

**an select**  
of ingredients.  
In the pro-  
values are extr-  
In effectiveness.  
Curing the widest  
Doing the most good for  
Having the most medicinal  
And the greatest record of cures.

**Hood's Sarsaparilla**  
In usual liquid form or in chocolate  
tablets known as **Sarsatabs**, 100 doses in 1.

**Something to Amuse Baby**  
A funny book in colors called "Jingle Book"  
sent FREE to any mother sending name and ad-  
dress of her baby and tops from two postcard  
copies of "20 Mile Race" Package Boxes, with 4c  
in stamps. Address Pacific Coast Books Co., Oak-  
land, Cal.

**WANTED**  
Farm or Business  
for sale. Not particular about location.  
Wish to hear from OWNER only who will  
sell direct to buyer. Give price, descrip-  
tion and state when possession can be  
had. Address:  
L. BARTHOLOMEW, Box 228, Berkeley, N. Y.

**The Victorian English.**  
The English which spoke the lan-  
guage which was already dying in the  
eighteen-sixties was before all things  
a world of nature played a far greater  
part in the lives of the mass of the  
people than they do to-day. This is re-  
flected, for instance, in the way in  
which birds and animals were spoken  
of and the names given them. I have  
myself once or twice heard old people  
in the country speak of the hen as  
"Dame Partridge." One is familiar with  
the phrase from books, of course—it is  
Chaucer's "Pardoner"—but once or  
twice as a child I actually heard it. I  
suppose it would be impossible to hear  
it anywhere now.—London Outlook.

**\$100 Reward, \$100.**  
The readers of this paper will be pleased to  
learn that there is at least one dread disease  
that science has been able to cure in all its  
stages, and that is Catarrh. Hall's Catarrh  
Cure is the only medicine known to the  
medical fraternity. Catarrh being a constitu-  
tional disease, requires a constitutional treat-  
ment. Hall's Catarrh Cure acts internally,  
acting directly upon the blood and mucous sur-  
face of the system, thereby destroying the in-  
fection of the disease, and giving the patient  
strength by building up the constitution and  
restoring nature in doing its work. The pro-  
prietors have so much faith in its curative pow-  
ers, that they offer One Hundred Dollars for any  
case that it fails to cure. Send for list of  
testimonials.  
Address: F. J. CENEY & CO., Toledo, O.  
Sold by all druggists. Take  
Hall's Family Pills for constipation.

**Those Dear Friends.**  
Nan—This is Jack's latest picture.  
Don't you think he looks better in profile  
than in a front view?  
Fan—Much better, dear. It doesn't  
show his bald spot.  
In His Element.  
Greasy Grimes—You look as if you'd  
managed to get in to swim somehow.  
Tuffold Knutt—Yep; I'm a First Ward  
foater now.—Chicago Tribune.

**The General Demand**  
of the Well-Informed of the World has  
always been for a simple, pleasant  
and efficient liquid laxative remedy of  
known value; a laxative which physi-  
cians could sanction for family use  
because its component parts are  
known to them to be wholesome and  
truly beneficial in effect, acceptable  
to the system and gentle, yet prompt,  
in action.

In supplying that demand with its  
excellent combination of Syrup of  
Figs and Elixir of Senna, the Cali-  
fornia Fig Syrup Co. proceeds along  
ethical lines and relies on the merits  
of the laxative for its remarkable  
success.

That is one of many reasons why  
Syrup of Figs and Elixir of Senna is  
given the preference by the Well-  
Informed. To get its beneficial effects  
always buy the genuine—manufactured  
by the California Fig Syrup Co.,  
only, and for sale by all leading  
druggists. Price fifty cents per bottle.

**Doesn't Fease Him.**  
"That new preacher you have is a  
pretty wide-awake young man, isn't he?"  
"Yep. Keeps right on preachin' when  
everybody else is asleep."—Cleveland  
Leader.

**For the Children**

To succeed these days you  
must have plenty of grit, courage,  
strength. How is it with the  
children? Are they thin,  
pale, delicate? Do not forget  
Ayer's Sarsaparilla. You  
know it makes the blood pure  
and rich, and builds up the  
general health in every way.

The children cannot possibly have good  
health unless the bowels are in proper condi-  
tion. A sluggish liver gives a coated tongue,  
bad breath, constipated bowels. Correct all  
these by giving small laxative doses of Ayer's  
Pills. All vegetable, sugar coated.  
Made by J. C. Ayer Co., Lowell, Mass.  
Also manufacturers of  
HAIR VIGOR,  
AGE CURE,  
CHERRY PECTORAL.

