Mrs. Isaac Bilyeu returned last Saturday from a several days' visit at Lebanon.

Ninety-one pupils enrolled in the public schools and everything is moving off nicely.

J. S. Morris is now engaged in drying the apples from his big orchard near town.

MacDonald & Morris this week sold their confectionery business to R. McKillop.

Too many of our people are said to go to other towns to trade. What is the reason?

DeVaney & McKillop is the name of a firm of stockmen just starting in business in Scio.

For rent: A 400-acre dairy, stock and grain farm; cash or shares. V. Cladek, Scio, Oregon.

Falls City, Polk County, now has six sawmills and the town is reported to be growing rapidly.

Grover Pomeroy, of Woodburn, paid his parents in this city a brief visit the first of the week.

Farmers' Institute in Scio commencing one week from this afternoon. Every farmer and stockbreeder should be present.

Vetch, red clover, alsike clover, red top, orchard grass, English rye grass and timothy seed on hand at Wesely's Grocery.

Mrs. W. W. Miller, who cared for her husband during a long siege of typhoid, is now quite sick with an attack of the same fever.

It is stated that diamonds are 20 per cent dearer this year than last. Our delinquent subscribers will please make note of the fact.

Mr. Davis, of Hoquiam, Wash., and a member of the firm who purchased the Landon Mills, arrived in this city Wednesday morning.

Jack Jones, a dispenser of liquid refreshments over at Stayton, visited Scio last Friday. His daughter, Gladys, returned with him.

Railroad talk is becoming louder. We hear the rumor that work on the C. & E. spur through Scio will be commenced early next Spring.

Dr. and Mrs. Lowe, of Eugene, spent Monday in this city. The doctor's fame as an optician is known far and wide in the Willamette Valley.

If the churches will hand in an item showing when services are to be held in their respective buildings, the NEWS will be glad to publish them.

J. E. Simanek was the fourth person to enter his name on the NEWS' subscription list last Monday. There is still room for some hundreds more.

Heavy rains the first of the week. Thomas Creek was swelled several feet. Boats will now be able to resume the Winter run up the Willamette.

Stayton has the promise of an electric railway line within the next two years. Of course the line will branch out to the big Scio timber belt very shortly thereafter.

Mr. J. Barhan, of this city, went to Albany yesterday afternaon, called there as a witness before the Prosecuting Attorney on account of some Mill City matter.

Mr. S. D. Gibbins, of Montana, arrived last week on a visit to his sister, Mrs. Samuel Miller. This is Mr. Gibbins' first visit to Scio for the period of 43 years.

Jesse L. Rodgers and Herbert Shelton went down to Troutdale this week where they expect to secure work. Before leaving Mr. Rodgers left an order for the NEWS to follow him.

Last Friday evening Mrs. G. A. Dugger went over to Albany en route to Corvallis, for an over Sunday visit with her sister, Miss Helen V. Crawford, one of the faculty of the Oregon Agricultural College.

M. Sorenson, general organizer of the Modern Pyramid Builders, came over from Albany Wednesday. He stated to us that that order would erect a building in Albany at once for official headquarters.

Among the specials at Wesely's grocery you will find VanCamp's condensed soups 18 varieties, shredded Crab, Wadco nut butter, Codfish, Cream, Brick and Swiss Cheese, Celery and Sweet Potatoes.

Don't neglect to order the NEWS for yourself or friend. The long Winter evenings are approaching and everybody should supply themselves with a sufficiency of reading matter with which to pass the evenings pleasantly.

Haman Shelton, Jr., of Jordan, was down Monday nevertheless the constant rain. His name now appears on our subscription list. Mr. Shelton is one of our progressive farmers, and is up-to-date in everything pertaining to his business.

Conrad Miller, who represents the United States at Yokohama, Japan, says the idea that Japanese make better soldiers and can endure more hardships than Uncle Sam's soldier boys is a mistake. Nor are they any braver than the boys who wear the blue.

Leonidas Lodge, No. 26, K. of P., will give a musical and stereopticon entertainment to Knights and members of their families at their hall on the evening of Wednesday, October 24. All Knights and visiting Knights are cordially invited to be present.

We neglected last week to note the arrival of Dr. and Mrs. J. F. Horsch, of Cascade Locks, on a visit to Mrs. Horsch's parents, Mr. and Mrs. T. J. Munkers. Dr. Horsch has just arisen from a siege of typhoid and is spending his days of convalescence as above stated.

Dr. A. G. Prill went over to Albany Thursday evening of last week to assist in instituting Lodge No. 1 of the order of Modern Pyramid Builders. Albany is the seat of the Supreme Lodge of this order and it is eminently proper for Albany to be the home of the first subordinate lodge. It is expected that the order will meet with favor among the the people generally.

WATER RIGHTS SECURED.

Santiam River Will Be Made to Turn Powerful Dynamos.

