Three pheasant hunters from the state of Washington, this week thought they would just pay the ordinary $1 hunters license required of Oregonians. They obtained the license by writing for them from Tangent; two giving Portland as their residence and the other giving Tangent as his home. Game warden Munkers some way smelled something wrong and, accordingly, arrested the bunch and took them to Albany. By a compromise the Washingtonians were allowed to pay $9 more each, making $10 the license required from nonresidents, and can now hunt in peace, providing they observe the law.

School Statistics.

Labor Commissioner Hoff has made a report showing the following:

"The average of months' school taught each year is increasing gradually, there being a difference of two-tenths months between the average of 1904 and that of 1906. The average months of school for the year ending 1904 was 5.9 months, while that of 1906 was 7.1 months. The average monthly salary received by male teachers in 1904 was $54.22, as against $60.02 for 1906, or an average increase of $5.80; while that of female teacher for 1904 was $42.05, as compared with $44.95 for 1906, an average increase of $2.60 per month.

"There are 2174 school districts in the state, as against 2169 in 1904 and a total of 815 male teachers and 3344 female teachers employed, showing a decrease of two male and an increase of 139 female teachers over two years ago."

Public School Opens.

Last Monday when the hour of 8:30 A. M. arrived about every boy and girl in Scio with books in hand, could have been seen wending their several ways school ward. Something over 80 was enrolled the first day and it is thought when all get started the number will be swelled to 100 or over.

The teaching force is headed with Prof. H. O. Anderson, principal and Mrs. Ollie MacDonald and Miss Rhoda Hudson grade teachers.

The school year opens under favorable auspices. An excellent corps of instructors, supported by an efficient board of directors insures the very best possible results. The school year will cover a period of eight school months making the closing day some time near the close of next May.

Arm Broken.

Albert Sims, with some other boys, was playing at the Landon lumber yards Wednesday evening, and fell from a pile of lumber. Result: The larger bone of his left arm was broken, just above the wrist. Dr. Prill was called and reduced the fracture to its normal position, but Albert will carry his arm in a sling for several days.

The Farmers' Fire Relief

Association, of Butteville, Oregon, insures farm property at the actual cost of insurance. They insure only dwellings, barns, granaries, country churches, and school houses, and their contents, and only $2,000 on any one risk. Hence they cannot lose more than $2000 in any one fire. Consequently the liability of loss and the cost of insurance is as light as it can be in any mutual insurance company.