**BUSINESS**

**Strikers Wreck Cars  
With Dynamite.**

**SEVERAL PEOPLE HURT IN RIOTS**

**Police Find Box of Explosive Intend-  
ed for Other Cars—Attempt  
at Arbitration Fails.**

Cleveland, O., May 19.—A Broadway  
street car was partially destroyed by a  
dynamite torpedo last night. While 25  
passengers were in the car, no one, for  
a miracle, was seriously hurt. A panic  
followed, and a mad rush for the exits  
was made.

A suburban car was also damaged by  
the explosion of powder on the track.  
The floor of the car was smashed  
through, and one woman was severely  
injured.

After 1 o'clock yesterday morning a  
Detroit avenue car was dynamited near  
One Hundredth street. The trucks were  
badly damaged, but the single passenger  
and the crew were uninjured.

At 12:30 o'clock a small box, which  
the police say contained deadly ex-  
plosives, was found on the tracks at  
Broadway and East Fifty-fifth street.  
The box was discovered with a car less  
than 500 feet away.

At 1 o'clock rioting began near the  
Windemere barns, in East Cleveland,  
when strikers cut six trolley wires.  
Linemen for the Municipal Traction  
company turned out in force to repair  
the damages, but were driven back by  
a gang of three hundred men.

**PREVENT LIMITATION.**  
America, Germany and Japan Hold Off  
World Powers.

London, May 19.—Limitation of naval  
armament was shortly agreed to by  
the European powers, according to a  
statement made by a high British gov-  
ernment official, who said:

"While England has no immediate  
intention of issuing invitations to a  
congress for the reduction of warship  
construction, nevertheless work is being  
done to bring about an understand-  
ing among the powers to this end. The  
efforts that are being made are unof-  
ficial, and considerable headway already  
has resulted. Within a year it is very  
probable the ground will begin to be  
cleared for an understanding."

Three governments at present stand  
opposed to armament limitation. They  
are the United States, Japan and Ger-  
many. Apparently it has now become  
a set policy of the United States to  
lay down two battleships of the Dread-  
naught type yearly. This means that  
America will never enter any interna-  
tional agreement that will not recognize  
her right to maintain a fleet superior  
to the mikkado's. No present hope  
exists of Japan acquiescing in such a  
proposal, and so it is hopeless to ex-  
pect the Americans and the Japanese  
can be convinced to sign a naval re-  
duction pledge."

**END IN SIGHT.**  
Lawyers Begin Arguments to Jury in  
Ruef Case.

San Francisco, May 19.—Taking of  
testimony closed and arguments were  
begun today in the trial of Abraham  
Ruef, on the charge of bribery. Assis-  
tant District Attorney Heney opened  
the prosecution, and was followed by  
Henry Ach for Ruef. Ach did not finish  
until a late hour tonight. Tomorrow  
Heney will close, and it is expected that  
Judge Dooling will deliver his instruc-  
tions to the jury late in the afternoon.

Preliminary to the opening of the ar-  
guments, three witnesses were briefly  
examined. G. H. Umbsen, the real es-  
tate man, was questioned by Mr. Ach  
regarding the checks which were passed  
when the Parkside money was first  
drawn out of the Union Trust Com-  
pany's bank, and later, in two portions  
of \$15,000 each, from the Crocker-Wool-  
worth Bank. Joseph E. Green, of the  
Parkside Company, was recalled by Mr.  
Heney to show that William H. Crocker  
had not been present at the meeting of  
ex-Mayor Schmitz and William J. Din-  
gese followed, and he contra-  
dicted Green by saying that, to the best  
of his recollection, both Mr. Crocker  
and Mr. O'Brien were present at the  
meeting.

**Hard Times for Actors.**  
New York, May 19.—The coming sum-  
mer gives every promise of being the  
hardest one in years for the members  
of the theatrical profession. It has  
been a long time since there has been a  
disastrous season theatrically, as the  
one just closed, and there is no prospect  
of any better times for the actor for  
many months, in fact, until after the  
election next fall. In the height of the  
season it was estimated that more than  
2,000 actors and actresses were out of  
work in New York, the largest number  
of unemployed in the profession for  
many years.

