Occasionally an emigrant gets switched off the main line and comes to the Santiam country. Those that come generally locate. Our splendid locations and cheap lands are generally attractive.

The relay race between the Chemawa Indians and the Portland Y. M. C. A. boys from Salem to Portland about fifty miles, was won by the Indians easily in 5 hours 16 seconds, 10 minutes faster than previous record. The Y. M. C. A. boys were 24 hours behind.

Dr. A. G. Prill is taking great care of his left hand this week. Last Friday his favorite house cat became tangled up with one of his fine LaFrance rose bushes. Of course the Doctor would not see his favorite suffer, so went to the rescue. Taking pass by the fore feet he started to lift her from her difficulties. Pass was so badly frightened that she did not recognize the affectionate hand of her master, and at once seized the hand just behind the knuckle joint of the first finger, setting her teeth entirely through the hand. Blood

poisoning soon set in and an extremely sore hand resulted; though at the present time the poison is under control and there does not seem to be any danger of hydrophobia.

William Knaut this week departed for Washington county. Mr. Knaut has erected a dwelling house on the site in which he placed the necessary household goods preparatory to both eating and sleeping in his portable residence. He expects to work on the Hillsboro-Portland electric railway.

A communication from Oakland California, was received by Postmaster Gill, this week, asking for a 50 pound sample sack of Scio's famous mineral paint ore. The matter was turned over to the real estate firm of Blyen & Cyrus, who made arrangements to fill the order. Something important may develop from this order. We know that there is no discount on the quality of our mineral paint. It will stand any test to which it may be subjected, and, if those Oakland people are manufacturers, as we suspect, we are almost certain to obtain results from this order.
