**LENGTH OF BLACKSNAKES.**  
Rapidity of Movement Makes Them Seem Longer.

One of the significant features of this snake season, and of any snake season that occurs, which is every year, is the very long length of the blacksnake that are seen, says the Ohio State Journal. This is not at all remarkable, for about the only thing a blacksnake has to show for itself is its length. It has no musical tail like the rattlesnake, nor the puffed-out head of the hissing viper, nor the livid, languid manners of the house snake—it has only length, and when with amazing speed it whips through the deep grass or dead leaves it seems to be thirty or forty feet long. No truly does this little illusion exist that when a person tells of a blacksnake seven or eight feet long, he prides himself on great modesty of statement. And by the way, we have noted many blacksnake stories this summer, and we have not encountered a snake under seven feet.

There was that story of a girl out in York State, who heard her little dog barking violently out in the stable. She went there to discover the cause, and not that little dog was in fight with a blacksnake seven feet long. It was a great fight and the dog was doing heroic work, keeping the python at bay until the little girl hunted up a pitchfork and with that dispatched the serpent, which, the account says, was seven feet long. Of course, it had to be seven feet, for there is no other kind. Is there a moral to this? There is, of course, to every snake story. It is this: Be exceedingly careful not to make bigger than it is the horrible incident in your life when you encounter. See that your blacksnake is under seven feet long.

**New Monthly Magazine.**  
A bright, new monthly magazine has made its appearance on the Pacific coast, and looks as if it had come to stay. It is the Coast Bay Monthly, published at Marshfield, Oregon, the business center of one of the most resourceful districts of the entire Northwest. The November number consists of about 125 pages of good reading matter, mostly local in nature, nicely illustrated, and of general interest to all who wish to know anything of the Great Northwest. The number also contains nearly 30 pages of local advertising. This speaks volumes for the business enterprise and energy of the citizens, as well as for the ability of P. C. Levar, editor and manager, and F. B. Cameron, advertising manager.

**Leaves the Holes.**  
The Gourmet—I tell you, I certainly am fond of Swiss cheese sandwiches. The Dyspeptic—Oh, that's the cheese with the holes in it. Very indigestible.

The Gourmet—They are, eh? Well, I never eat them.—Philadelphia Ledger.

**How It Struck Him.**  
Mrs. Suburbs (with paper)—I see that the site of the Garden of Eden has at last been located.

Mr. Suburbs—Yes? When will the sale of lots take place and what's the fare from the city hall?—Puck.

**TWO TRAINS COLLIDE**  
Immigrant Train in Disastrous Indiana Wreck.

**Forty-seven Passengers Dead**  
Were Nearly All Fugitives from Russia—Survivors Lose Baggage and Other Possessions.

Chicago, Nov. 12.—More than half the passengers on an immigrant train on the Baltimore & Ohio railroad were killed or injured in a collision today between the passenger train and a freight near Woodville, Ind. One hundred and sixty-five passengers were on the train, and of these 47 were either killed outright or were burned to death in the fire which broke out in the wreckage immediately after the collision. The names of all the dead will probably never be known, as 45 of the bodies were consumed in the flames or were so badly burned that identification is impossible. Thirty-eight people were injured, and several escaped unhurt, but nearly all their baggage and clothing.

The disaster was caused by a blunder of some employe of the railroad company, but just where the blame lies has not been determined. The passenger train, which was loaded with Russian Jews, Servians and Poles, all of them recent arrivals in this country and bound for Chicago or places in the Northwest, was the second section of a through train from Baltimore. The engineer of freight train No. 96, on instructions received at McCook, Ind., waited at a siding at Woodstock, Ind., to allow the immigrant train to pass.

As soon as the first section of the immigrant train had passed the switch at Woodstock, at eight o'clock, in charge of Engineer Burke and Conductor Monte, started eastward. A light snow fell, and the freight train, which was in sight a short distance away, tearing toward Chicago at the rate of 40 miles an hour, came together with the passenger train with unslackened speed, and in the crash six passenger coaches and several freight cars were knocked into kindling wood, and together with the locomotives, went rolling down the embankment.

**GENERAL SHAFER DEAD.**  
Pneumonia Proves Fatal to Leader in Cuban Campaign.

Bakersfield, Cal., Nov. 12.—Major-General William Rufus Shafer, United States Army, retired, died at 12:42 p. m. yesterday at the ranch of Captain W. H. McKittick, his son-in-law, 20 miles south of this city, after an illness of several days. He was the best medical attention in California.

**Disolve the Trust.**  
Washington, Nov. 13.—While no action has been taken to date in regard to the matter, there is good reason to believe that the Government has decided to institute proceedings against the Standard Oil Company under the Sherman anti-trust act with a view of obtaining an order of the court dissolving the company as it now exists and restoring to each of the 75 or 80 constituent companies its proportionate share of the trust, and also the complete abrogation of the law prohibiting them from entering into any contract, agreement or understanding with each other.

