A. T. Powell, of near this city, who has attended the trial of his nephew, Chas. Powell, who was charged with the murder of Homer Roper, telephoned, Wednesday the welcome intelligence, "Charley was cleared."

Powells View Of the Proposed Road.
Last week the News had something to say, as a matter of news only, concerning a petition which Wilson Richardson was circulating, to have a change of road established, of the road leading East from Franklin Butte cemetery. The proposed change is to enter A. T. Powell's farm with the road, probably, one-half mile East of the cemetery, then angle in a North-westerly direction, intersecting the main road leading South from Scio, at or near Powell's house. It is, also, proposed to close up the road now established, from the point where it is to enter the Powell farm to the cemetery. Naturally, Mr. Powell objects, seriously, to have his farm divided up in this angling manner. He states that the change would be of benefit to but four farmers, viz. Wilson Richardson, Mr. Mubly, Henry Miller and Jas. Craft. Mr. Powell further states that the proposed change would damage his farm more than \$1000.

The NEWS does not pretend to know anything about the merits of the case; nor does it wish to appear to take either side of the contention. But it is of opinion, to close up the portion of the road which the petitioners propose doing, would seriously inconvenience the public. The main place of hitching teams, during the progress of a funeral is in the cemetery end of this road and we believe the petitioners in asking for the closing of this portion of the road are making a grave mistake, and one to which many who signed the petition would object, if they would but take a second thought about it. In any event, Mr. Powell should be reimbursed in full for the damage the proposed change will do his farm. When railroads divide a farm in like manner, as a rule, they pay full compensation for the privilege. A public road should be considered in like manner; especially in a case such as this appears to be. As a rule, the NEWS favors the laying out of roads upon grounds which supply the least resistance. In this case, Mr. Powell states that but two short hills would be avoided, as the general grade, otherwise, would be the same. The NEWS publishes the above at the request of and in justice to Mr. Powell and from whom we obtained the foregoing statements.

A Steel Bridge For Scio.
The NEWS understands through M. V. Bilyeu that the County Court is considering the advisability of replacing the present bridge across Thomas creek, in this city, with a structure of steel with cement piers or abutments.

Mr. Bilyeu stated that the court would expect the city of Scio and vicinity, to volunteer work sufficient to fill in the approaches at either end. We believe the people will do this willingly; as the present bridge is both a menace and a disgrace to the town. We understand that Brownsville is to have a steel bridge across the Callipooa river at that place and that it is the intention of the Court to purchase the material for both bridges at the same time.

For Sale.
Forty head of high grade Jersey heifers, coming fresh this spring. Will give time on easy terms to the purchaser in the payments. H. Bryant, Albany, Oregon.

MOST SUCCESSFUL MEETING

The most successful educational meeting which has yet been held in Linn county, was held in this city, last Saturday. As this was the last one which Supt. Jackson expects to hold until next winter, it is eminently proper that it should have transcended any of its predecessors. And it did. The audience was the largest, the speakers delivered the best addresses and the dinner—well the dinners at previous meetings were not in it all and the reputation of the ladies of Scio and vicinity of being the best cooks in the world has not suffered.

At 10 a. m., the large assembly hall at our public school building, was filled to its utmost with the people of Scio and the surrounding country. State Superintendent Ackerman, County Superintendent Jackson and Prof. Kendall of Albany, Prof. Alderman of Eugene, Lecturer of the State Grange Johnson of Portland and C. A. Walker of Albany, had all arrived on the morning train, so the exercises began promptly at the hour advertised.

Supt. Jackson at once assumed charge and commenced the program with the contest for the prize offered for the best declamation. There was quite a number of contestants, some seven or eight schools being represented. After all had recited, the judges awarded the prize for best declamation above sixth grade pupils, unanimously, to Dorothy Small, of Franklin Butte School, prize \$1.50; best below the sixth grade, Edwin Griffin of the Cole school, prize \$1.00; best solo, Neva Balschweid of the Scio school; best class song, Scio school (both prizes being U. S. flags 5x8 feet); best map of the United States, pupils above the sixth grade, Vesta Long Scio school; best map of Oregon, pupils below the sixth grade, Emma Krume. The prizes for map drawing were \$1.50 and \$1.00 respectively.

The central feature of the day, was the sumptuous repast which had been prepared by the ladies of the Grange. The tables were spread in the two vacant school rooms in the second-story and my! how those tables groaned under the weight of the good things. The average wedding feast was fatter to a frazzle. Our visitors declared they had never participated in a more elegant nor more sumptuous repast. Senator Miller gave every evidence of a serious case of fonder. And there was an abundance for all and to spare.

Certainly the ladies of the Forks of the Santiam sustained their reputation of being the best cooks on earth.

The afternoon was devoted to addresses by our visitors. The NEWS has not the space to give a synopsis of the several speeches. It is sufficient to say that all were good and were listened to very closely by the large audience.

State lecturer Johnson spoke upon the educational features of the Grange; State Superintendent Ackerman gave a most practical address on education; Prof. Alderman talked about the county high school; Hon. M. A. Miller on recent school legislation, and Prof. Kendall—well he was the entertainer. His readings, a few pathetic but most of which were comic, were received by the audience with much enjoyment.

Prof. Kendall is certainly an excellent delineator of character. The exercises were brought to a close just in time for our visitors to catch the train and some of them had to hustle, too.
