**PERSONAL MENTION.**  
Harnish—Scio—May 25.  
Miss Edessa Peery, of Springfield, is visiting relatives and friends in this city.  
Miss Sadie Sims returned home from Waldport, Monday, where she has been teaching school. Miss Sims came home on account of poor health and expects to return to Waldport as soon as she gets well.  
President Kerr Defended.  
The kicking against the new president of the Agricultural College by some Oregon papers when it is well known that he is a man exceptionally well qualified for the position, makes us tired.  
If President Kerr could have chosen his father there is no doubt but that he would have chosen him or other than the Mormon persuasion. But as it is why blame him? He is not a Mormon, and does not believe in their doctrines or practices. He is, moreover, bitterly attacked by the Mormon Church for this very reason.  
In his early years he was a Mormon. Well, there is many and many a man who was once a fool who has outgrown it—the more to his credit. Think how many men there are now who are Democrats and Republicans and what notes just because their "dances" were—Circusiana.  
Townsend Creamery Company.  
T. S. Townsend Creamery Co., of Portland Oregon, is installing a receiving station at Crabtree Oregon and by May 27 will be ready to receive cream. The above firm has long been located in Portland and their growth has long been steady and sure, now operating creameries at Portland, Seattle, Astoria, Salem and Lyons, thus having access to the choicest territory with Seattle furnishing the most market for butter on the coast, they solicit the people in this locality and will pay the highest market price for butter fat at Crabtree.  
Wagons will be operated to accommodate the farmers, wherever found to be profitable.  
The Thompson Medical and Vaudiville Company.  
The above named medical and vaudiville company closed a very successful week's engagement, in this city, last Saturday night. While the principle object of the Dr. Thompson company is to sell medicine, at the same time a very pleasant entertainment is given every evening. Some of the stunts given are very meritorious and as good as one will see in any of the regular theatrical troupes.  
In the voting contest the winner of which received a gold filled watch and chain, Miss Rose Blyden was easily the winner. The nail driving contest in which some seven or eight of Scio's young ladies participated, excited considerable interest. A fir scantling 4x6 had been provided along which the young ladies were stationed in a kneeling posture, with hammer and a hand full of 8 penny nails. When the nail was given the rapidly with which nails disappeared in the wood, would almost excite the envy of a carpenter. At the end of two minutes, time was called, and the nails counted. Only those that were driven squarely into the wood were counted. In front of each young lady were clusters of driven nails ranging from 8 to 24. Miss Anna Wesley and Vivian Blyden tied for first place, each having scored 24. A one minute contest between them resulted in Mrs. Blyden 12 and Miss Wesley 14, who was declared the winner and accordingly received the silver set consisting of knives, forks, spoons, etc.  
Fire at Mill City.  
At four o'clock Sunday morning the general store of the Curtis Lumber Co. was burned to the ground and all the contents destroyed. The building and contents were valued at about \$35,000, there was \$10,000 insurance. While the cause of the fire is not known, indications point out that it was of incendiary origin. All the books were saved.—Herald.  
Long tramps through the mountains for a summer vacation are to the liking of C. A. Saultout of the Southern Pacific freight department, and he will take such a tramp this year as he has a number of times before. Sometimes he walks alone and some times with a companion. He takes a trip of 200 to 300 miles, sleeping out in the open air wherever night overtakes him, eating where he can and changing his course to suit his pleasure. He is hampered by no luggage, has no horse to feed and no automobile to get out of order. He walks 25 to 30 miles a day, wears off his soft flesh, hardens his muscles, builds up an appetite, gets a very intimate acquaintance with the country he traverses, and enjoys it as much as any young man enjoys a vacation lounging around a summer resort. He thinks thus, all things considered, the best way to take a vacation, and he will continue it every summer.—Oregonian.