**French Surprise Arabs.**  
Paris, May 19.—A telegram received  
here from General d'Amade, the French  
commander in Morocco, says that with  
three brigades he made a forced night  
march, and at daylight of May 16, with  
a front deployed over a distance of  
five miles, he surprised the M'aska  
tribesmen, driving them to refuge in  
the mountains. The tribesmen aban-  
doned their cattle and munitions of  
war. The French lost three men killed  
and 22 wounded.

**Troops Leave Treadwell.**  
Juneau, Alaska, May 19.—Forty-  
seven enlisted men and one officer left  
Treadwell Sunday morning for Port  
William H. Seward, Alaska. These  
troops have been stationed at Treadwell  
for some time, owing to labor troubles.  
It is thought advisable to leave a few  
soldiers there, although the strike is  
thought to have blown over.

**RAISING OF WHEAT.**

**Advantages of Correct Methods of  
Growing and Marketing.**

**By S. C. Armstrong, Washington State College,  
Pullman.**

We must first find out what the ex-  
isting demand is going to be, and then,  
if possible, meet that demand; for if  
we do not meet the requirements of the  
demand, some one else will, and we  
will be forced to a lower level than we  
should be. Consequently, in the pro-  
duction of wheat, we have to study the  
problems we meet from a competitive  
standpoint; we must compete with  
somebody else who is growing wheat,  
not out neighbor, necessarily, but our  
neighbor's section of the country. A  
man will go where he can get the best  
wheat, if he wants to buy, and if we  
have not the best, we will lose the trade.

We of the wheat producing districts  
of Washington are fortunate in having  
the best country for the production of  
wheat on earth, and we should use the  
utmost diligence to see that we employ  
only the best methods. If we do this,  
we can place Washington at the head of  
the wheat producing regions of the  
globe, and the brand of the "Evergreen  
State" on a barrel or sack of flour will  
be known as a mark of perfection the  
world over.

We, the public, should commence to  
raise the grade standard. The state  
grain commissioner is at present forcing  
the purchaser to accept No. 2 as No. 1;  
we cannot expect to get as much for No. 1  
wheat that tests 58 pounds as our  
neighbors can for wheat that tests bet-  
ter. Because this state of affairs exists,  
we are sending out, each year, wheat  
less sought for than wheat grown in  
many other countries.

We should insist that every grain  
grower in the state use such care in the  
production of his wheat that the re-  
sulting higher standard will increase  
the demand for our wheat. If we im-  
prove the quality of our product, the  
state grain commissioner will be forced  
to raise the standard; and we should  
in this way see that our standard is  
above the standard of every other wheat  
producing state. By doing this, we  
would cause our wheat to be quoted at  
fancy prices. We should make our  
product so good that we would be will-  
ing to have our name and address print-  
ed on it, so that as it goes out into the  
markets of the world, people the world  
over will know that we are proud of our  
product.

**QUESTIONS AND ANSWERS.**  
Valuable Information to Pacific North-  
west Inquirers  
By J. L. Ashlock, Washington Experiment Sta-  
tion, Pullman.

Ryan—"Has mankind ever been able to  
devise a fence that will stop an An-  
gora goat? Do coyotes annoy them?"  
L. L. V.

"There are no domesticated animals that  
are as hard to keep penned up as  
Angora goats. To secure them, a fence  
should be of a kind that will not per-  
mit the animals to climb, and from  
four to five feet high. It should be so  
constructed that a goat cannot jump  
over it, and preferably should be made  
of wire instead of boards. A wire fence  
made of woven wire and about fifty-four  
inches high should hold them. Remem-  
ber, that if the animals can get any  
sort of vantage from which to jump,  
they will go over the fence. The goats  
are pretty good at the defensive, hence  
coyotes do not as a rule make much  
headway in attacking them."

Glenwood, Idaho—"Is 'quack grass'  
a dangerous pest? How may I kill  
morning glories?"  
C. B.

"Couch grass" is another name for  
this pest, and it is certainly dangerous  
when it once has escaped into a garden.  
In the Eastern States it is reported  
quite often, but I have not been in-  
formed that it is in the Northwest in  
any great abundance. The morning  
glory is even more dangerous than  
quack grass. Fall plowing and reevrat-  
ing with straw or manure are fairly  
good means of destroying it, but it is  
nearly impossible to kill it by fall plow-  
ing."

Wolf Creek, Mont.—"How much alfalfa  
seed should be sown per acre? Which  
is better, fall or spring seed-  
ing?"  
W. C.

