

A PRETTY MILKMAID

Thinks *Peruna* is a Wonderful Medicine.

MISS ANNIE HENDREN.

Miss Annie Hendren, Rocklin, Wash., writes: "I feel better than I have for over four years. I have taken several bottles of *Peruna* and one bottle of *Manan* lin."

"I can now do all of my work in the house, milk the cows, take care of the milk, and so forth. I think *Peruna* is a most wonderful medicine."

"I believe I would be in bed today if I had not written to you for advice. I had taken all kinds of medicine, but none did me any good."

"*Peruna* has made me a well and happy girl. I can never say too much for *Peruna*."

Not only women of rank and leisure praise *Peruna*, but the wholesome, useful women engaged in honest toil would not be without Dr. Hartman's world-renowned remedy.

The doctor has prescribed it for many thousand women every year and he never fails to receive a multitude of letters like the above, thanking him for his advice, and especially for the wonderful benefits received from *Peruna*.

Only the Promise.
A big sea turtle was swimming around in the tank in front of the restaurant.

"Look, papa!" exclaimed the little boy. "Let's go in and have some real green turtle soup!"

"Not yet, Goodie," said the father. "Wait till some day when you see this tank empty."

Bed Contempt.
Girl with the Gibson Girl Neck—Can't you see something familiar in the fact of that girl sitting on the opposite side of the car?

Girl with the Julia Marlowe Dimples—Yes, it's her eyes. I wish her'd be a little less familiar with them.

TERRIBLE TO RECALL.
Five Weeks in Bed With Intensely Painful Kidney Trouble.

Mrs. Mary Wagner, of 1367 Kosuth Ave., Bridgeport, Conn., says: "I was so weakened and generally run down with kidney disease that for a long time I could not do my work and was five weeks in bed. There was continual beating down pain, terrible backaches, headaches and at times dizzy spells when every-

thing before me. The passages of the kidney secretions were irregular and painful, and there was considerable tenderness and odor. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure."

APPEAL TO PEOPLE

Russian Parliament Tells Them Not to Pay Taxes.

CZAR MAY IMPRISON LEADERS

Guards Prevent Newspapers From Publishing Revolutionary Manifesto—Much Disorder.

St. Petersburg, July 24.—The great news of today is the adoption of an address to the people by the deputies to parliament, who assembled at Viborg, the language of which, with its republican demands that the people cease to furnish money and troops to the government and repudiate further loans, affords pretext enough for the government to lodge its authors in the fortress if it feels strong enough. A rumor was spread tonight that this course had been decided upon.

Copies of the appeal to the people are in the hands of all St. Petersburg newspapers, but it will scarcely be printed tomorrow, for the reason that a detachment of police is posted at the door of every newspaper printing office in the city, with orders not to permit any papers to leave the building until authorized by the censor. The authorities hope by equally vigorous measures to prevent the publication of the appeal in other cities, and in the meantime to nullify the fears of the people as to the possible effect of the appeal.

Meanwhile the masses of the Russian people, slow of thought and action, have not yet roused themselves to the gigantic appeal which is sure to follow the dissolution of their parliament. Minor disorders are reported from half a dozen cities. An incipient anti-Jewish outbreak at Odessa has been checked by the police. A sympathetic strike has been begun at the Kharkov railroad shops, which may inaugurate a general strike of communication, but St. Petersburg, Moscow and most of the other great centers are still calm.

SECRETS OF DREADNAUGHT.

British Admiralty Makes Public Her Plan of Armament.

London, July 24.—The first official announcement regarding the battleship Dreadnaught is contained in a white "look on naval construction the past year, which was issued tonight. It sides ten 12 inch guns announced, the Dreadnaught will have 27 12-pound quick firing anti-torpedo boat guns and five submerged torpedo tubes.

In view of the modern possibilities of torpedo boats and considering especially the chances of a torpedo attack toward the end of the battle, the anti-torpedo boat guns are widely separated so that the whole of the ship cannot be disabled by one shell.

The speed is designed to be 27 knots. The tonnage is 2,700 tons, with which the Dreadnaught can steam 5,800 sea miles at economical speed and 3,600 miles at 15 knots.

The estimated cost of the Dreadnaught, including guns, is \$8,987,485.

MANY BURIED ALIVE.

Building in Massachusetts Town Collapses on Workmen.

South Framingham, Mass., July 24.—At least eight and perhaps twelve that number of masons, plumbers and Italian laborers were crushed to death today in the sudden collapse of a building in process of erection on Concord street, while ten others were dragged out of the wreck, some seriously injured. At a late hour tonight ten men were missing and a large force of laborers was at work on the ruins, searching for the dead.