Walter Mackey has filed with the County Recorder in Albany two notices of location of water rights in Linn and Marion Counties, aggregating 42,000 horsepower. He states in his filing that the purpose is to generate electric power for use in the Willamette Valley for the operation of electric railroads and municipal light plants, and that he will build an immense reservoir at Marion Lake, just across the line in Marion County and near the summit of the Cascade Mountains. A flume or ditch 12 feet wide will be constructed and waters of Marion Fork of the North Santiam will be used and a dam constructed with penstocks, and the water of Marion Lake itself appropriated.

This is one of the most beautiful bodies of water in Oregon, an immense pond of pure water one mile wide and three miles long. It is of varying depth, bottom never having been reached in some places.

For years Marion Lake has been the resort of campers and fishermen. It is on the line of the right-of-way of the Corvallis & Eastern Railroad, and this new appropriation of water rights for the avowed purpose of generating electric power for the operation of electric railroads has given rise to speculation as to whether Mackay is not representing people interested in the extension of the Corvallis & Eastern, and paving the way for the use of electric power on the road. From the water rights filed on, enough power could be generated to furnish the entire valley with electricity.

About a mile below the outlet to the lake, on the Marion Fork of the North Santiam River, there is a fall of 80 or 100 feet, and the filing includes this fall.

Dickey Has a Case.

Judge I. C. Dickey's court has heretofore been remarkably peaceful. In fact it has been so quiet that had the Judge desired there was nothing, save the flies, to disturb an afternoon nap. But as the longest day has an end, so did the undisturbed quietude of Judge Dickey's court room. Two farmers, a few miles Southeast of town, had a dispute last Monday. It was carried to the point where one of them, Frank Dobrkovsky, called the other, Anton Karnos, a liar. Result: Dobrkovsky measured his length upon the ground. This ended hostilities for the time. On the following day Dobrkovsky came into town and swore to a complaint. A warrant of arrest was placed in Constable Bilyeu's hands, which was served Tuesday morning. Karnos appeared before Judge Dickey, pleaded guilty, and was fined $5 and the costs of the suit, in all $8. Let us hope that this will be the final end of the matter. Fighting, as a rule, never decides disputes satisfactorily to both parties. One or the other is sure to feel aggrieved. But to continue the dispute will simply make a bad matter worse. So the better plan is to drop the entire business without any further ado.

The Portland Strike.

The grainhandlers' strike in Portland is now approaching the grave stage. Mayor Lane has attempted to get the trouble submitted to arbitration. The grainhandlers are willing to accede to his wishes, but the hitch seems to be with the boss stevedoring firms. Now it is said if the matter is not submitted to a court of arbiters, the entire force of freighthandlers on the wharves will strike. This will tie up the freight business tight and fast. The strike is affecting farmers, for the reason that grain ships are not being loaded with any dispatch and the price of wheat and oats is depressed accordingly.

Something Badly Needed.

Our business men could do nothing that would earn the good will and patronage better than to erect a good large shed under which farmers could drive their teams when they come to town. These rainy days make one feel sorry for teams that are compelled to stand still in the cold rains. The shed would be equally merciful in shielding teams from the hot sun in the summer time. A little public spirit in this direction would be as bread cast upon the waters.

Tangent—Wayne Carl McLagan.

Foster—George E. Whitcomb.

OUR FARMERS' INSTITUTE.

Our coming Farmers' Institute promises to be a feast of reason and a flow of instructive lectures. A private letter from Dr. Withycombe informs us that the following speakers will be present; also the subjects of their lectures:

Friday, October 26, 1:30 P. M., "Horticultural Problems," Prof. C. I. Lewis.

Friday, 7:30 P. M., "The Draft Horse," Hon. E. T. Judd, lecture to be illustrated with stereoptican views.

Saturday, October 27, 10 A. M., "Management of the Dairy Herd," Wm. Schulmerich.

Saturday, 1:30 P. M., "General Agriculture and Forage Crops," Dr. James Withycombe.

These lectures will be interspersed with vocal and instrumental music, recitations and papers from our local citizens.

Dr. Withycombe stated that the speakers would come over from Albany on the morning C. & E. train, and that the first session of the Institute would be held on Friday afternoon, October 26, 1:30 P. M. At Friday evening's session stereopticon views of stock, and various Agricultural College views, will be a part of the entertainment. So, it can be seen that it is the purpose to make the Institute both entertaining and instructive. In our next issue we will be able to publish a complete program. Let us hope that every farmer and farmer's wife, who lives within a reasonable distance from Scio, will be present.

What Does It Mean?

Surveyors the first part of the week were taking levels all about Scio, but for what purpose, exactly, we have not been informed. However, rumor has it that that the Curtis Lumber Company is figuring for a site for a big sawmill on the line of the C. & E., in the vicinity of Munkers, and these levels were taken for the purpose of taking water from Thomas Creek with which to supply a big pond for log storage purposes. It is also said that the C. & E. purposes to build a logging railroad from the main line near Munkers through Scio and on through Richardson's Gap and into the Crabtree timber belt, where Mr. Hammond is said to be a large owner. Unofficially it is stated this road will be built next year. This is probably the railroad rumor that the NEWS spoke of last week. At all events Scio is destined to be the center of railway building in the immediate future.