"If moisture conditions are all right,  
fall seeding will do in some regions.  
Spring seeding should be done so as to  
avoid damage by frost when the seed  
is germinating. Twelve to fifteen  
pounds per acre is about right for broad-  
cast seeding, but if a drill or seeder is  
used, ten or twelve will do."

Grass Valley, Or.—"Please tell me  
concerning the comparative value of  
wheat, hay, and carrots as a feed for  
horses."  
I. M. F.

"Such a comparison is impossible,  
since the feeds you mention do not all  
the same need. The food value of car-  
rots is very low, but the effect they  
have in toning up the system, and keep-  
ing it in good running order is very  
important. A horse could eat a peck of  
carrots per day to a very good advan-  
tage, but you should not attempt to  
substitute them for hay. The same is  
true in making a comparison of wheat  
and raw carrots for hog feed, although  
up to the amount that a hog will eat,  
the carrots will replace a certain por-  
tion of the wheat. I can safely say  
that where carrots will yield twenty  
tons per acre, you will find it highly  
profitable to feed them to hogs to the  
full capacity of their appetites, provid-  
ing you feed some grain in connection  
with the carrots; but you will be un-  
able to keep them on carrots alone,  
as they contain too small a percentage  
of bone-and-muscle-making material."

**Getting Acquainted.**  
"My dad kin lick your dad," said the  
dirty faced boy.  
"I don't know whether he kin or not,"  
said the new boy on the other side of the  
back yard fence, "but I'll bet my ma kin  
outtalk your'n."—Chicago Tribune.

Missouri marketed 19,155,658 dozens  
of eggs last year, for which was received  
more than \$14,000,000. Added to this  
are the items of live and dressed poultry  
and feathers, making the comfortable sum  
of nearly \$40,000,000 for poultry prod-  
ucts for the last year.

**The Gentle Rebel.**

"Immeasurable are the rebuffs that  
the helpers of the poor, the seekers af-  
ter charity for their suffering brothers  
undergo," said a New York charity or-  
ganization official. "A friend of mine,  
a Methodist minister in a small west-  
ern town, told me the other day of his  
last rebuff, a not unkind one. Enter-  
ing the office of the local weekly, the  
minister said to the editor:

"I am soliciting aid for a gentleman  
of refinement and intelligence who is in  
dire need of a little ready money, but  
who is far too proud a man to make  
his sufferings known."

"Why," exclaimed the editor, push-  
ing up his eyeshade, "I'm the only chap  
in the village who answers that de-  
scription. What's this gentleman's  
name?"

"I regret," said the minister, "that I  
am not at liberty to disclose it."

"Why, it must be me, said the edi-  
tor. "It is me, it's me, sure. Heaven  
propitiate your person, in your good  
work."

**What Makes the Heart Beat?**  
Prof. Jacques Loeb, the celebrated  
biologist, in his book, "Dynamics of  
Living Matter," has shown that a strip  
cut from the ventricle of the heart put  
in a solution of chloride of sodium will  
continue to beat for a number of days,  
until putrefaction sets in. He says this  
can be done with an ordinary muscle  
after it has been extirpated from the  
body. This would tend to prove that  
the heart is a chemical machine and  
that it is all due to chemical action.  
The muscular contraction is probably  
due to the substitution of sodium for  
calcium salts in the cells of the mus-  
cles.

The difficulty of this theory is that it  
does not explain the control of the  
muscles. It is plain that the problem  
of control is not solved by the chemical  
theory.

Mothers will find Mrs. Winslow's Soothing  
Syrup the best remedy to use for their child's  
during the teething period.

**Discovering Writers.**  
The rejection of a manuscript often  
left a pang, but the acceptable man-  
uscript, especially from an unknown  
hand, brought a glow of joy which  
richly compensated me for all I suf-  
fered from the others. To feel the  
touch never felt before, to be the first  
to find the planet unimagined in the  
illimitable heaven of art, to be in at  
the dawn of a new talent, with the  
light that seems to mantle the written  
page, who would not be an editor for  
such a privilege? I do not know how  
it is with other editors who are also  
authors, but I can truly say for my-  
self that nothing of my own which I  
thought fresh and true ever gave me  
more pleasure than that I got from the  
like qualities in the work of some  
young writer revealing his power.—  
W. D. Howells in Atlantic.

