LETTER.

Returned to the Asylum.

Several months ago Robt McKillop, son of R. J. McKillop of this city, became demented and was regularly committed to the asylum for the insane, at Salem. After remaining there for a few weeks, he seemed to have recovered his mental equilibrium and was brought home some two months ago. For a while he seemed to be alright, but for the past two or three weeks he has shown plainly that his malady had returned. At times he manifested a disposition to be ugly. Mr. McKillop finally concluded that he was unable to be at liberty. So, a day or two ago, sent for asylum attendants to come and get him. One day Messrs Parks, Scotland and Driver Westinghouse came up calling Marshal Daley to their aid. Robert was secured. After strapping his hands to his sides the start to Salem was made about 10 p. m.

It is a sad condition for a young man to be in. Just upon the threshold of active life to lose one's mental poise, is certainly a case that merits pity. But in this case, the asylum seemed the only alternative.

Attendant Parks informed the NEWS man, that there are now 1400 inmates at the Asylum. But a very small percentage of them ever recover, so that they can be returned to their homes. About 1 1/2 per cent, of the people of Oregon are in the asylum. This means that one person in every 66 is crazy.

IS BEING RECOGNIZED

That our Scio Stock and Agricultural Fair is being recognized as one of more than simply local importance, we publish a part of a letter from district freight agent, C. A. Maloney, of the S. P. company, Portland relative to transportation rates for exhibits. The rates are given at the request of General Manager O'Brien.

"Beg to quote you following arrangement: Shipments from points on the Southern Pacific Company's Lines in Oregon for exhibition at your Fair should be forwarded at regular rates, consigned to the exhibitor. When ready to be returned upon surrender by the consignee or exhibitor to the Company's Agent at West Scio of the freight bill showing charges to the Fair, accompanied by certificate from your Secretary setting forth that the property has been on exhibition and has not changed hands, the consignee will be forwarded to originating point free of charge, and Agent at your point will refund the charges for transportation to the Fair.

In the case of perishable articles which have an actual value on exhibition, and which at the close of the Fair are found to be worthless on account of the perishable nature, we will arrange for return of charges into the Fair on surrender of evidence bill accompanied by certificate from your Secretary to the effect that property has been on exhibition and not changed hands and is unfit for return transportation."

A Small Small Fox Case.

Two young men, Saturday evening came in from Portland, while on their way to Mill City to work in the saw mill at that city. One of them was discovered to be spotted, and upon examination by a local physician, found to have small-pox. The two men were taken out into the field south of the city and placed in a tent, where they will be cared for. John Catlin is looking after their comforts.

The men this afternoon were taken down to near the Jewish cemetery at the site of the old post house, where they will be cared for in the tent secured for the purpose. The second man this afternoon had broken out. It is not thought by the health officer that any one was exposed so as to cause any danger.—Albany Democrat.

A. G. PRILL,
President.

In Wednesday's Oregonian President Roosevelt answers his critics with reference to the Moyer-Haywood Pettibone matter pretty fleetly. His criticism of Moyer-Haywood et al was simply to show that professional labor agitators who work up strikes and usual law-breaking that goes with them are "Un-American citizens as well as the law-breaking predatory classes."