Foot Badly Cut.

Wednesday a hurry call was sent in over the telephone for Dr. Prill to go post haste to George M. Bilyeu's. Upon arriving there he found Mr. Bilyeu with his right foot very badly cut just across the instep. Mr. Bilyeu was working about his barn when the accident occurred. Fortunately for him the ax was quite dull, else the great toe would have been a useless member. As it is, Dr. Prill found the leaders severed and the long bone on the top of the foot shattered and cut in two. After removing the loose pieces of bone and attaching the leaders, the foot was properly dressed and bound up. Mr. Bilyeu will walk on three legs for some time in consequence.

Equalization Notice.

The County Board of Equalization will meet at the office of the County Clerk, Monday, October 22, 1906, and remain in session six days for the purpose of publicly examining the assessment roll and to correct all errors in valuation, description or qualities of land, lots or other property, and all persons interested are hereby notified to appear at the appointed time and place, and if it shall appear to said board that any land, lots or other property be assessed twice or assessed in the name of any person or persons not the owner thereof, or assessed under or beyond its value, or any lands, lots or other property not assessed, they will make the proper correction.

THE OLD MUST SUCCUMB TO THE NEW

This is an era of general awakening and progress in every pursuit. A disposition now prevails to make substantial improvements in every line of business where it is possible to improve. What we called next to perfect a few years ago is now coming under the limelight of scrutiny and all the weak points strengthened to meet contingencies. Old machinery is laid aside for later improvements; old style edifices are being torn down and more modern and substantial are being erected on the site of the antiquated; shorter and better routes to the acquisition of perfection are obtaining in every industry, and new thought and better ideas are broadening and expanding the minds of the people; human fossils are soon to be things of the past, and their space taken with live, wide-awake, up-to-date people of modern views.

These reflections are impelled by looking into some of the modern improvements on the plan of life insurance by coalition with fraternal association. A cold-blooded business proposition without any spirit of social relations is being looked upon as too selfish for modern times. Human advancement in every possible way is essentially the American idea that cannot be longer smothered by any system of personal greed or selfish aggrandisement.

The great fraternal beneficiary orders have for years been gaining in membership and confidence in this country, but in some instances have failed to incorporate rates of assessments sufficiently high to meet future obligations, and in consequence have been compelled to raise their rates in after years. This has not been satisfactory to the membership as a rule and has often resulted in material loss to the orders. To obviate such catastrophes has been quite a complex task.

Old line companies have done vast good in the way of protection, but the high charges have kept many from availing themselves of protection, while many who have undertaken to carry policies in the old lines have been forced, after making a number of payments, to drop out and lose what they had paid in. The loss to the member who joins a fraternal beneficiary order and lapses is not so heavy because the fraternal charges are not so high. But after anyone has paid in for years and has to drop out, perhaps after the time his earning ability has ceased, from age or other infirmity, without receiving any return for his expenditure, he has suffered a hardship that is not pleasant, to say the least. Some plan, based on reasonable rates, with an opportunity of receiving the face of the policy on which the insured has been paying out his hard earnings, and if by chance he is forced by hard luck to drop out, he will receive in return for his good intentions a reasonable recompense, at the same time leaving the company carrying the risk financially stronger by his having been a member, has been left to be devised in the present age of development and success.

It might well be said the Moses has just been found to lead the way out of the labyrinth of life insurance entanglement. By a combination of old line and fraternal, with both improved by experience of the past, and the mistakes made by both eliminated, the solution seems to have been made.

The Modern Pyramid Builders, which has divided the rates between the old lines and fraternals, with the benefits endowment, so that the insured does not have to die to win, or live until his day of activity has fled before he can enjoy the fruits of his labors, is the new plan that is destined to revolutionize life insurance in this country.

When a man or woman takes out a policy, it is very pleasing to know that it will be paid at a reasonable time, and not delayed until he has become decrepit with age. It is equally pleasing to know that he will not have to pay out three times as much as is justly required to carry his risk and pay him the face of his policy at the expiration of his expectancy. The Modern Pyramid Builders have struck the key-note in bringing out a policy that truly befriends its members by giving them an endowment at reasonable cost, yet high enough to meet all demands without having to raise on the member as he grows older. It is equitable to a cent, for it makes all ages pay the same sum before the policy matures. Its plan is safe and sound and its reserves ample. Admitting, as it does, both sexes, and being a Pacific Coast enterprise, it becomes the duty of those who believe in protecting their homes and families and making an investment that will be remunerative, to vestigate the Modern Pyramid Builders' plan. Investigation means satisfaction, for it is the essence of justice and business economy.