**The Master's Title.**  
Prof. Key when head master of a  
large London school was one of the  
most genial gentlemen that ever filled  
that position. He was fond of encour-  
aging fun in his boys and was not un-  
willing to recount occasionally during  
class time when anything prompted it  
the manners and customs of countries  
he had visited. On one occasion he  
was telling his class about Spain and said:

"Do you know, boys, that when a  
man attains to eminence there he is not  
called 'sir,' but is given the title of  
'don'?"

One of the boys here called out:  
"Then, I suppose, sir, they would  
call you Don Key?"

The gravity of the class was com-  
pletely upset for the remainder of the  
afternoon.—Strand Magazine.

**Considerate.**  
In a country church one Sabbath,  
as the congregation were rising for the  
first hymn, an old lady entered the  
church at the same time. She held up  
her hand, exclaiming: "Keep your  
seats. Lush, ye needna arise, though I  
wasn't here in '71.—London Express.

**MADE FOR SERVICE**  
IN THE ROUGHEST WEATHER  
AND GUARANTEED ABSOLUTELY  
WATERPROOF  
TOWERS  
POMMEL  
SLICKERS  
\$3.50  
This trade mark and the word  
TOWERS on the  
buttons distinguish this high  
grade slicker from  
the rest of good  
brands

**HOTEL MOORE**  
OPEN ALL THE YEAR  
CLATSOP BEACH SEASIDE, OREGON  
Directly on the beach overlooking  
the ocean. Hot salt baths and  
surf bathing. Recreation  
club for fishing.  
Sea porpoise. Electric lights. Fire  
alarms and steam heat. Fine walks  
and drives. Sea foods a spec-  
tacularly. Rates, \$2.50 and \$3.50  
per day. 50¢ special rates by the week.  
DAN J. MOORE, Proprietor

**W. L. DOUGLAS SHOES**  
\$3.00 \$3.50  
SHOES AT ALL  
PRICES FOR EVERY  
MEMBER OF THE FAMILY  
MEN, BOYS, WOMEN, MISSES AND CHILDREN.  
W. L. Douglas makes and sells more  
men's \$2.50, \$3.00 and \$3.50 shoes  
than any other manufacturer in the  
world, because they hold their  
shape, fit better, wear longer, and  
are of greater value than any other  
shoes in the world to-day.

**PUTNAM FADELESS DYES**  
Color more goods brighter and faster colors than any other dye. One 10c package colors silk, wool and cotton equally well and is guaranteed to give perfect results. Ask dealer, or we will send post paid 10c package. Write for your booklet how to dye, bleach and mix colors.  
MONROE DRUG COMPANY, Quincy, Kansas.

**What is Pe-ru-na?**  
**Is it a Catarrh Remedy, or a Tonic,  
or is it Both?**

Some people call Peruna a great tonic. Others refer to Peruna as a great  
catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a ca-  
tarrh remedy than to call it a tonic?

Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed,  
there can be no effectual catarrh remedy that is not also a tonic.

In order to thoroughly relieve any case of catarrh, a remedy must not only  
have a specific action on the mucous membranes affected by the catarrh, but it  
must have a general tonic action on the nervous system.

Catarrh, even in persons who are otherwise strong, is a weakened condi-  
tion of some mucous membrane. There must be something to strengthen the  
circulation, to give tone to the arteries, and to raise the vital forces.

Perhaps no vegetable remedy in the world has attracted so much attention  
from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy  
of this herb has been recognized many years, and is growing in its hold  
upon the medical profession. When joined with GUBBES and COPAIBA a  
trio of medical agents is formed in Peruna which constitutes a specific re-  
medy for catarrh that in the present state of medical progress cannot be im-  
proved upon. This action, reinforced by such renowned tonics as COLLIN-  
SONIA CANADENSIS, CORYDALIS FORMOSA and CEDRON SEED, ought  
to make this compound an ideal remedy for catarrh in all its stages and locations  
in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The  
use of Peruna, confirms this opinion. Numberless testimonials from every  
quarter of the earth furnish ample evidence that this judgment is not over  
enthusiastic. When practical experience confirms a well-grounded theory the  
result is a truth that cannot be shaken.

**Manufactured by Peruna Drug Manufacturing Co., Columbus, Ohio**

**Would Ask No Mercy.**  
Mrs. Vick-Senn—What do you suppose  
you would do if you were to meet the  
fool killer?  
Her Husband—I'd tell him I was  
the man he was looking for, all right. I have  
just given orders to have that new addi-  
tion to the house torn down and built  
again exactly as you want it.

