Big Fruit Company

Albany has organized an immense fruit company, capitalized at \$300,000. Its purpose is to acquire land, plant and cultivate orchards, caring for them according to the latest up-to-date methods. The company expects to soon have from 2000 to 2500 acres in growing fruit trees. It is not stated in what part of the county the fruit lands will be selected, though land in several portions of the county are being considered. What is known as red hill land, alone, is desired. The News believes that no part of the county has such land in abundance as the east and southeast sections of Scio has and the company will act wisely if it examines these sections before buying elsewhere.

We desire to express our most sincere thanks to our friends and neighbors, for the help and sympathy extended us during the sickness, death and burial of our only child. May you, one and all, be spared the bitter grief we feel.
