Attempted Arson.

Last week as we went to press, there was a rumor that some one had attempted to burn M. C. Gaines' residence. But as we could get no definite information about the matter, we concluded that the report was a hoax, so said nothing about the matter. On the following day, however, the report was confirmed. Mr. Gaines and wife returned in a party to the neighborhood at a late hour. As the door was opened the carpet on the floor was discovered on fire. A strong smell of coal oil gave evidence that the blaze was of incendiary origin. Mr. Gaines succeeded in quenching the blaze, without very material damage. The question then was to ascertain who was the incendiary. Sometime ago Mr. Gaines had some difficulty with a neighbor, Mr. Ed Young, and his suspicion was at once centered upon Mr. Young as the guilty party. He first thought of getting blood hounds, but this idea was given up as being impractical. M. C., when daylight appeared, discovered suspicious human tracks. Following up these tracks, they brought him to the home of the Youngs. When Mr. Gaines accused Young of attempting to burn him out, stating the telltale tracks was almost positive evidence, Young admitted his guilt. An effort was made to settle the matter without allowing it to go to the courts. But to this Mr. Gaines would not consent. Accordingly, last Monday the matter was placed in the hands of the grand jury. Mr. Young was reported quite sick the first of the week and in such a highly nervous condition that it was feared his mind would give way. In justice to Mr. Young it is but right to say he is very highly estimated by everyone whom we have heard speak about the matter. Everybody seems shocked that he should be guilty of attempting to burn the home of a neighbor, even if he had had a difficulty with him.

School Directors Convene.

This county's first convention of school directors was held at the Court house beginning at 10 o'clock, with a large attendance of directors, clerks and teachers. The circuit court room was full. It has proven a great success, a splendid incentive to the work of building up the schools.
Superintendent Jackson, whose heart is at the bottom of every move for the improvement of school work, presided.
The first subject was the exchange of school books, led by Hon. F. D. Corbett, of district 14, who was followed by others, bringing out both sides of the question.
The subject of how the directors can best serve the schools was opened in a live manner by Mart Miller of Knox's Butte, a director for many years, who sometimes spends whole days in the school room to keep in touch with the work. His talk was practical.
School libraries was the subject of Prof. Barnes of the Lebanon school and President Goddes of the Sodalville college. The importance of selecting libraries with good books was enlarged upon, and novels and trash, were condemned.
This afternoon Director C. H. Walker and Henry M. Elmsary spoke on school apparatus and equipment. Showing their importance. School clerk's problems were discussed by several, when Hon. M. A. Miller presented the subject of the work done for education in the recent legislature, and Superintendent Ackerman is to speak before adjournment.—Democrat.

Wells-Fargo Changes.

As was indicated by the NEWS a short time ago, there has been an all around change in Wells-Fargo matters in this city. E. C. Peery, who has been express agent in this city for a number of years, has resigned, to be succeeded by R. J. McKillop. Myers & Richardson, who have been hauling the express matter from this city to the West Scio depot, also resigned to be succeeded by Henry Shelton. The express office is now on the South side next door to the News office. When the route agent of the express company was here, last week, he rather intimated to us that Wells-Fargo was conferring a great favor upon Scio, by condescending to place an office in our town. Of course it is an accommodation to the people to have the office; but then we pay well for the favor. As we pay the rates required we are certainly under no farther obligations. Any way the obligation is mutual. If it did not pay Wells-Fargo to place an office in Scio, we probably, would have no office here.

BORN.

RICHARDSON.—On March 11, 1907, in this city, to the wife of T. A. Richardson a ten pound son.
Tommy is still able to drive the stage though he has an unusual number of mishaps, since the new arrival, due probably to absent mindedness.
On account of injury received some time ago by Ed Young, which the doctors think has effected his mind, no action was taken.
FOR SALE—A good single buggy and harness. Inquire at this office.
The NEWS office does all kinds of job printing in good style and at reasonable prices.

Are You Up-to-Date on Paint?
The way to profit by progress is to keep in step with it. There is no more reason for mixing paint in the old-fashioned hard, hand way than there is for plowing with a stick, reaping with a cradle, or driving to town for your letters when there is a rural mail box on your gate post.
Uttering, unerring machinery does the work for you now—far better and surer than human hands could ever do it.
**Lowe Brothers
High Standard Paint
Gives Best Results**
It is always uniform—one gallon like another—each fresh brushful like the last—the best paint-making materials, combined in the proven "High Standard" proportions, and ground superfine. Don't figure your paint cost on price per gallon but on square feet covered, and total cost divided by number of years of service. Judged in this way, "High Standard" Paint is by far the cheapest. "High Standard" will cover one-third more square feet to the gallon, and last two to three years longer than ordinary paint. There is a Lowe Brothers Paint for every requirement about farm and home—barn paint, implement paint, etc., etc. Use "Little Blue Flag" Varnish—the best.
The best handbook on the paint subject is our booklet, "Paint and Painting," which tells you how to select paints; how to prepare surfaces for painting; how to choose brushes, how to use them, etc., etc. We'll gladly mail you a copy free and tell you who your nearest "High Standard" agent is.
