WE HAVE BEEN A LITTLE SLOW
In getting ready for business, because of circumstances over which we did not have control. But we are now about ready for business again and we invite customers to come and see us. You will find that in close figures our **PRICES ARE NOT SLOW**

It is our purpose in a few days to inaugurate **Special Sale Days** Which, if you will attend, will prove immensely to your advantage. We pay the highest market price for merchantable produce. We need the business and expect to do business; for our prices are such that will convince the most skeptical, that we sell goods as cheaply as any other house in the valley.

Call and see us.

THE BOHEMIANS CELEBRATE.

A most enjoyable social celebration was given by our Bohemian citizens some four miles east of Scio on Thomas creek during the afternoon of the 4th.

Just as the News editor and his hostess reached the grounds the old time familiar sound of the rattle of a musketry, gave evidence that the battle of "Leaving to us" as stated on the bill of "One good" as given in the program, was on.

At all events we noticed a file of "Redskins" with depleted ranks were several driven back by the "Minute Men" stationed at every fence corner.

An amusing number of a number of supposedly wounded with hospital corps in attendance, was also in evidence. The battle being ended and the "Redskins" property seized, the victorious American army returned marching to the inspiring strains of "Yankee Doodle."

The second number on the program was the parade. Following the band, was a handily decorated liberty car with the motto of Liberty standing upon a raised dais, and who was surrounded by some dozens of little girls in the capacity of "Johns." Just as the parade was passing the grove the horses suddenly frightened and ran, scattering the upper band of "Uncle Sam's." Fortunately the refractory team was brought to a standstill without any harm.

The principal feature of the parade, though he was required to give just about as energetic action to control his frightened team, as President Roosevelt did in enacting the freight rate law.

Number three on the program was an exhibition of training of dogs by several young men residents of the neighborhood. The various stunts performed by such dogs were very quite interesting to the large audience.

The young men were very good indeed. The principal feature of the celebration was the social enjoyment—neighbor visiting with neighbor and friend with friend, and the crowd was not too large to comfortably enjoy themselves.

Very orderly, no loud talking or swearing to mar the pleasure of the day, our Bohemian fellow citizens have certainly shown themselves to be models of propriety and certainly worthy of the enjoyment of the day.

Stellmacher, the retiring deputy, will be succeeded by W. L. Moore, Sheriff-elect H. Fisher will be succeeded by the retiring deputy, who will be succeeded by the retiring deputy, who will be succeeded by the retiring deputy.

After three months' work in New York in the interest of the Co-operative Christian Federation, W. H. Wallace, president of the federation, returned to Portland today. H. S. Wallace, president of the federation in New York, is now attending to final details that are now to be advanced by the two men simultaneously at both ends of the line.

Mr. Wall said: "The situation looks good for the federation. We are nearly ready to close up the completed arrangements for financing the enterprise along the lines that were planned by me in my departure. The Corvallis & Eastern Railroad will be built through the state from Astoria to Ontario and into Portland. The reception extended to the federation plan in the East was favorable in every respect. The country was very interested in large means are deeply interested in the idea of co-operation. They see in it the way to a better condition than Socialism for everyone concerned. Co-operation will encourage individualism. It is the next step for modern civilization to take in its industrial progress."—Portland Journal.

Mineral Springs Seminary.

Dr. Jones, of Scio, has been on business connected with the purchase and reopening of the Mineral Springs Seminary, which will be done in September by President J. H. Gooden and a competent corps of teachers, under favorable auspices. It is proposed to run the seminary with several popular departments to the work, including a good musical department under a good teacher.

A Swedish servant-maid finding that her mistress was practicing with a sleeping pill told her of a trouble of the people of her country who were similarly afflicted. It was to take a napkin, dip it in so-called water, wring it slightly and lay it across the eyes. The pill was laid on the eyes and it worked like a charm.

The first night the lady slept four hours without waking—something she had not done for several months. At the end of that time the napkin had become dry. By wetting it again she at once went to sleep, and it required considerable force to arouse her in the morning.—Exchange.

EARLY BATHING NEWS.
I now attempt to write you my second and last letter. I am yet an occupant of the little hut surrounded by sand and sagebrush, but I am not alone here in this lonely spot where silence is broken only by the rattle of a lost bird or the howl of the sagacious coyote.

As I forgot to mention John's ranch in my other letter, perhaps I can say something about it in this letter, he has a fine weather scene unmeted today; the wind is almost strong enough to blow the hair off one's head. We have not had an electric storm. From what I had heard of these storms I expected the wind to be torn up all around me, but as yet I have failed to hear such terrific crashes of thunder as I have heard in the valley. Notwithstanding all this inclemency we have had some pleasant weather and everything is moving. Haying is well along and heading is at hand. Crops look fine. The Heppner vicinity will have at least an 80-day harvest. Wages run from \$2 to \$3.50 per day and it is impossible to except the amount for labor at these figures. Farmers are running over one another trying to engage hands.

