WHY HE RETIRED

Mr. U'Ren Thinks Statement No. 1 of Greater Importance to the People than Individual Advancement.

Oregon City, Or., March 11.—To the People of the State of Oregon—On February 25 I offered myself as a candidate for the office of United States senator from Oregon, subject to the approval of the Republican voters at the primary election. No candidate for senator was then saying anything in favor of the election by the legislature of the people's choice for that office or the principles of Statement No. 1. Later, I hoped that Mr. Calkins and myself might both leave the field for any aggressive Republican advocate of Statement No. 1, who could obtain the nomination and unite the party for the June election. But Mr. Calkins refused, because he was confident he could win in June by reason of his popularity, not withstanding the opposition of the Oregonian and its faction.

JUDGE STEWART EXPLAINS.

Albany, Ore., March 16, 1908
EDITOR, SANTIAM NEWS: Last week you ask for two explanations in regard to county finances. You stated that the tax roll last year was \$225,000; that for state and county purposes only \$153,000 have been spent and wanted the balance of \$72,000 accounted for. I am glad you ask for the explanation, for if you do not understand where it went there must be others also, and it is proper they should know where the money goes. This will show:

Special school and city tax.....	\$ 42,500
State tax.....	54,000
School tax.....	41,000
Special school district tax.....	19,000
County debt.....	6,000
County expenses.....	33,500
Bridges and roads.....	36,000
	\$232,000

You also say that in 1904, when the present Court took charge the county owed about \$30,000 on the State tax and that Judge Palmer turned in to us over \$50,000 in cash and uncollected taxes to pay it. That is so, but Judge Palmer in letter said nothing whatever about the running expenses of the county for eight months in addition to the State tax that was due, and you have overlooked that important item in your figuring. Judge Palmer's tax roll for that year was \$184,600 and that was expected to pay all expenses for the entire year. This money is always paid out at the twelve regular monthly meetings during the year, and that year the average monthly payment would have been about \$15,400. A tax collecting begins in March, our fiscal year dates from that time and from that date until he retired Judge Palmer held only four terms of court. At those four meetings, if he had only paid out the regular monthly average he should have had on hand when he retired the sum of \$123,000 in cash and uncollected taxes, but he only turned over to us \$50,000. You can begin to see now why we had to borrow \$35,000 to carry us through the year. But remember that Judge Palmer's court was not to blame for this shortage, for it had been accumulating for over a year and was caused by the change in the State laws of 1901 and 1903, and the same trouble occurred in other counties of the state. C. H. STEWART.

The Santiam High.

The Santiam has been raging again, yesterday it overtopped the bank so much as to flood the road this side of the Jefferson bridge. The funeral party with the remains of Mrs. Thornton, on the way to Salem, got into deep water this side of the bridge and was obliged to return to Albany and take the train this morning.

Yesterday a young man named Muller and Miss Geneva Day were attempting to ford a slough between the Sanderson bridge and the one South of it, when they got into deep water and both went under, but the buggy remained upright and the horses finally succeeded in swimming to land.—Albany Democrat of last Monday.
