## CORRESPONDENCE

### SONG OF OREGON.

Written by Prof. J. Green  
(Tune "Marching Through Georgia")  
Raise the flag and let it wave unto the skies of blue;  
Sing ye children of the times when this fair state was new;  
Sing the praise of worthy sires, of faithful mothers too;  
Founders of this fair state of Oregon  
Hurrah! Hurrah! the times of Forty eight,  
The times when men and women strong and great,  
Laid the sure foundation of this mighty Web Foot state,  
Peerless and grand state of Oregon.  
Here the peaceful rivers roll; here waves the mighty sea;  
Here the mountain waters leap and ripple glad and free;  
Here our many valleys lie, as fruitful as can be,  
Jewels of our proud state of Oregon.  
Hurrah! Hurrah! the times of sixty-one,  
The times when men put shoulder to the gun,  
When our brave defenders drove the rebels on the run,  
Establishing the prestige of Oregon.  
Here upon a thousand hills our dairy cattle graze;  
Here we gather boundless stores of luscious fruit and grain;  
Here, in sweet security we sing our love and praise;  
Fruitful and peaceful state of Oregon.  
Hurrah! Hurrah! the times of Ninety-eight,  
The time when Spain bowed to our nation strong and great,  
When our brave and gallant ship did credit to the state;  
Faithful and peaceful state of Oregon.  
Where in all the nation are the men who dare to do?  
Where are women beautiful, affectionate and true?  
Where are children rosy cheeked, with eyes of every hue?  
Here in our dear old state of Oregon.  
Hurrah! Hurrah! the times of now, to-day,  
The times when deeds the minds of mortals sway;  
Brave and persevering will ween our upward way,  
Living in the happy state of Oregon.

This song was composed by Prof. William Green.  
Direct from North Dakota—the coldest country he ever seen;  
And which he sings with daily pride,  
With his wife and children by his side.

—FIS EATER.

### The Santiam Bridge.

The Southern Pacific has the material on the ground for repairing the bridge over the South Santiam, washed out some time ago during the high water. It is reported that the Company would change the course of the road and go by Lebanon, but this indicates that which will not be the plan. As soon as repaired the Springfield train, which comes to Albany now will go through to Woodburn. Bridge men declare that it is impossible to put in a bridge at this point so it will not go out.—Albany Democrat. The News has known for some time that the South Santiam bridge would be repaired. That is to say the trestle work at the East end will be repaired. The bridge proper is uninjured. The river has changed its course that it now flows where the trestle approach stood. The repairs are of the most temporary nature, we are told.

### University Fund to Be Held Up.

If the movement inaugurated by Linn county oranges at Albany, last Saturday, is successful, the \$125,000 appropriation for the State Unive. city, at Eugene, will be held up. Linn county farmers do not think it is just to appropriate what amounts to \$175 per student, per year, at the State University when less than \$10 per scholar is donated to the public schools. So petitions have been prepared and will be sent all over the state to secure the signatures of the necessary number of voters to accomplish this purpose. The News will consider this matter further in another issue.

Word was sent the News, Monday by telephone, that Roy McCrae, of Jefferson, had been drowned. The account was that he was near a log into the river and sank immediately. For some reason, not given, he never came to the surface after sinking. No one seems to have witnessed the accident. The young man's name being not a search was at once instituted and the body found a few yards below the boom. McCrae was an employee of the Bogiet Lumber Co. His home was a few miles out from Jefferson.

### Printer Wanted.

The SANTIAM NEWS needs an all around printer—one who has had some experience as a job and as a man required. An honest, sober average country printer can obtain steady employment at average country printshop wages, by applying at once.

Are You Up-to-Date on Paint?  
The way to profit by progress is to keep in step with it. There is no more reason for mixing paint in the old-fashioned hard, hand way than there is for plowing with a stick, reaping with a cradle, or driving to town for your letters when there is a rural mail box on your gate post.

Uttering, unerring machinery does the work for you now—far better and surer than human hands could ever do it.

**Low Brothers High Standard Paint Gives Best Results**

It is always uniform—one gallon like another—each fresh brushful like the last—the best paint-making materials, combined in the proven "High Standard" proportions, and ground superfine. Don't figure your paint cost on price per gallon but on square feet covered, and total cost divided by number of years of service. Judged in this way, "High Standard" Paint is by far the cheapest. "High Standard" will cover one-third more square feet to the gallon, and last two to three years longer than ordinary paint. There is a Low Brothers Paint for every requirement about farm and home—barn paint, implement paint, etc., etc. Use "Little Blue Flag" Varnish—the best.

The best handbook on the paint subject is our booklet, "Paint and Painting," which tells you how to select paints; how to prepare surfaces for painting; how to choose brushes; how to use them, etc., etc. We'll gladly mail you a copy free, and tell you who your nearest "High Standard" agent is.
