing 18,000 barrels of oil, the property of the Prairie Oil & Gas company, a Standard branch here, early today, and caused a fire loss of $150,000. The burning oil set fire to the pumping station, and all the company's buildings, including some of the largest pumps in the world, were destroyed. The destruction of these pumps will stop the pumping of oil to Kansas City and Whiting, Indiana, refineries, and may cause the Prairie company to cease buying oil.

Plans of French Cabinet.

Paris, June 12.—The cabinet today definitely drew up a statement of the government's plans for presentation to the chamber of deputies tomorrow. It indicates the necessity of the making up of deficits in the budget, and for that purpose will ask for supplementary taxation; announces the presentation of an income tax bill, affecting particularly incomes from capital and the intention of hastening a bill in the senate for workingmen's pensions.

American Meat Is Barred.

WOULD ROB INDIANS

Senate Passes Bill Allowing Big Graft on Colvilles.

PRESIDENT MAY USE VETO POWER

Expired Contract Revived Which Will Allow Attorneys Fees of $150,000 Without Earning It.

Washington, June 12.—The senate yesterday placed its seal of approval on the Colville graft, which was slipped into the Indian appropriation bill conference report, whereby these Indians will be robbed of 10 per cent of the $1,500,000 appropriated for them for surrendering the north half of their reservation, the said 10 per cent to be distributed among 10 attorneys who claim to have procured this appropriation. For bold, unalloyed graft this legislation has no equal and what is equally surprising, it received the votes of both Washington senators.

This graft was so foul smelling that no attempt was made to pay part of the Indian money to these lawyers while the bill was being regularly considered by either the house or the senate, but the provision was slipped in by the conference committee contrary to the rules of parliamentary procedure. The offensive amendment does not directly authorize the payment of $150,000 to these lawyers, but requires the court of claims to determine how much they are respectively entitled to, no one lawyer to receive more than $15,000.

Vigorous attacks were made on this amendment on two grounds. First: The contract originally made with the Colvilles under which the attorneys were to receive $150,000 if they secured an appropriation of $1,500,000 expired in 1904, and nothing had been accomplished in the meantime. Today, when the appropriation is made, there is no contract in force, Secretary Hitchcock having refused to renew it because he believed the scheme a graft. Therefore it is contended that the lawyers had nothing on which to base a claim for pay.

But, what was more important, it was shown by Mr. Clay that these lawyers had in fact rendered the Colville Indians no service; had done nothing to earn the $150,000, and were not entitled on any theory to one cent of the Colville money, but, as soon as congress authorized the payment of the Colville claim, the lawyers rushed in and attempted to collect a fee they had not earned.

So nauseous has become this evident graft that an attempt will be made to defeat this provision when the Indian bill comes up for final approval in the house, but if the house concurs it is not improbable that the president will veto the bill and send it back for reconstruction.

WHAT CLAIMANTS HAVE TO SAY

Claim is Just, and They Have Spent Money for Indians.

Spokane, June 12.—F. C. Robertson is best known for his defense of the Couer d'Alene dynamiters in 1899. M. J. Gordon is attorney for the Great Northern in Spokane and R. W. Nuzum is a criminal attorney of considerable local reputation. Mr. Nuzum said:

"The amendment that was passed, putting the claim up to the court of claims for settlement, was my own suggestion. It was such a large amount that we all concluded that we would rather take our chances with the court of claims than in congress with such fellows as Tillman against us, as we had reason to believe that he would be. The claim is a just one, has been before the authorities for 16 years and we have never received a dollar on it. We have spent more than $8,000 in getting the matter before congress and this is as near as we have come to a settlement. The committee told us a year ago that on account of the large appropriations then they would like to have us wait a year. We have done so and now I believe the claim will finally be settled."

Reinke Given Five Years.

Milwaukee, Wis., June 12.—Arthur George Reinke, formerly receiving teller of the Marshall & Ilsley bank, was sentenced to five years in the state reformatory at Green Bay on charges of embezzlement of $14,000, by Judge Brazee this morning. He had entered a plea of guilty to the complaint, which charged him with having converted to his own use $3,000 on May 22, 1905, and $11,000 on November 22, 1905. The charge was brought under the law of 1903, relating to embezzlement by bank officers and employes.

