FOR THE PUBLIC

New Formula Cures Coughs, Colds, Bronchitis and Hoarseness in Five Hours.

Much is being done in these days to stop the ravages of consumption, but probably nothing has been so effective as teaching the public how to break up a cold and cure coughs, bronchitis, tonsillitis, etc., with a simple, home-made medicine free from opium, poisons, etc. A laxative cough syrup, free from whiskey and poisons, is the prime need. A cough indicates inflammation and congestion, and these in turn are due to an excess of waste and mucus in the system. A tonic laxative cough syrup acts on the system of congestion, while relieving the painful coughing. Get the following and mix at home: One-half ounce fluid wild cherry bark, one ounce compound emulsion cod liver oil, one ounce white pine compound. Shake the bottle and take twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. Cut this out and save it for some friend.

King Edward, when Prince of Wales, never voted on any political question, but he always voted for the Deceased Wife's Sister Bill, which was a social, and not a political, matter.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

TAFT IN PORTLAND.

Genial Smile Wins Hearts of Public Throats.
Portland, Oct. 4.—Portland received President Taft as guest of honor with splendid hospitality and a limitless expression of hearty good will and frank affection. To the Nation's chief executive it proved a day of good cheer, unmarred by a single untoward incident.

The president enjoyed it all to the utmost; enjoyed every moment of the day from the easy formality of the greeting accorded him upon his arrival at the Union depot to the afternoon of golf—golf played in the invigorating tang of a perfect October day. Throughout the day he found only the most profound consideration for his comfort and welfare.

There were no exacting demands upon his energies. The day was hazy of tiring programs, long speeches or wearisome ceremonies.

An affection manifested itself in the public greeting which had its origin quite apart from the fact that he was the great American, the first man of the land. That infectious smile possessed itself of his features when he first stepped from his private car into the cheery sunshine of an ideal Oregon morning. His infection of good nature spread wherever he went. Whenever he appeared he put every one at ease by the easy informality of his demeanor—and that smile. And then Portland got a deeper insight into the real man; got a glimpse into the rich and wholesome nature of which that smile is the natural expression.

For when his triumphal procession through the streets was at an end and there was a half hour at his disposal for a whirl about the city, he elected to dispense with the tempting spin and go to the bedside of his friend, Judge George H. Williams, at the Good Samaritan hospital. It was thus that the brief hour of his morning's leisure time was spent.

It is to the rising generation that credit must go for the predominating and never-to-be-forgotten feature of the welcoming demonstrations. There have been living flags before. But never have the Stars and Stripes been wrought into such a wholesome, inspiring fabric as that formed by Portland school children. It was an epitome of the boundless spirit of youthful patriotism. The president, smiling at first, passed to a mood of seriousness as that wondrous flag waved back and forth with the life that tomorrow must possess itself of the Nation.

The president's appearance tapped exhaustless reservoirs of enthusiastic and affectionate applause wherever he went.

"This is all splendid, splendid—the day is perfect—everything is perfect," he told Mayor Simon, who was seated beside him in the automobile.

Half an hour after luncheon, a car drew up for him at the hotel and he departed for the afternoon for his favorite pastime, golf. Returning with a keen appetite he ate dinner privately and made ready for his appearance at the Army. The military escort again accompanied him and thousands of people were in the streets awaiting his appearance.

President Taft closed one of the happiest and most delightful visits of his life late yesterday afternoon, when he boarded his special train at the Union depot and departed from Portland, southbound. He said as much himself, and with unmistakable sincerity, as he stood on the observation platform of his car and bade farewell to those who had assembled to see him on his way.

"It has all been delightful. I can't thank you enough for the way I've been treated. I've never had a happier visit," he said—not once, but many times, as he shook hands with friends and officials.

Until the departing train was lost to view he stood on the platform, smiling and waving at those gathered about the depot grounds. He seemed loth to go, and it was not until the train had passed onto the Steel bridge that he turned into his car. The president took with him from Portland only the happiest memories. His choice in selecting Portland for the longest stop of his itinerary, New Orleans alone excepted, was justified.

Scientists Excommunicate.
Boston, Oct. 4.—Alfred Farlow, chairman of the committee on publication of the First Church of Christ, Scientist, confirmed today a report that Mrs. Augusta E. Stetson, of New York, had been dismissed from the body of Christian Scientists. Mr. Farlow declined to comment on the case, but in reply to a question as to the effect of the action of the members of the church, said: "It is to be hoped they will receive it in a Christian manner and treat it accordingly."

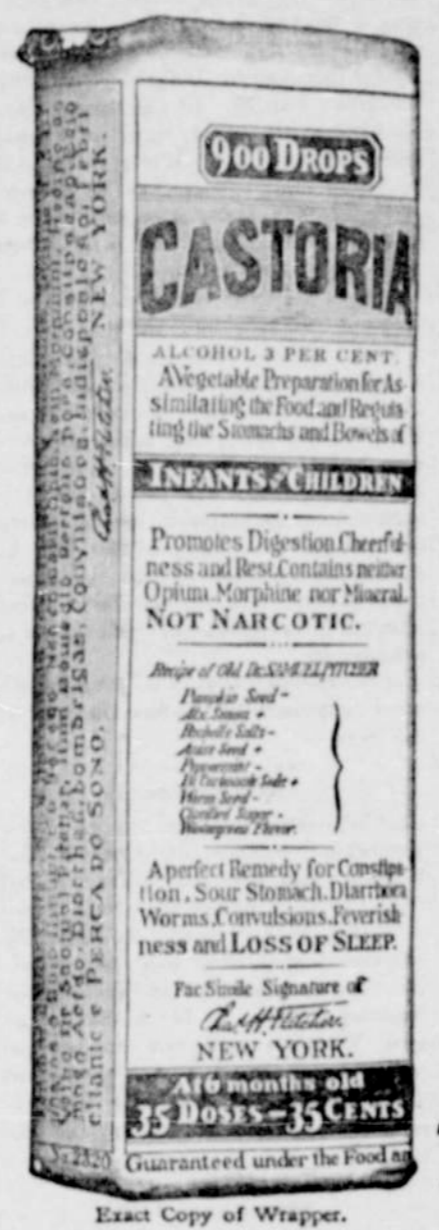

Beat Motorcycle Record.
Springfield, Mass., Oct. 4.—At the motorcycle stadium this afternoon Charles Spencer and Charles Gustafson, both of this city, established a new 24-hour world's record, Spencer riding 1089 miles, 199 yards in the 24 hours, beating the record of 775 miles, 134 yards established by H. A. Collier, of England. Gustafson rode 1043 miles, 20 laps and 199 yards in the 24 hours, being approximately 265 miles ahead of Collier's mark.

Fair Ones Fed by Force.
London, Oct. 4.—Writs have been issued against Home Secretary Gladstone and the prison officials of Birmingham in connection with an action for assault for the forcible feeding with a stomach pump last week of a number of suffragettes who persisted on going on a "hunger strike" while in jail. The suffragettes' leaders contend that forcible feeding is illegal.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Poeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."
Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."
Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."
Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."
Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."
Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency, and merits."
Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
