"Bill" Brenner does not know just what to think of himself. He has heretofore regarded himself as a truly good marksmen, when shooting game. His experience, last Tuesday, has materially reduced his good opinion of himself in this respect. He fired seven times at a coyote, in the open, yet that coyote is very much alive and is able to make his nightly raids on the Hungry Hill Rocks.

Cattle for Honolulu.

Mr. Joseph Faherty the fine stock dealer of Plaisview, Ore., drove into town a bunch of cattle consisting of six bulls and one cow, on Tuesday. They were here inspected by the state veterinary. This bunch is a part of a large drove that are to be shipped to Honolulu, Sandwich Islands.

Mr. Faherty has made like shipments to the islands heretofore.

A Splendid Showing.

In selecting city officers, next Monday, it would be wisdom on the part of our citizens to examine well the business management of the present board of city officers.

When the city authorized the rebuilding of the city water and light plants and authorized the issuance of \$5000 in bonds, with which to pay for the same, Mayor Prill and the council undertook the job with alacrity and confidence. As a result water mains sufficient to cover the entire city; water hydrants for fire purposes; lumber for a new flume; a new water wheel; a new dynamo; arc lights and other fixtures were purchased, and the plants are now in operation. They are first-class in every particular. And the cost was kept within the \$5000 limit too.

The cost of operating the plants, per year is about \$540. Interest on bonds \$500 making a total cost of \$1040.

The income from private users of lights and water is \$1224. If the plants were owned by private parties they would pay \$1272. Adding these two amounts we have a total of \$2096 as the earnings of the plants. But after placing the city water and lights on the free list, we have an actual cash surplus of \$84 over and above cost of operation. This amount will be increased as patrons are added, while the cost is practically stationary.

This leaves the great bulk of the city taxes to constitute a sinking fund, which, in seven or eight years will pay off the bonds. The plants will then pay the entire cost of running the city government. It should, also, be remembered that we are supplied with electric lights at a less cost than any other town in the valley.

Direct From Factory.

Just arrived, carload of fencing which we will make a special sale next 20 days. We will offer 9 bar 42 inch high, all 12 gauge wire at 37c rod; also, 9 bar 42 inch high No. 14 wire at 35c rod. This is one of the best bargains you ever had offered. CHAS WEEKLY.

A Valuable Dog.

Last week J. F. Wesely, of this city, received from the East, one of the very highest-bred Irish setter dogs that can be obtained. The pedigree of both sire and dam is of the very best and purest strains of this particular breed. Dog fanciers can not find any fault in the size, shape or color of "Jack." He fills the measure completely in what is required of the Irish setter. The express bill amounted to over \$12.

Operation Successful.

Last Monday Dr. Hill, of Albany, came over to assist Dr. A. G. Prill in performing a very delicate surgical operation on the person of Mrs. C. Oak. The lady had been brought from her home in the country to the residence of Mrs. C. A. Kuan, where she was treated by Drs. Prill and Hill and where she will be nursed back to health. Dr. Prill states the operation was completed to his satisfaction.

Was Cold-Blooded.

The murder of Attorney Fisher, last Saturday, in Portland by Attorney J. A. Finch, from the evidence produced at the coroner's investigation is certainly as cold-blooded as any murder that has occurred in Oregon for many years. It there ever was a case when a murderer was coolly and deliberately planned before hand, the murder of Ralph Fisher is certainly one of them. Without any just cause or provocation Finch deliberately purchased a revolver, went to Fisher's rooms, walked up behind Fisher as he sat at his desk and fired the fatal bullet. Can a more deliberate plan be formulated, than this? Nor should the usual insanity dodge apply in this case. Finch should not be allowed to make a plea, which everybody who knows him, knows would be false. Drunken insanity nor any other insanity prepared and made to order, should not be entertained by our courts on grounds or basis of defense for murder.

Finch was of the crafting hoodling class of politicians, when he lived in Linn county. His name became so odious before the public, that any candidate for office, for whom Finch was working for or associated with, was looked upon with suspicion by the people and was generally defeated at the polls.

Of course Finch was crazy, last Saturday, when he murdered Fisher. Any man who commits murder is crazy, or he would not commit the crime. But for the safety of society, it is better that such crazy people should be hanged.

VALUABLE MARE KILLED.

M. P. Long, of near this city, suffered the loss of a valuable mare, at Jefferson, on Thanksgiving eve. Mr. Long and family were in Jefferson to attend the trunk-meir-Powell wedding, and placed his team in the Jefferson livery stable for safe keeping, thinking the usual charivari crowd would be on hand with their cranks. But the livery stable proved a most unsafe place for Mr. Long's team. One of the animals, a large bay mare worth \$150, was tied in a manner that the horse in the next stall kicked her, breaking the hind leg just above the hock joint. Owing to the seriousness of the injury, it was deemed advisable to shoot the mare. Mr. Long does not exactly hold the livery men responsible for the accident, but thinks their carelessness responsible, in a measure.

CITY ELECTION.

Next Monday Scio will hold her annual election. At that time will be elected a mayor, recorder, marshal, treasurer and a board of seven aldermen to conduct the city government during the year 1909.

As there is no salary, to speak of, attached to any of these offices, as a consequence, no citizen may be said to be seeking for office as an easy way to make money. On the other hand there is considerable trouble and care involved, which requires time and attention on the part of the office holder. Yet every citizen, who has the welfare and progress of Scio at heart, should be willing to serve in any of the offices required, if his fellow citizens, by their votes, request him to do so. It is sort of a patriotic duty one owes his community. Also, it is a compliment for his fellow townsmen to repose confidence in him sufficient to elect him to a public service.

The office of alderman is a particularly responsible position. Upon the action of the board of aldermen depends the welfare and prosperity of the city. During the past year the mayor and board of alderman have built a splendid light and water system. For the size there is not a better lighted nor a better water service in any town in the Willamette Valley, than we have here in Scio. While nearly all other towns pay private holders for their street lights and city water, and at a good price too, Scio obtains both her public lights and water, practically free of expense; for the private patrons of the light and water systems, pay the expense of operating the plants.

But this public property must be cared for. It must be kept in good condition. Our streets, sidewalks and crosswalks require to be looked after, if our town presents a progressive, prosperous appearance to visitors.

The city officers are in duty, bound to look after these matters. Hence men should be elected for these various offices, who are enterprising and public spirited; for such men are apt to be zealous as public officers. The progress and welfare of our town depends largely upon the manner in which its affairs are administered. A progressive wide-awake board of city officers, will give us a progressive, prosperous town. But while we want progress and prosperity, we want economy as well. We, the people, want to know that we get full value for the taxes we are required to pay. We can do so by selecting the right men for office, next Monday.