**Most Drunken Army in World.**  
Chicago, Nov. 12.—The United States army is the drunkest in the world, according to figures contained in the report of Surgeon-General O'Reilly, head of the medical department of the army. Though General O'Reilly does not state specifically that his undusted evidence has been attained since the abolition of the canteen system, several commanding generals have made this claim. The report also makes clear that many diseases from which soldiers suffer are caused by drinking them outside of the post for amusement.

**Considers Coal Steal.**  
Salt Lake City, Nov. 12.—A federal grand jury was impaneled here today and will begin its sittings tomorrow. Rumor has it that presentments will be made of crimes gained by the Interstate Commerce Commission during its recent investigation of Union Pacific and other companies in connection with the Government suit to recover land acquired by the Utah Fuel Company, but no official information is forthcoming. Even the names of the witnesses subpoenaed have not been divulged.

**EXPECT ROOSEVELT'S AID.**  
Leaders Confident That President's Coming Message to Congress Will Contain Radical Demands for Labor.

Minneapolis, Minn., Nov. 12.—That the convention of the American Federation of Labor, which opens in this city this morning, will go on record in favor of an aggressive political policy seems assured. From all parts of the country delegates are bringing in reports of success at the polls at the recent election.

So far these reports show that at least five trade unionists will sit in the next Congress, while a great number have been elected to the different state legislatures.

Most pronounced have been the success of the United Mine Workers and the Commercial Telegraphers' Union. The miners in the anthracite district of Pennsylvania have elected W. B. Wilson and T. D. Nichols to Congress and 18 of their members to the state Legislature.

The telegraphers elected three of their members to Congress in different parts of the country, including the Fourth District of Illinois. In Hennepin county, in this state, 21 out of 29 delegates to the legislature for the state Legislature and county officers have been elected. These successes have excited the appetites of the labor men as to the general opinion of the delegates who have arrived here that the convention will devote at least two days to discussing a political program.

President Roosevelt feels greatly encouraged over the situation. He says he has received scores of letters from unionists of the country stood for a political way, and expressing sympathy with their aims and objects.

"It has been the greatest educational campaign that organized labor has ever conducted," he said tonight.

"The subject is fully covered in the report which I will submit to the convention tomorrow, but I have no hesitation in saying that the political program of the Executive Council will be endorsed by the convention. It is but the beginning of organized labor's efforts in the political arena."

One of the effects of the labor political program will be seen in the coming message of President Roosevelt to Congress. According to some labor officials who have recently talked with the President on the subject, the coming message will contain some of the most radical demands for labor that have ever been made by a President of the United States.

**NEGRO TROOPS SHED TEARS.**  
Veterans of Twenty-Fifth Desply Affected by Disgrace.

St. Paul, Minn., Nov. 12.—The members of Companies B, C and D of the Twenty-Fifth Infantry (colored), recently ordered discharged by President Roosevelt as a result of the riotous disturbances at Brownsville, Texas, on August 13, were formally discharged today.

Many of the men, some of whom have been in the service more than 20 years, shed tears when they gave up their guns. Tomorrow the discharged troops will be batonned off without arms, and they will be discharged immediately upon receipt of official orders from Washington.

The second battalion of the Twenty-sixth Infantry, under command of Major Charles J. T. Clarke, which arrived last night from San Antonio, has gone into camp just outside the city limits of Fort Reno. The negro troops have shown no disposition to be ugly.

**Boys Shot by Courtmartial.**  
St. Petersburg, Nov. 9.—The Riggs correspondent of the Bourse Gazette sends a harrowing description of the recent execution of three young boys, convicted by court-martial of robbery and condemned to death. The children were placed against a wall in the courtyard of the barracks, and their pitiable appearance so unmoved the troops that they fired wildly, and several volleys were necessary before the little fellows were finally killed. The City of Riggs is greatly wrought up over the bloodthirsty justice.

**Judicial Accuser.**  
The late Justice Daly of New York frequently enlightened the tedium of legal proceedings had before him by his kindly wit.

One day a suit was brought before him in which damages were claimed by reason of an assault. Plaintiff had been knocked down by the defendant and severely pummeled while prostrate. One of the witnesses seemed very reluctant to answer the questions put to him on cross-examination, in which he was up held by the court.

"With all due respect to your honor," explained the attorney for the plaintiff, "the court does not appear to take cognizance of the underlying principle in this case."

"In my opinion," replied his honor, good-naturedly, "the underlying principle in this case is your client, Mr. Atorney."—Harper's Weekly.

**Judge and Juror.**  
Judge Adams, the County Court Judge of Limerick, is one of the wisest of Irishmen, but occasionally from an encounter he emerges second best. The other day a juror asked to be excused from serving on account of deafness.

"Were you in court during my charge to the jury in the last case?" asked the judge.

"Yes, your honor," replied the juror. "Did you hear it?"

"Yes, your honor, I heard every word of it, but I couldn't make any sense of it."

**The Kidneys**
