OREGON BANKS FEEL EFFECTS

Because the Portland banks have heavy deposits in New York banks, which they were unable to draw upon for a few days, a delegation of the bankers solicited Governor Chamberlain to declare a five days' legal holiday in order to give time to straighten matters out.
All Oregon banks are said to be solvent and able to pay their depositors in full, providing, of course, the balances carried by them in Eastern banks can be commanded.
The fact is being demonstrated that a very large part of the enormous business of the country is through credits, and though there is said to be over \$34 per capita in circulation, it is found that this amount is far short of a sufficiency to carry on the business of the country upon an actual cash basis. Thus, another contention of the Populist party, of \$5 per capita, as being necessary to conduct business upon a cash basis is being demonstrated.
The money stringency is felt principally by Wall street financial plungers, banks and business concerns, which have operated on a conservative, honest basis, will not be effected in the least.
The holiday began Tuesday and will end next Saturday. We believe the State Bank of Scio continues to do business at the old stand.
FOR SALE.
On account of ill-health of myself and family, I hereby offer my butcher shop, fixtures and business for sale. To the right kind of a purchaser this business is a paying one. Terms reasonable. PIE EATER STILL IN MISSOURI

EXCELSIOR SPRINGS, Mo., Oct. 21, '07. TO THE EDITOR OF THE SANTIAM NEWS.—The Santiam Farm man is still alive. Drinking the mineral waters of this place and enjoying life such as you never read about in the Book of Job.
I have just returned from a trip to St. Joe and Sylvania, Mo. I found a fine country and the most hospitable and prosperous people I have ever met. They have fine farms, good crops of corn and hay, fine cattle, mules and hogs and the very best of blue grass, such as has never been seen in Oregon. Farmers here keep more stock on an 80 acre tract in the Willamette Valley. The crop of corn this year is simply immense. The yield will average 75 to 100 bushels per acre. Wheat yielded this season from 25 to 30 bushels per acre.
This is the country for fine mules. They are from 15 to 17 hands high, and weigh from 100 to 140 pounds, and such splendid animals I never saw before. People are full of snap and energy. They seem to be ever on the move, and all are prosperous. Land is selling, being valued at from \$200 to \$300 per acre. Automobiles are as common as buggies here. They are driver, frequently at the rate of 30 miles per hour. That is going some.
These Excelsior Springs are rather quiet now compared with one month ago. There are only about 20 visitors here now.
The weather is nice and warm through the day, but quite cool at night. The farmers are rustling to care for their big crops of corn and hay, not all of which have yet been cut.
The stock yards of the packing houses are full to overflowing with cattle and hogs, which command a good figure. Trainloads are added to the number daily.
PIE EATER.

CAR SHORTAGE THE CAUSE.

Mr. and Mrs. Robert S. Shaw, of the Curtis Lumber Co., went to Portland this morning on a short business trip. Mr. Shaw reports a continued car shortage. While the company is able to get cars for its Oregon trade, the companies being afraid of the reciprocal demurrage law, it is almost impossible to secure any for outside shipments. The claim is that the cars are all being used for fruit and hop shipments, etc. The company now has on hand \$500,000 feet of lumber, representing over \$1,000,000, completely filling its yards. The result is the company has decided to shut down until there is relief, and will do so in a few days, putting a large force of men out of employment. It will, of course, start up when ever car conditions are better.—Saturday's Albany Democrat.

STRAWBERRIES, YUM! YUM!

Monday morning Mrs. S. W. Gaines brought to this office a pair of Scio strawberries, large, ripe and luscious. Mrs. Gaines states the berries were of the third crop, and THE NEWS vouches that they are fully matured and thoroughly ripened. Just thing strawberries and cream, you people who live in the frosty east, in these last October days, and think to some purpose. Come to the land of big potatoes, October strawberries and a prosperity in every field that laughs at the Wall street gamblers' panic.

OFF FOR TEXAS.

Mr. E. D. Lake, one of our enterprising farmers and fine stock raisers, of the vicinity of Thomas, has sold out his holdings and is now on the road to Texas. Mr. Lake will take with him his fine-bred Percheron horses, with which he captured a number of premiums at our late fair. Mr. Lake is a first-class citizen and we regret to lose him. Of course THE NEWS will follow him to his new home, Athens, Texas.

SOME POTATOES.

Last week we purchased a few bushels of potatoes from George Rogers. They are not small potatoes by any means. We picked up five of the tubers that weighed 1 1/2 pounds, the largest a fraction over four pounds. Just think of fifteen potatoes making more than a bushel. The News family had two meals served from one tuber, and yet here was some to spare.

CAR LOAD OF CLOVER SEED

J. H. Simpson this morning shipped a car load of clover seed to Minneapolis, Minn. This represents a good deal of money, about \$12,000. Raising clover seed has become a fine industry here, and a paying one. Farmers who have let me into it have made money.—Albany Democrat.
