A number of houses could be rented, in this city, if they were available; but they are not here to rent. A number of new cottages for rent would find ready tenants, if some one would construct them.

**A Destructive Fire**

Shortly after midnight, one night last week, a most destructive fire occurred in Albany, resulting in a loss of about \$35,000.

The nightwatch discovered flames bursting from the rear of the Blain Clothing Co. and immediately turned in the alarm. The department was soon out, but the fire had obtained such headway that the principle attention of the firemen was given to protecting adjoining buildings. It is not known what was the cause of the fire, though it is thought to be accidental and that it started in the tailoring department of the Blain store.

The principle loss fell on the Blain Clothing Co. The fall stock of goods had just been received and were yet unboxed and all went up in smoke. The loss of the Blain Co. is placed at \$40,000, which was covered by over \$20,000 insurance. The upper floor, occupied by law firms, was completely gutted. All lost their libraries and furniture except those occupying the front rooms and these libraries were, practically, ruined with water. The First National bank suffered greatly from the flooding of water, but the cash, books and papers were protected by the fireproof vault. The bank opened for business at the usual hour. The Blain Clothing Co. saved about \$5000 worth of goods and has secured the building on the corner of Second and Broadalbin streets for temporary quarters.

The bank building is to be immediately repaired and as the walls were not injured, repairs can be speedily made.

**Will Improve Waterloo Waterpower**

Work on the Waterloo power plant of the Lebanon Paper Mill Company will be pushed to completion as speedily as practicable. For a time there was some speculation as to just what was to be done. E. T. McHain of Oregon City, vice-president and manager of the company which will install the plant, known as the Santiam Power Company, has confided to the public just what the company he represents intends to do, thus doing away with any mystery which may have heretofore enshrouded the undertaking.

The company, as heretofore noted, owns the land on both sides of the river at Waterloo. The land on the south side of the river will be used as a storage reservoir for water. A dyke will be constructed on the land side of the reservoir, averaging about ten feet in height, with a base of thirty to forty feet, and will be eight to ten feet in width on the top.

Two water wheels of about 500-horse power each will be placed in position, also an electric generator. Power will be transmitted from the Waterloo power-house to the Lebanon paper mills for light and power purposes.

It is understood the company will sell power to manufacturing plants in Lebanon, or to any of the proposed valley electric lines or enterprises that may desire to purchase it.—Lebanon Express-Advance.

**Fined for Assault and Battery**

Last Saturday, Constable J. A. Bilyeu arrested and brought to this city, Edward Brown, a son of one of the proprietors of the Thomas Creek Lumbering Co., who was charged with the crime of assault and battery upon the person of Chas. Burmeister, a minor.

Burmeister was an employe of the mill company and the trouble grew over the understanding of how certain work should be done. It is said that abusive language was used. The complaint was signed by Burmeister late Friday evening and the arrest was made on the following morning.

Justice Jas. A. Bilyeu assessed the fine at \$10 and costs, amounting to \$14.45, which was paid immediately.

**J. B. Trask Drops Dead**

J. B. Trask, one of Stayton's most respected citizens, dropped dead when at his barn, in that city, last Monday. Heart disease is supposed to be the cause.

For many years Mr. Trask was a resident of Fox valley, being one of the substantial farmers of that locality, removing to Stayton only a few years ago. At one time, he was a candidate for sheriff, in this county, made a good race, but was defeated.

His family are all grown and are among our most respected and substantial citizens. Mr. Lewis Task, the Jordan merchant, being among the number.
