Mrs. Johnston, of Fox Valley, came down Tuesday evening for a few days' visit with the family of her nephew, Harry Johnston.

Ben H. Irvine, one of our retired farmers, now a resident of Lebanon, passed through town Wednesday morning en route to his farm.

Farmers generally report better wheat yields than they expected this season.

Dr. A. G. Prill is now doing business at the old stand. He is just about as proud of his new office as a little boy would be with a red wagon.

When you get returns from your botanical harvest and have paid up the expense of saving the crop, just remember that the printer must live and that little bill you owe him would come quite handy.

It is reported that G. W. Morrow, formerly of the Scio, has just returned from New York in a business man of Woodburn, has sold his Woodburn business and has bought a similar business in Salem.

A building but 60 feet square and 41 stories high is now being erected in New York City. From terra firma to the top of the building is a distance of 420 feet. New York is surely not afraid of earthquakes.

W. M. Phillips, in answer to "How did your grain turn out, Roe?" responded "first-rate." He never knew just what "first-rate" meant, but suppose it means 25 to 30 bushels to the acre, in this instance.

Charles Nickel, the Medford newspaper man, was arrested Monday by Judge Hunt to serve 13 months in the Government penitentiary at McNeill's Island, Wash. He was convicted of subornation of perjury with Lawyer Hoge two weeks ago.

W. R. (Pony) Ray, of near Jordan, has a fully grown, life-sized grivance. He has 100 bushels more grain than he supposed he would have when he was reaping it. It is not often that farmers make this kind of an estimate upon their unharvested crops. The estimate is usually greater than the yield.

The postmaster-general has issued an order granting all R. F. D. mail carriers 15 days lay-off annually on full pay. Carrier Don McKnight is planning a trip to Cascade during the 15 days himself and wife, Mrs. Jennie McKnight, and Mr. and Mrs. Fred Blyden will compose the outing party.

Some of our hopgrowers who neglected to cultivate their yards this year are metaphorically kicking themselves. It is generally believed that by the time the hops are in the bale they will be worth 10 cents per pound. So hop men who neglected to care for their losses can figure just about what their losses are.

Judge Hunt, of the United States District Court, at Portland, sentenced W. E. Jones to serve one year in the Government penitentiary at McNeill's Island, Washington, and a fine of \$2000, and Thomas Pitter to six months in the Macdonough County jail and to pay a fine of \$500. The truth is out at last. Instead of the gray wolf that was recently captured by our sportsmen, she proves to be that of John Mares dog. But she is wild and has the peculiar characteristics of the wolf, and had not Mr. Mares claimed the animal as his dog, we would have been veridical enough to think she is a wolf. Mr. Bremner even went so far as to say that the animal is a genuine gray wolf.

Messrs. L. W. Pomeroy, A. C. Cornelius, John Wesley and his brother-in-law, Mr. Steinberg, went up above yesterday for a day's fishing. Besides the usual amount of fishing rods, fish baskets, etc., they took along a gasoline stove on which to cook and a gallon of ice to make coffee and a plentiful supply of commissary stores. They calculated to have a good time, and we judge they did.

Misses Daisy Buckner and Fay Myers entertained a party of twenty-five of their friends at the home of Dr. and Mrs. Prill on Wednesday evening of last week. The party was lighted by electric lights and Japanese lanterns and the decorations were of red roses. LAWLER GOLD MINING CO'S

Santiam Mines to Be Operated by Experienced Men.

W. B. Lawler in the city today announced the sale of the mines of the Lawler Gold Mining Company, eleven fine claims at Anderson, to a syndicate of Alaska miners, whose names are withheld, for \$200,000 on a three years' bond. Representatives have examined the mines and are satisfied with the prospects. They have a system for saving the gold backing before and will in the Fall begin active operations running the 25-stamp mill and adding \$50,000 or \$60,000 worth of machinery. It means a good deal to the Santiam district. One of the men left last night for San Francisco.—Democrat, Tuesday, August 6.

More Smoke Than Fire.

The Democrat recently mentioned the troubles of the family of E. Arnsbaugh, of Crabtree, resulting in their separation. Arrangements are being made for Mrs. Arnsbaugh to return to California with all of the eight children. Considerable contention seems to have been caused in the neighborhood. Mrs. Arnsbaugh takes only a little smoke for a fire. This week Mr. Arnsbaugh was starting out on his business trip to California. He was along. He thought it was his wife and spoke to her. The woman, knowing about the trouble, leaped a catastrophe and screamed lustily, rushing for home, and her husband for his gun. All practically nothing happened. The woman, agitated and things were somewhat in a row. Yesterday Mr. Arnsbaugh came to Albany to give himself up to the law for the murder of his wife. The people of a neighborhood may try to mend up family troubles rather than aggravate them.

Killed a Cougar.

Ed. and Ad. Flemming had been losing sheep for several days last week and were satisfied that it was the work of a cougar. Monday morning Messrs. Flemming mounted their horses and with guns and dogs started out to hunt the gentleman up. In a short time the dogs found a cold trail and noticed a cougar. They had Mr. Cougar up a tree. A bullet between the eyes from Ed's repeater put an end to the animal's life. The animal was not a large one, but was 65 feet from tip to tip, and his appetite was as fully developed as if he had been fed for weeks.

THE SANTIAM FORKS.

Newcomers to Oregon are respectfully invited to inspect the Forks of the Santiam before investing elsewhere.

If he is looking for a location for a lumber business with thousands of acres of fine timber as groves, we have both the location and timber.

If he is looking for a location for a farm industry, we have a fine location for the same, surrounded by thousands of acres of the best oak-producing land that can be found in the country.

If he is looking for a site to establish a mineral plant industry, we have it, with an almost inexhaustible bank of the best mineral plant on earth.

If he is looking for a stock or dairy farm, we have them in abundance. Every farmer that is now running a dairy in connection with his other farming operations is making money.

If he is looking for cheap farm lands, they can be found by going in any direction from Scio.

Finally, if he is looking for an ideal site for a home, where he can have an abundance of good water, where himself and family can enjoy the best of health, where he can have an abundance of fire wood at his door; where he can have a beautiful view of the mountains; where he feels disposed, where he can live to be a hundred years old, the celebrated Forks of the Santiam is the place to come.

Did you ever hear of goods advertised to sell at cost? Well, if you come to

WESELY & CAIN'S

You will see goods marked away down below cost. No doubt you will wonder why we should want to sell goods below cost. Well, we don't want to take chances on carrying the goods over for next season, and would rather lose profits to the winds and lose money on the goods besides than lay the goods away for next year. Now is the time the people need the goods, and now is the time for us to sell. Laying goods away for next year is like laying away so much money; it doesn't do anybody any good. So that's why we are selling out what we have left in Summer Goods at HALF PRICE. This is a deal we will take, benefitted by you—need the goods and we need the money. We believe in keeping things moving. Motion is the life of all things. Our goods are kept moving under the impulse of IRRESISTIBLE PATRONS.