**Taking No Chances.**  
"Oh, the sorrow of it!" sobbed the  
fair maid. "Last night I refused Mr.  
Blank and this morning his body was  
found in the river."  
"Poor fellow!" murmured her girl  
friend. "I suppose he was afraid you  
might change your mind."

**RHEUMATISM**  
is most painful.  
What's good?  
**ST. JACOBS OIL**  
Gives instant relief.  
Removes the twinges.  
**USE IT, THEN YOU'LL KNOW**  
25c.—ALL DRUGGISTS—50c.

**Calling His Attention.**  
Mr. Lingerling—I had a queer adven-  
ture this afternoon.  
Miss de Muir (with a swift glance at  
the clock)—You mean yesterday after-  
noon, I presume.

**Shop Talk Barred.**  
Friend (at wedding)—Where are you  
going to spend your honeymoon, dear?  
Blushing Bride—"Oh! You mustn't let  
my husband hear you ask that question,  
soon, I presume."  
Don't you know he's a bookkeeper?

**S.S.S. HEALS  
S.S.S. OLD SORES**

No old sore exists merely because the flesh is diseased at that particular  
spot; if this were true simple cleanliness and local applications would  
heal them. Whenever a sore or ulcer refuses to heal readily, the blood is at  
fault; this vital fluid is filled with impurities and poisons which are being  
constantly discharged into the place, feeding it with noxious matter and  
irritating and inflaming the nerves and tissues so the sore cannot heal.  
These impurities in the blood may be the remains of some constitutional  
trouble, the effect of a debilitating spell of sickness, leaving disease germs  
in the system, or the absorption by the blood of the fermented refuse matter  
which the bodily channels of waste have failed to remove. Again the cause  
may be hereditary, the diseased blood of ancestry being handed down to  
posterity; but whatever the cause, the fact that the sore will not heal shows  
the necessity for the very best constitutional treatment. There is nothing  
that causes more worry and anxiety than an old sore which resists treatment.  
Every symptom suggests pollution  
and disease—the discharge, the red,  
angry looking flesh, the pain and in-  
flammation, and the discoloration of  
surrounding parts, all show that deep  
down in the blood there are morbid  
and dangerous forces at work, con-  
stantly creating poisons which may  
in the end lead to Cancer. Local  
applications are valuable only for  
their cleansing and antiseptic effects;  
they do not reach the blood, where  
the real cause is located, and can  
therefore have no real curative worth.  
S. S. S. heals old sores by going down  
to the fountain-head of the trouble  
and driving out the poison-producing  
germs and morbid matters which are  
keeping the ulcer open. It removes every particle of impurity from the cir-  
culation and makes this life-stream pure, fresh and health-sustaining. Then  
as new, rich blood is carried to the place the healing begins, all discharge  
ceases, the inflammation leaves, new tissue and healthy flesh are formed,  
and soon the sore or ulcer is well. S. S. S. is the greatest of all blood puri-  
fiers and finest of tonics, just what is needed in the treatment, and in addi-  
tion to curing the sore will build up and strengthen every part of the system.  
Special book on Sores and Ulcers and any medical advice desired furnished  
free to all who write. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

I want to recommend S. S. S. to any who are  
in need of a blood purifier, and especially as a  
remedy for sores and obstinate ulcers. In 1877  
I had my leg badly cut on the sharp edge of a  
barrel, and having on a blue woolen stocking  
the place was badly poisoned from the dye. A  
great sore formed and for years no one knows  
what I suffered with the place. I tried, it  
seemed to me, everything I had ever heard of,  
but got no relief and I thought I would have  
to go through life with an angry, discharging  
sore on my leg. At last I began the use of  
S. S. S., and it was but a short time until I saw  
that the place was improving. I continued it  
until it removed all the poison from my blood  
and made a complete and permanent cure of  
the sore. JNO. ELLIS.  
250 Navy Street, Brooklyn, N. Y.

**MADE FOR SERVICE**  
IN THE ROUGHEST WEATHER  
AND GUARANTEED ABSOLUTELY  
WATERPROOF  
TOWERS  
POMMEL  
SLICKERS  
\$3.50  
This trade mark and the word  
TOWERS on the  
buttons distinguish this high  
grade slicker from  
the rest of good  
brands
