Mr. and Mrs. Grover Pomeroy, of Woodburn, were visiting the parents of the former, Mr. and Mrs. L. W. Pomeroy, last week. Mrs. A. W. Whether the world will laugh with you when you laugh, depends on whether you can wet his whistle.—Oregon Journal. Albany has had three deaths from the dread disease spinal meningitis, John Kelly, who lived just across the river in Benton county. Land plow, chick feed, oyster shell, ground bone, oil meal and full line of Lilly's Best garden seeds at Wesely's Grocery. Forty head of fine looking beef cattle from the farm of Charles Corse, were driven through town Saturday morning by a Salem buyer. The Moser-Haywood-Pettibone trial for complicity in the murder of ex-Governor Sturtevant, will be called at Boise, Idaho, on May 6. Every in-lection points to unprecedented prosperity for Scio. There is not a question of doubt but what our fair is largely and possibly wholly responsible for the promising outlook. One would not suppose that there were many goats in this section, until the farmers commenced delivering the mohair; then one would think the country alive with them. The Portland League baseball team evidently think permanent winning last year was an abundance of glory. The team is now down so deep in the cellar that it will take a very long handled spade to dig them out. From reports good progress is being made with the University referendum. There is but little doubt now that the necessary number of petitioners will be obtained to refer the appropriation to the voters of the next general election. Ralph Turpin, a Waterloo young man was arrested and brought to Lebanon, last Monday, for the commission of a statutory crime upon the person of Mary J. Wilson, the 13-year-old daughter of J. O. Wilson, of Waterloo. The young man was taken before Justice Burdeshaw, who placed him under \$1000 bonds to appear at the next term of the circuit court.

A Philomath 14-year-old girl when out shooting birds, shot herself through the foot. Had she remained at home and played the piano or washed the dishes, no such accident would have happened and mayhap the birds would have been better off.

The young misses of Scio are establishing a very beautiful custom in Scio, this year, in the making of hat dresses. May daisies, filling them with flowers and then hanging them upon people's door knobs. The News family is indebted to some of its little friends for a reminder that May had arrived.

The Hawkins concert company gave a very pleasant illustrated concert and moving picture show, in this city last Tuesday evening. As a song was being sung, scenes were given to illustrate the sentiment. "Uncle Tom's cabin" formed the basis of the moving pictures, and seemed quite realistic. The concert was well advertised, and quite a large audience was present.

Dierdorff Lodge Entertains. Last Saturday night was a red letter occasion for Dierdorff Lodge No. 54, I. O. O. F. of this city. Dierdorff has enjoyed prosperity right along during all of the past winter, having degree work on nearly every evening. In honor of this success and being the winter of conferring degrees upon several, it was determined to give a spread at the meeting of last Saturday and invite neighboring lodges to participate. Accordingly, on Wednesday was employed to supply the banquet and to have cost \$50. A most enjoyable time is reported by all the participants. Below we append a list of the visiting members.

From Stayton—Frei Goodenow, A. L. Shreve, A. E. Roy, John Downing, W. A. Wright, Andrew L. Baker.

From Santiam Lodge, (Jefferson) J. M. Christopher, Ed. Shelton, F. C. Pate, R. D. Fidler, W. F. Jones, M. Kell, F. P. Devaney, Geo. Comer, W. F. Shuller, Tip Humphrey, A. C. Libby.

J. D. Barbee, Hydeville, Cal.; S. J. Thompson, Fossil; J. N. Weddie Wash, J. S. McLaughlin.

Senator Miller Sustained the Governor. Jacob Huber, one of the substantial farmers of Jordan, came down Tuesday to deliver his mohair. Mr. Huber informed us that it was reported in his locality that Senator M. A. Miller voted in the legislature to sustain the \$250,000 appropriation, over the governor's veto. This is a mistake. Senator Miller, being one of the regents of the University voted for the appropriation when it was pending before the senate. When the bill was returned to the senate, the body from whence it originated, Senator Miller voted to sustain the governor's veto. Mr. Huber stated that some were holding back from signing the Referendum petition, thinking that Senator Miller voted as first above reported and we gladly endeavor to set them right about the matter.

Sheep Worth Having. It pays to have and raise good sheep. A few days ago C. H. Wain sheared his full blood Lincoln sheep. From one he clipped 19 pounds and from the others 17 1/2 pounds each. The sheep were shorn April 19, a very early date at which to shear sheep. Had he not taken the wool until the usual shearing time, the fleeces would have been probably two pounds each heavier because of the oil that would attach to the wool. By dividing the fleeces by the number of months, a growth of 1 1/2 pounds per month results. It can easily be seen what money makers a flock of these handsome and highbred animals would be. Mr. Wain will probably have these sheep on exhibition at our fair, next fall.