This is a good farming as well as a stockraising country. Farmers expect their wheat to yield twenty-five bushels to the acre. Twenty bushels is an average yield except in exceedingly dry seasons. I have obtained my information from old residents who are reliable persons. The cattle here has been increasing here in late years and farmers certainly little doubt as to rain harvest. Farms are rather large in this country, a thousand acres being an average sized farm. One of our neighbors has 400 acres of wheat in one field and another has 300 others in this vicinity who have larger fields than this. Some have as high as 1000 acres in one field. Any soil to which the farmer is applying the best looking horse. The people are prosperous. Many of the farmers are in almost opulent circumstances.

It is rumored that the O. R. & N. Co. contemplates building the railroad through to Baker City from Heppner. If this is done a great deal of country adapted to agriculture that is now abandoned by the lack of local markets and means of transportation will be greatly benefited. The railroad has practically made the Heppner country what it is. Before the construction of the railroad to Heppner, this country was devoted entirely to stockraising, but since that time stockmen have been forced to give up the raising of stock and have turned to agriculture. A great deal of land on which there was nothing but scattering sage bushes, are now large fields of wheat. Areas that were then devoid of people are now dotted with houses. This country has not yet reached its limit of development. Development has merely begun.

Heppner anticipates a glorious time this fall. The following is their program in substance: Ten-dollar prize for the person bringing in the best looking horse; \$50 prize for the best rider; \$10 for the one who can ride the wild American.

The Butter Creek country is not the only country that is being lamed by the coyotes. John and I were awaked at daybreak the other morning by the barking of these dog like wolves. As soon as John ascended where he was and what he saw, he was in a very unusual manner and lost no time in getting his 30-50 in hand. By the time he was ready for battle, the coyotes had retreated. John pursued the retreating vermin but nothing was killed, save time and ammunition.

In conclusion I will say that with all the strange sights and adventures of Eastern Oregon, I am yet within the limits of the beautiful Willamette Valley and I hope to see it again in the not far distant future.

Yours Truly,
VIRGIL CALAVAN.

CORRESPONDENCE
BUTTER CREEK ITEMS.

On June 15th, we had a typical water spout. We will remember the experience, but some families on Butter Creek took for the hills to escape the flood. Some damage was done to the irrigation ditches and the alfalfa which was cut in many places. The roads have great gorges cut in them and the canyons and hill sides show marks of the great amount of water which swept down them.

The Moore, Calavan and Irvine families have been down on Butter Creek gathering raspberries.

Frank Irvine has completed his well, water seems to be plentiful here for at least one day and has four feet of fine cold water in the well.

Wade Calavan went to the Mountains with a band of Mr. Yee's cattle and later rode to Pilot Rock to bring back a wagon and team for Mr. Yee.

Mrs. Irvine and daughters and Mertie Calavan were visiting Mrs. Barker on Butter Creek, last Friday.

George Daley who has been working during haying has finished and is now resting on his homestead.

Frank Irvine, Mike, Perry and "Bud" Blyden have been getting up hay for Mr. Matthews on Butter Creek. From the amount of hay Frank and Mike stacked in two days, Mr. Matthews decided that they were very rapid workers, but the boys have been unable to take part in any activities since their haying campaign.

Zelpha Munkers attended a birthday party at Mr. Bellin's home last week.

Last Sunday was the regular quarterly meeting of the U. B. church at Pine City, a big basket dinner was given and all the "Sky Ranchers," as the Scio people are called, were there with their baskets and ravenous appetites.

Maud Irvine and Evelyn Blyden were callers on Butter Creek, Friday.

Mrs. Cyrus and Miss Rose Moore visited at Moore two days and Mr. Cyrus went on to the valley while Miss Moore returned to Spokane.

John (Bud) Blyden is set for visiting his brothers and sister, also looking for a homestead. He is well pleased with the country and hopes to locate here.

Erma Irvine and Myrtle Calavan attended a Wedding Dinner at Mr. Wigglesworth's given in honor of Arthur Earl who has recently been married.

The young men of Butter Creek are very kind to Mrs. Irvine and Mrs. Calavan, for last week they brought up two buggy loads of garden vegetables. The buggy, which went to Calavan's was so heavily loaded that it broke down.

Price Munkers' family visited Mr. Jenks, who is a homesteader from Albany, during last Sunday. On Thursday Mr. Jenks and family left for the valley.

Sunday afternoon Waldo Vincent, Fred Bartholomew and Myrtle Calavan attended a Wedding Dinner at Mr. Wigglesworth's given in honor of Arthur Earl who has recently been married.

Many people out here are planning to spend the Fourth in Heppner.
