

**GUMPTION ON THE FARM.**

A farm is worth twice as much as it is worth in dollars and cents.

Slowly and steadily all day long accomplishes more than to hurry and worry for a short time and then quit. One gets less tired for the same work accomplished.

Now don't find fault with your wife because she doesn't keep pie baked all the time. Anyway, too much pie is not healthful. An Indian man died after eating seven pies.

Stir the earth. Remember that as agitation is the death of all political wrongs, so is it death to weeds. Man never devised a more useful implement than the hoe in its various forms.

Your greatest aid in the harvest is your faithful team. See to it that your horses are not pestered by flies, and that they are properly fed and watered. They have well earned humane treatment.

If you want nice bright hay that the cattle will eat up clean, and that will do them the most good, don't wait till the blossoms have dropped off and the stalk is dry and hard; cut your grass when it is crisp and juicy.

When the day is particularly hot and trying, and things seem to go at cross purposes, think of something pleasant. Just draw a mental picture of the after-harvest outing that you and your good wife and your boys and girls are going to have. Remember that love sweetens labor.

If a farmer is not better than other men, it is his own fault, for he lives closer to the heart of Nature. He hears the voice of God every day, in sweet communion with the trees, the brooks, the sky. He beholds the glory God has painted; he sniffs fragrance from heaven. How can he help being good?

"It is an ill wind that blows nobody good," and the hard times have eased the demand on the labor market, so that it is now possible to get workers, and the farmer and his wife may be able to find some one to help, if it is only long enough to tide over the extra work that harvest makes in field and house.

Those whose work afield requires their early rising, enjoy the most beautiful part of the day. The picture of daybreak illumining the eastern sky, and the sun breaking through the mists of dawn, is one never to be forgotten, and it is one so elusive that painters have tried in vain adequately to put it on canvas.

A tub or a barrel often drops down for want of a hoop. If everybody knew how easy it is to make a hoop from a wire—perhaps a piece of cast telegraph wire often seen by the roadside—the work would not wait. Simply bend the wire around the tub to measure it, remove it and twist it fast. Then drive it on like a hoop; drive it fast. It will not break, and being galvanized will last indefinitely.—From July Farm Journal.

**PICNIC AT CULVER MILLS.**

One of the Scio High School Boys Writes The NEWS About it.

Dear Editor: I will write you about the picnic we had at Culver mill June 28, in honor of Harvey Crume and Larrie Jones; it was their birthday.

Culver mill is seven miles North West of McMinnville in a mountainous region. There is a great deal of game here. You can hear the hounds most

any time.

We had the picnic in a grove close to the mill. We had ice cream and a good dinner. This is a fine place for good things to eat. After dinner we had all kinds of sports, foot racing, rope walking, high jumping, and a good time in general. Those present were Mr. Mrs. Q. E. Crume and three children, Mr. and Mrs. Robbins and three children, Mr. and Mrs. John Jones and son, Mr. and Mrs. W. M. Jones and two children, Mr. and Mrs. F. B. Jones and daughter, Mr. and Mrs. I. L. Jones and, Mr. and Mrs. Walter Pratt, Mr. and Mrs. E. C. Shelton and sons, Walter and Floyd Culver, John Kirkland Ray Clomberger.

After the foot racing we had phonograph music. Then they all went home pleased with the day's fun.

Our intention is to go to a regular old time barbecue the 4th of July.

E. C. S.

**SUMMER BIBLE SCHOOL.**

Albany College Will Give Its First Annual Session July 17-27. Over Twenty Speakers and leaders participate.
