Fair.

Editor Nutting says Schultz is as  
fair an umpire as there is in the valley  
and declares the Albany-Scio game to  
have been umpired fairly, though he  
confesses he was not present. Well,  
the Democrat's report of the game was  
of color as well as the umpiring. The  
only home run made by either team  
was made by Huddleston, of Scio; yet  
this was not a feature worthy of  
mention in the Democrat's estimation.  
Be fair Brother, and give your visitors  
courteous treatment. The NEWS will  
agree to give an unbiased report of the  
next Albany-Scio game, to be played  
May 16.

**Silverton 0, Scio 5**

Scio played shutout ball when she  
crossed bats with the Silverton ball  
posers, last Sunday. While faster  
games have been played on the Scio  
diamond, there has never been one  
which was freer of approaching a  
jar than this one.

P. H. MacDonald handled the indica-  
tor and the fact that our visitors pro-  
nounced him "a good umpire," is  
evidence that his decisions were gener-  
ally correct.

Pitcher Shermer, of the Scios, was  
in good form and his work in the box  
was almost faultless. Only two errors  
were made by Scio, but Silverton made  
several, some of which were costly.

When the nine innings had been played,  
the score sheet showed 5 runs for  
Scio and a blank for Silverton. Wolford  
for the visitors, struck out 7, while  
Shermer, of the locals had 12 to his  
credit. Wolford walked 3, Shermer 1.  
The only double was pulled off by  
Silverton. The Silverton boys were  
chaperoned by Mr. L. Adams, who  
looked after their wants and collected  
them when the start for home was  
made. Mr. Adams enjoyed the game,  
even if his team was slightly outclass-  
ed. It is a pleasure to engage in a  
game with a bunch of such gentlemanly  
fellows as the Silvertons appear to be  
and the NEWS hopes they will come  
back again.

Other Scores

Albany and Cottage Grove played a  
13-inning game at Albany, last Sunday,  
the score being Albany 3, Cottage  
Grove 2.

Lebanon and Albany High School,  
Lebanon 12, Albany High School 5.

Jefferson vs Independence at Jeff-  
erson, Jefferson 16, Independence 2.

Scio second team won from Marion,  
at Marion.

Next Sundays Games

Canby's willow weilders will be the  
opposing team to Scio, next Sunday, in  
two games, morning and evening.  
Last year the Canby boys came up  
after our scalps, and they carried them  
home with them by a handsome majority.  
Practically the same teams will oppose  
each other as last year and the very  
best games of the season may be  
expected. Scio wants to wipe out the  
defeat of last year, with victory, this  
time. Will she do it?

Game will be called at 10 a. m., and  
2:30 p. m.

High Grade Jersey Heifers

I have some very high grade Jersey  
heifer calves for sale. They are from  
the best milk stock in Oregon, the O.  
A. C. and Ladd herds. The calves are  
just the right age to put on pasture as  
soon as the grass is good. Price on  
application.

**At The Condensery**

Tuesday afternoon the NEWS man  
visited Scio's one manufacturing plant.  
The run for the day had just been  
completed.

At the present time there are 7  
employees. The daily receipts of milk  
is about 3000 pounds. All who have  
inspected or tried "Country Club"  
condensed milk, pronounce it first  
class.

But in order for the plant to be  
successful and make, even expenses, it  
must have more milk. Now, as there  
is no lack of milk product in this  
locality, it certainly is to the interest  
of this community to keep this plant in  
operation. The price now being paid  
for milk is \$1.35 per hundred on a four  
per cent basis. This is some 20 to 25  
cents more per hundred than the  
creameries are paying. Those who  
have been furnishing milk from the  
start, were well pleased with their pay  
checks for last month and are con-  
tinuing to send their milk to the con-  
densery.

Now farmers, it is up to you whether  
or not the condensery is to become a  
permanent industry. The plant has  
cost, so far, about \$15,000. Of course  
the management desire and expect to  
make money, both for the farmers and  
fairymen and themselves. Because of  
this and other condenseries in the  
state, butter fat now commands a  
better price than it otherwise would if  
there were no condenseries. Therefore,  
it is to the interest of all who sell  
cream or milk, that the condenseries  
should continue in operation.

The Scio plant is capable of taking  
care of 10,000 pounds of milk daily.  
It requires, at least, 6000 pounds for  
the plant to make expenses. Now if  
we wish to build up a manufacturing  
concern at our doors, it is very  
essential that we give it sufficient  
patronage to justify its operation.  
Within a radius of ten miles from  
Scio, there is, probably, 30,000 pounds  
of milk produced daily. Surely one-  
third or more of this milk should find a  
market at home, either at the con-  
densery or at the creamery at Shelburn.  
If these two home manufacturing  
concerns obtain the patronage they  
deserve, there is no doubt but what  
they will add materially to the price of  
land in this immediate vicinity.

Think about it, farmers! If these  
plants are made profitable to the  
projectors, other manufacturing con-  
cerns will locate with us and in a few  
years a home market will be built up,  
not alone for the milk, but for veget-  
ables, fruit and every product of the  
farm. Every enterprise must have a  
commencement and who knows but  
what these two plants are the be-  
ginning of manufacturing industries in  
this locality which will soon double the  
price of land in this vicinity.

the market to buy wool and that he  
will pay the highest market price  
therefor. See him, call on Home