Firemen and members of the Ninth regiment of infantry of the state militia, in camp here, succeeded in digging out half a dozen injured, and later found others.

Bay Schools Are Opened.

San Francisco, July 24.—The public schools of San Francisco opened Monday for the first time since the fire and were well attended. At nearly 30 school buildings were destroyed, the schools in some of the districts were badly overcrowded, and will be conducted on the half-day session plan. The conditions, however, were more favorable than had been expected by the authorities. School Director Oliver estimated that the registration is about 60 per cent of the children registered before April 18.

Panic Among Odessa Jews.

Odessa, July 24.—The Jews here are in a state of panic, fearing an anti-Jewish outbreak as the result of the killing of a drunken Cossack who recently wandered through the Jewish quarter brandishing his saber and shouting: "Death to the Jews." Governor General Kaulbars, addressing a delegation of Jews today, said: "I vouch for my soldiers, but I am unable to say what the Cossacks or Christian civilians might do." The slightest incident might start trouble. Cossacks this morning looted three Jewish shops.

Bloodshed by Railroads.

Washington, July 24.—The accident bulletin, which has just been issued by the Interstate Commerce commission for the three months ending March 31, 1906, shows the total number of casualties to passengers and employees to be 18,296. The number of passengers and employees killed in train accidents was 274. The total number of collisions and derailments was 3,490, of which 289 collisions and 167 derailments affected passenger trains.

British Express a British Address.

London, July 24.—A British address of sympathy with the Russian people and parliament is being circulated. Already the signatures of many persons have been obtained.

FARMS AND FARMERS

Home-Made Grain Box.

There is enough grain stored on every farm to warrant the building of a grain box, particularly when one can be built for a very small sum and with but little labor. Such a box is easily constructed from dry goods boxes, using a number of the same size to obtain the desired capacity and setting them out to end, fastening them together or not as desired. The fronts are cut so as to obtain the proper slant and then a cover is made so that the box or boxes may be locked if necessary. Provisions are made in the inside for the quantity of each kind of grain to be stored. The boxes are set on legs about fifteen inches high and each of these legs has an inverted cup of tin placed on it near where the leg joins the box.

How to Grind Grape Vines.

The grinding or ringing of grapevines is done to increase the size of each cluster. It is not done generally, however, although some find the method profitable. The bark is entirely removed before the fruit cluster about a month before the period of ripening which hastens maturity about a week or two and enlarges the bunch and berries in the individual bunches. The method is as follows: The vine is cut into sections of the wood to sustain growth, but the elaborated sap descends through the wood and the bark can go no lower than the point at which the grape is made, where it stops and is left in the form of a knot. In July is done the vine before the griddle and hence it may not pay on an extensive scale.

Jumpers to Break Tails.

A Canadian farmer says that there is nothing yet discovered so useful in breaking a calf in winter as the old-fashioned "jumper." A jumper is simply a wooden frame with a rope or chain attached to the top and a hook or ring at the bottom. It is used to break a calf's tail by passing it over the top of the jumper and pulling it down.

Good Tools for the Hogs.

If the hogs are growing as fast and doing as well as they can do, nothing is needed in the way of medicine. But if they are a little off in any way, a few doses of the following will straighten them out.

Wood charcoal, 1 pound; sulphur, 1 pound; sodium chloride, 2 pounds; sodium bicarbonate, 2 pounds; sodium hypophosphite, 2 pounds; sodium sulphate, 1 pound; salicylic sulphide, 1 pound. Pulverize and thoroughly mix. The dose is a large tablespoonful for each 200 pounds weight of hogs to be treated, given once a day. The hogs will eat this mixed in their food, unless very ill, when it should be poured into their mixed in water.

Barrenless Barley Crop.

Barrenless barley is entirely free from barbs, unless the seed is accidentally mixed with some other variety. It does not yield so well as some of the seeded sorts, nor is it a good mowing barley. It is a good feed for pigs, sheep or fowls and for horses when crushed. Its distinguishing advantage is that it starts up well and ripens very early, coming in the ground soon enough to let the clover or alfalfa sown with it take possession before it is the least weakened by shading. It is the best sward-crop yet found for clover or alfalfa, and for that purpose is recommended.

Field of a Million Acres.

The largest fenced pasture field in the United States is on the Blackfoot Indian reservation, in Montana. This field contains 1,500,000 acres, and the 200 miles of barbed wire fence inclosing it have been completed. About 400,000 pounds of wire were required for the work. There are 60,000 head of cattle wintering in this pasture, half of which belong to the stockmen, who are paying for the privilege of pasturing.

Feed for Hare in Food.

