Lebanon has decided to hold a 4th of July celebration, this year.

Mrs. Ollie MacDonald returned from a visit to Lebanon, Wednesday.

The big condenser boiler passed the North end of Main street on Monday.

The dance at Shelburn, last Saturday night is reported to have been quite successful.

Miss Grace Gill is confined to her home of account of a troublesome indisposition.

Mr. and Mrs. Lee Bilyeu, of Lebanon, came over, Saturday for a visit relative and to look after business matters.

D. M. Sutherland, of Shedd, came over Monday and is assisting in the handling of antimony, at the news office.

Scio promises to have the best baseball team, this year, she has ever had. Its members will all be residents of Scio.

R. W. Gill and E. C. Perry went to Salem Monday morning to push matters with reference to the fair appropriation.

Leonidas Lodge No. 36, K. of P., enjoyed an old fashioned lunch of gingerbread and cider at their regular convention, last Tuesday evening.

Service at the Christian church on next Sunday: at 11 A. M. "Seeing Jesus;" at 7:30 P. M. "Christian Union." Do not miss a service. DAVID E. NORCROSS.

Miss Dolly Daley, on account of a sprained wrist is taking a lay off from her duties in the News office. During her lay off she has visited both Mill City and Portland.

Dr. A. G. Prill, who is secretary of the Willamette Valley Racing Circuit and Mrs. Prill, went to Portland last Saturday morning to attend a meeting of the board of directors of the circuit.

In order to accommodate the Willamette Valley Racing Circuit, one of whose meetings will be held at the Linn County Fair grounds, near this city. The Linn County Fair dates have been changed just two days earlier.

In order to conform to the racing schedules of the Willamette Valley Racing Circuit, the dates of the Linn County fair have been changed to Monday, Tuesday, and Wednesday, August 30, 31 and September 1.

The proceeds of the play "Ten Nights in a Bar Room", by our high school dramatic troupe, last Saturday evening was \$13. A dance within four or five miles and the prospect of a stormy evening accounted for the smallness of the receipts.

Yes Mr. Hay looks after the small things of life which go to make life worth living. But some of the small things he now looks after are destined to grow bigger—for instance, his triplet boys and the Santiam News. Oregonian please take a note of this fact.

According to the report of county Health Officer Dr. W. H. Davis, just filed during January there were 27 births in the county and 14 deaths. None of the deaths was from contagious disease, nearly all being quite young or of old age. The rate was less than 7 in 1,000, which few countries can duplicate.

If the legislature passes any county fair appropriations bill it should pass that for Linn, which has paid more and received less back than any county in Oregon.—Albany Democrat. Right you are, Brother Nutting. But the trouble is that if Linn county had some institution or concern which a big appropriation would be required for, like O. A. C. for instance, our members would get in on the combine and loaf off for a big sum. But the present appropriation, aside from that for Sodaville mineral springs, is all that Linn has ever asked for. Evidently she is like some members of families we have heard of who were good enough to help earn provender for the family, but not good enough to eat at the first table.

THE CONDENSERY.

Thursday afternoon the News man made a short trip down to the proposed new milk condenser.

We found about one dozen men at work and nearly as many there in the capacity of spectators.

Without the building was Mr. Rodgers superintending a crew of men, who were moving the big boiler into position. It has taken fully one week to move this heavy load in from West Scio.

The boiler is mounted on skids and two teams with the aid of compound pulleys and a cable, do the drawing. The heavy boiler was gotten about into its permanent position on Wednesday afternoon.

All of the other machinery and fixtures are in the building.

N. I. Morrison with a force of carpenters, are rapidly getting the building ready for the placing of the machinery. Mr. Morrison stated that the carpenter work was about 50 per cent. completed.

A cement floor is to be made in part of the building, which will be commenced as soon as the boiler is in place.

It is the purpose of the condenser people to commence very slowly at first, not using more than 1000 to 1500 pounds of milk daily. They purpose to make nothing but a first-class article. After they have found out what they can do and can market the manufactured article, the plant will be operated to its full capacity.

If the market justifies and the milk supply is sufficient, it is the purpose of the company to double the plant in the near future. The present plant can handle from ten to fifteen thousand pounds of milk daily, in ten to twelve hours.

The enterprise is one of great moment, to the people of Scio and vicinity. It means a better market for milk than now exists. It means a payroll for employes of \$600 to \$1000 daily and to the men who furnish the milk a daily income of from \$250 to \$500. Certainly every body should help boost the condenser. They should give the men who have invested their money in the plant, every aid and encouragement possible; for its success, means much to Scio and vicinity.

BILKED BY A SWISS.

Two or three Albany men and several farmers around Albany have been bilked to the tune of about \$25 by a swiss, about 50 years of age. Going around with an alleged picture of his family he represented that they were destitute at Scio, and played on the feelings of some so that tears fell. Mr. Peter Ruestler put up \$5 as a result of his big heart, Hub Bryant came down with a dollar Dick Peters with another, J. F. Bain ditto, Mr. Waltman likewise, etc. While he he stopped for a couple of three days at the Anderson boarding house and wanted the best going.

Suspecting something wrong John Catlin was put on his track, and learned that the man had skipped either towards Eugene or towards Lebanon, a warrant was issued, but has not been served.

A letter received from Oregon City, at the commercial club indicates that the man is a fellow who deserted his family there coming south. His name was Almond Harris.—Albany Democrat.

This will be news to Scioans; as no such character has been about here, so far as we can learn.

PUBLIC SCHOOL NOTES.

Beatrice DeVaney is teaching the primary room this week, while Miss Maxwell is at Albany taking teachers examination.

Ward Cyrus visited the school Monday. While here he presented some very good questions to the eighth grade grammar class.

Miss Maggie McDonald has left school and has gone to take the teachers examination.

Wade Cyrus visited the school Monday and Tuesday while on his way to Albany; his school not being in session this week.

The tenth grade is having composition work this week.

The ninth grade Algebra class has chosen sides and are competing against each other.

Miss Eulela Cyrus was absent from school the first of the week on account of sickness.

The tenth grade is struggling with problems like the following: A Man lends \$2100 in two amounts; at different rates of interest, and the two sums produce equal returns. If the first portion had been loaned at the second rate, it would have produced \$48; and if the second portion had been loaned at the first rate, it would have produced \$27. Find the rate. It will be solved next week.

ONE OF THE PUPILS.

Death of an Old Oregon Pioneer.

A private letter from Mr. T. J. Munkeer, of Portland, informs us of the demise of an old Pacific coast pioneer, who was at one time a resident of the vicinity of Scio.

Joseph Wesley Crank was born in Floyd county, Kentucky. He came to Oregon in 1847 and settled on a farm near Scio. A few years later he removed to California where his death occurred on January 29, 1909, at the ripe age of 90 years. He was the father of two sons, John and William Crank, and two daughters, Mrs. Sarah E. Goff, of Coquille City, Oregon and Mrs. T. D. Felt, of Stockton, California; besides a number of relatives less near, both in Oregon and California.

One of the people report that the dance at the home of the Upper end here was a success.

The band boys meet each week at the home of Mr. Foster and it is said they are rapidly.

It is getting to be the fall to suggest a little more tax for money payers. But men in the legislature should know how any unnecessary appropriations. The American people are patient; but patience comes to an end after a time.

The valley farmers and small foot-hill ranchers, some day, will wake up and they have a riparian rights that the corporations will respect.

Every body, for instance, his troubles, and assist ought to attend the Scio Fair after this.
