## A NARROW ESCAPE

Last Sunday evening Mr. and Mrs. G. W. Morrow were returning from Stayton. When coming down the L-fler hill the strap that held the shaves in place, gave way, which allowed them to raise upon the horse's back. This frightened the animal and it commenced running down hill. Mr. Morrow, thinking the sooner a stop was made, the better, guided the frightened animal into some trees alongside the road. Here the buggy was partially upset and both occupants dumped out. The horse broke away with a fraction of the harness attached to it. When the Morrow's gathered themselves together they found that beyond a few slight bruises, they had sustained no serious injury. The buggy and harness were badly broken. Mr. and Mrs. Morrow feel very thankful that their accident did not result more seriously.

## THE SANTIAM COPPER MINES

R. F. Shier, of the Black Eagle Mining & Milling Co. of Gates, returned last Thursday evening on his way back from Portland, where he had been to promote the mines and secure money for their development, in which he was successful. Capt. Boone and H. F. Gerschock of the Fidelity Co., a big Idaho copper company, will back the proposition. They sent an expert into the mine, who reported larger and better defined ledges than those in the Fidelity. The prospect just now is gilt-edged. Mr. Shier thinks, and it is proposed to make the mines a practical business proposition by pushing mining operations as soon as possible. Mr. Shier says there is nothing in the Mill City copper. It is simply the washings down the river, and there is no ledge there at all.—Democrat.

## THE OLD WORLD AND ITS WAYS

Col. William Jennings Bryan announces a new book of travel entitled, "The Old World and Its Ways," which records his recent tour around the world and his journeys through Europe. It is profusely and elegantly illustrated with 240 artistic engravings representing men and things seen in the various countries of the earth during that noted journey. The engravings are made from photographs taken by him or his party specially for this publication. It is the monumental literary work of his life, and is published under his special supervision. He has, by special contract with his publishers, made the retail price low down with the view to putting it within easy reach of every reader and book buyer.  
The book gives his experience—what he saw and did—whom he met and his impressions and conclusions. He made a profound study of men and things as he saw them in his noted journey around the world. He gives governmental, educational, and other conditions, from the standpoint of a student, and one profoundly interested in all the people of the earth.  
While Col. Bryan traveled as a private citizen, he went with the prestige of having made two memorable contests for the Presidency of the United States, and he was everywhere recognized and entertained as a great representative American, having a leading part in the direction of American affairs. He was given opportunity for observations never before accorded to any one traveling in private capacity.  
If you want to see the world, and the people who are at the head of affairs in all countries, as well as the masses, he has in this book an opportunity of seeing them through the eyes of Col. William Jennings Bryan. It is sold by subscription, and the Thompson Publishing Co., of St. Louis, Mo., are the fortunate publishers. They offer an especially inviting opportunity to subscribers, another column of this issue.

## A BAD IMPROVEMENT

Several weeks ago County Commissioner Butler, with his bridge gang, was in this city and spent a few hours in strengthening and otherwise improving (?) the bridge across Thomas creek, in this city. The work was done to enable Fred Gooch to cross with his heavy traction engine and train of lumber laden wagons. Well, the aforesaid improvements have been made for more than a month, and Mr. Gooch has not yet crossed it with his train. But heavily loaded lumber teams cross daily, and the way the horses slip on the decking, laid lengthwise, excites the sympathy of every lover of horseflesh. Of course, teamsters like the idea of changing the bridge for the convenience of one man (?) and the horses, if they could talk, would preach Commissioner Butler funeral every day.  
As an act of mercy to the heavily laden horses, the bridge gang should come at once and change the decking to its again crosswise as formerly.

## THE HOTTEST DAY

It is not probable that we will have another day as hot as was last Tuesday. At 3 p. m. the thermometer registered just an even 100 degrees. Even the wind seemed as if blowing from a heated oven. Such extreme heat generated, as is usually the case, a thunder shower. Accompanying the thunder and lightening was quite a little flurry of wind. But few drops of rain fell, though east, about the vicinity of Blyen Den and Jordan, quite a shower seemed to have fell. A cooling of the atmosphere was the only and welcome feature at Scio.

## HAYWOOD DECLARED INNOCENT

With the words "Not Guilty!" one of the most remarkable trials in the history of American jurisprudence was brought to a close at Boise at about 8 o'clock last Sunday morning. The jury was engaged in their deliberations 21 hours, and the trial covered a period of 80 days. The attorneys for both the prosecution and defense, and the defendant, Haywood, agree that the trial was conducted with utmost fairness and with impartiality. The verdict is satisfactory to a vast majority of the reading public. Nevertheless, most of the trial reports have shown a prejudice against the defendant.
