A CLOSELY CONTESTED GAME.

The match game of base ball, played on the Fair grounds diamond last Sunday, between the Scio and Jefferson teams, was about as closely and warmly contested game as the most enthusiastic base ball fan could desire.
The game was called at 3 p. m., with P. H. McDonald, of this city, holding the indicator. The line-up of the teams was as follows:

Jefferson	Position	Scio
W. Stinson	C.	J. Weesly
W. Bilyeu	P.	W. Weesly
Hoyt	1b.	Davidson
Hitt	2b.	Morris
Case	3b.	Ed Weesly
Phillips	4b.	Gooch
Stinson	5b.	Joe Weesly
H. Stinson	rf.	Devaney
Sub. Jones		

Scio was first to do the stickwork and succeeded in scoring two tallies. Jefferson failed to get a man past the first base in her half.

In the second inning Scio scored one more tally, while Jefferson placed another goose egg to her credit.

Some dissatisfaction with the decision of Umpire McDonald, caused the appointment of County Clerk Miller as umpire on strikes and balls, while McDonald continued to dictate to the base runners.

In the third canto Scio made her first goose egg, as did Jefferson for the third time. The fourth and fifth innings were repeats of the third.

In the sixth Scio was again awarded the usual 0, but Jefferson had finally found her batting clothes and when she retired had placed two runs to her credit.

The seventh resulted in another blank for Scio, while Jefferson managed to get another man across the plate. This tied the score, and interest became intense. Such rooting has seldom been heard on a Scio ground.

Both teams got down to the very best work they were capable of, resulting in blanks for each team in the eighth and ninth innings.

In the tenth and last inning Scio succeeded in getting one very pretty run across the plate, while Jefferson again drew a blank.

SCORE BY INNINGS:

1	2	3	4	5	6	7	8	9	10
Scio	0	0	0	0	0	0	0	0	0
Jefferson	0	0	0	0	0	2	1	0	0

A good crowd was present and everyone seemed to greatly enjoy the game.

MILL CITY COPPER DISCOVERY.

Mill City people are excited over a discovery of copper ore at that city. Jack Hummel, who returned from there last evening, reports a rich discovery in that city. In removing some dirt for the extension of the store of the Curtis

Lumber company some ore was struck which proved to be valuable in copper. The ledge was traced across the river into Linn county and is thought to be very extensive and remarkably rich. Mill City people here showing are to everybody, and it is believed there is something in sight which will make the Verell of Senator Clark look to its laurels.—Albany Democrat.

A GRAVE SURGICAL OPERATION.

Wednesday Thomas Scio brought his little 7-year-old daughter to submit to a grave surgical operation. The disease that made the operation necessary is technically known as "tubercular osteomyelitis" commonly called bone disease.

Several weeks ago the little girl became pany, lost her appetite and became very thin. About the first of July she complained of stiffness in her left knee. Thinking the pain rheumatic, the parents applied home remedies, then had Dr. Prill send medicine to cure the supposed rheumatism. As nothing seemed to allay the pain, the doctor was called. He at once saw the pain was not caused from rheumatism, and a day or two later his judgment was verified. Bone disease had made its unmistakable appearance. An operation being the only alternative, she was brought to town and at the residence of her grandfather, L. W. Pomeroy, Drs. Prill and Davis, of Scio, and Dr. Kavanaugh of Albany, operated upon her.

Fully one half of the large bone, from the knee nearly to the ankle joint, was found diseased and was removed. The same disease was found to have manifested itself in the left arm, above the elbow. This was also cut into and pus removed by drilling into the bone. The disease seems to commence in the marrow of the bones. Dr. Prill thinks should the disease manifest at no other part he will be able to save the leg, but is doubtful of being able to save the leg.

The little sufferer stood the operation finely, being under the influence of chloroform 1 1/2 hours. Two trained nurses from the hospital at Albany were visiting Mrs. Julia Bilyeu and at Dr. Prill's solicitation were present and assisted in the work.

LOWE BROTHERS' HIGH STANDARD PAINT

Costs more than cheap paint, per gallon, just as good, fat cattle costs more than poor ones—there is more to it. But, in the end, it is cheaper, because the better material and finer grinding make it go further, and it lasts twice as long. These are facts. Let us prove them. It will save you money. Color cards and pamphlets free.