While in food the hare does not necessarily require food different in quality from that fed at other times, but all things being equal, the quantity should be somewhat larger. Oats are the best feed, yet shorts and bran may be fed with beneficial results. Mashies may be given occasionally, and where possible cooked feed may be supplied at night three times a week.

A calf kept winter and summer in thirty growth at 2 years will make as much more beef than one negligently kept at twice that age. The profit will all be found on the 2-year-old and the loss on the 4-year-old, yet owners of the latter have pursued such a system if system it can be called—with the idea that they were saving money. Keep the thirty animal two years longer in the same way, and something very handsome in the way of beef will be the result, while the starving calf never pay the expense of rearing and feeding.

More Like It.

"Graphiter is in financial straits, I hear."

"Don't believe it. I'll bet they're financial crooked."—Philadelphia Ledger.

Usual Dash of Cold Water.

Bonus—I've been nearly dead for sleep during the last week. I could scarcely keep awake while I was writing that story that was printed yesterday.

Agnes—I can easily believe it. It affected me the same way while I was reading it—from sympathy. I suppose.

An Appreciation.

"Have you ever seen Hamlet played precisely as you thought it should be?"

"No," answered Mr. Shornington Barnes. "I have often wished I might see a production of one of my own performances."—Washington Star.

To Break in New Shoes.

Always shake in Allen's Foot-Ease, a powder that cures hot, swelling, itching, swollen feet, corns, bunions, ingrowing nails and blisters. At all drug stores and shoe stores. 25c. Allen's Foot-Ease, 100 N. 3rd St., Philadelphia.

Side Lights on History.

The Hessians at Trenton had surrendered.

"Ah, well," they said, "think how much more disastrous it might have been if we had had to make a hurried retreat!"

Later, as if to verify their words, came the Hessian fly.

Carl Schurz.
No other man of foreign birth ever showed such fine command of the English language or used it so felicitously. A man who objected strongly to his politics but admired his talents as a writer once said: "I wish Mr. Schurz couldn't write so well; I could hate him better." In 1877 Carl Schurz visited Boston to make a speech against Benjamin F. Butler, who was running for Governor of Massachusetts. While arguing on the question of the resumption of specie payments, an issue that was paramount at that time, Mr. Schurz likened "inflation" to a balloon filled that had carried the American nation off its feet. At that time he made use of the following expression, which brought the immense audience that greeted him to its feet: "We have placed our feet on solid ground again and we propose to keep them there."

His Reputation.

Miss Medous (sister of the new village doctor)—Have you heard of Dr. Medous about here?

Native—Rat-bone, mum! Do you see that house and carriage gain by over there? That's one of his funerals—Harper's Weekly.

For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—"Sold for over sixty years."

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merit."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

GENUINE CASTORIA ALWAYS

How Good Food may Turn to Poison

DECAY is not digestion, you know, even when it takes place in the stomach.

Food decayed in the body after being eaten is as dangerous to health as food decayed before being eaten. Food nourishes or poisons, just according to how long it remains in the bowels undigested.

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew there.

In this round-edged Enamel Box are found six small Candy Tablets.

One of these toothsome tablets works wonders for indigestion.

Soon as placed in the mouth it starts the Saliva flowing, which at once gets to work dissolving it.

The Saliva becomes blended with the Candy Cascarets tablet, and from the moment they start going down your throat, whatever they start working together.

Now, what do they work at? Bowel-work, of course—Digestion.

Most of the Digestion occurs in the thirty feet of intestine that connect with the Stomach.

They are lined with a set of little mouths, that squeeze Digestive Juices into the Food eaten.

The Digestive Juices thus mix with the food, just as Saliva mixes with Cascarets tablets, dissolving and changing that food into nourishment, as it passes along the channel.

The Intestines are also lined with millions of little suction pumps, that draw the Nutrition from Food, as it passes them in going through.

This Nutrition is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn.

But when the Bowel-Muscles are weak, the Food moves too slowly to stimulate the little Gastric Mouths and there is no flow, or too little flow of Digestive Juice, to change the Food into nourishment.

Then, the food decays in the Bowels, and in the thirty feet of Intestines.

When this Decay begins the little suction pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn.

Now, Cascarets contains the only combination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Cold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce, without any injurious Chemical effect.

The Vest Pocket Cascarets Box is sold by all Druggists, at Ten Cents.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "G.C.C.C."

IF FREE TO OUR FRIENDS!
We want to send to our friends a beautiful French-designed, GOLD-PLATED BONBON BOX, hand-stamped in color. It is a beauty by the dressing table. Ten cents in stamps is asked as a return for the box, and to cover cost of Cascarets, with which this elegant box is loaded. The box is ready to ship, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.