Billings a City of Tents.

Butte, Mont., June 12.—A Miner special from Billings says: Registration for the opening of the Crow reservation begins here Thursday. Billings is becoming a tent city, and not since the pioneers crossed the plains have so many prairie schooners and tent wagons lined the streets. Homeseekers are arriving daily—on horseback, on trains, in wagons and afoot. Tents are being pitched on every available lot. Excursionist rates went into effect yesterday, and people are headed toward Billings.

Yellow Jack Brought In.

New Orleans, June 12.—The fact that three cases of yellow fever have been under quarantine in the past ten days at Ship island, a government quarantine station in the Gulf of Mexico about midway between the mouth of the Mississippi river and Mobile, Ala., was made public today by Dr. C. H. Irion, president of the Louisiana state board of health. The cases came from Colon and were taken off the steamer Whitehall.

Grandfather's Cure for Constipation

GREAT medicine,—the Sawbuck.

Two hours a day sawing wood will keep anyone's Bowels regular.

No need of pills, Cathartics, Castor Oil nor "Physio," if you'll only work the Sawbuck regularly.

Exercise is Nature's Cure for Constipation and,—Ten-Mile walk will do, if you haven't got a wood pile.

* * *

But, if you will take your Exercise in an Easy Chair, there's only one way to do that, and make a Success of it.

Because,—there's only one kind of Artificial Exercise for the Bowels and its name is "CASCARETS."

Cascarets are the only means to exercise the Bowel Muscles, without work.

They don't Purge, Gripe, nor "upset your Stomach," because they don't act like Cathartics.

They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Calomel, Jalap, or Aperient Waters, always do.

No,—Cascarets strengthen and stimulate the Bowel Muscles instead.

These are the Muscles that line the Food passages and that tighten up when Food touches them, thus driving that Food on to its finish.

They are the Muscles that turn Food into Strength through Nutrition.

* * *

Well,—a Cascaret acts on your Bowel Muscles as if you had just Sawed a cord of wood, or walked ten miles.

That's why Cascarets are safe to take continuously in health; and out of health.

Because they move the Food Naturally, digesting it without waste of tomorrow's Castric Juice.

They thus work all the Nutrition out of it before it decays.

The thin, flat, Ten Cent box is made to fit your Vest Pocket, or "My Lady's" Purse.

Carry it constantly with you and take a Cascaret whenever you suspect you need one.

Thus you will ward off Appendicitis Constipation, Indigestion, — and other things besides.

SEVEN YEARS AGO

A Rochester Chemist Found a Singularly Effective Medicine.

William A. Franklin, of the Franklin & Palmer Chemical Co., Rochester, N. Y., writes:

"Seven years ago I was suffering very much through the failure of the kidneys to eliminate the uric acid from my system. My back was very lame and ached if I overexerted myself in the least degree. At times I was weighed down with a feeling of languor and depression and suffered continually from annoying irregularities of the kidney secretions.

I procured a box of Doan's Kidney Pills and began using them. I found prompt relief from the aching and lameness in my back, and by the time I had taken three boxes I was cured of all irregularities."

Sold by all dealers; 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

"Tommy, you were not at school yesterday. Why was that?" asked the teacher.

"I was sick, ma'am," answered Tommy.

"I am sorry to hear it. What was the trouble?"

"I had an awful sore thumb."

"That is too bad. What caused it?"

"I—I stepped on a rusty nail, ma'am."

Then the teacher knew that Tommy had played hookey and gone to the ball game.

THERE IS NO SLICKER LIKE TOWER'S FISH BRAND

Forty years ago and after many years of use on the eastern coast, Tower's Waterproof Oiled Coats were introduced in the West and were called Slickers by the pioneers and cowboys. This graphic name has come into such general use that it is frequently though wrongfully applied to many substitutes. You want the genuine. Look for the Sign of the Fish and the name Tower on the buttons.
