

Colds on the Chest

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician.

When you tell your doctor about the bad taste in your mouth, loss of appetite for breakfast, and frequent headaches, and when he sees your coated tongue, he will say, "You are bilious." Ayer's Pills work well in such cases.

Visiting Day.
Mrs. A. was more shocked that amused when, in reply to her question, "Who was at Sunday school this morning?" her 4-year-old daughter said, "Everybody but Jesus."
"Why, my dear," said Mrs. A., "wherever did you get such an idea?"
"He was out visiting this morning," the little lady confidently said.
"Daughter," said Mrs. A., "who told you such a story?"
"Nobody didn't tell me, mother, but they just kept singing it over and over again. 'Jesus is calling. He's calling to-day.'"

Waste of Material.
In process of time it was observed that the multimillionaire philanthropist had ceased giving costly library buildings to new and cities.
"Why is this, Mr. Canoggy?" the reporters asked him.
"Young men," he said, "what is the use of building great houses for libraries when all a man needs for an education is five feet of books?"
Whereat they marvelled, but they could not answer him.—Chicago Tribune.

Restorative Treatment for Nervous Men
Coming from a source of unquestioned authority on the ailments of men, it is presumed to be infallible, while the profession generally endorses the ingredients and prescribes them in many different forms of various diseases. The following formula is highly efficient in quickly restoring in nervous exhaustion, melancholia, anxiety, timidity in venturing distant, nervous palpitation, trembling limbs, insomnia, thinness, cold extremities, tired all in feeling and general inability to do those nature and rational acts upon which depends a man's success and happiness in social and every-day life.
The instructions for mixing at home are given so that an embarrasment may be felt as in a doctor's office. First get three ounces of syrup serravallo compound and one ounce compound solid lactogen, mix and let stand two hours. Then add one ounce compound essence carbol and one ounce tincture cadmate compound (both standard), and mix all together. The directions are to take one teaspoonful after each meal and one when retiring, usually bounding health and full strength are restored. Even a few weeks will witness most wonderful results.
Astounding nervous force and equilibrium follow the treatment, no matter how serious the case.
This contains no opiate whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefits.

Latest Consumption Cure.
British and American physicians and students of tuberculosis are much interested in the claim authoritatively made in London concerning the success of a new treatment for tuberculosis discovered by William Draig, a layman. The nature of the treatment is a position containing acids and chloride to be placed on the body near the affected membrane or bone. In about a week an ulcer is formed, connected by what is called a ray of inflammation with the diseased organ. This forms a duct through which the pus is drawn out. The ulcer needs to be carefully dressed twice a day with a certain salve. The cure of the diseased lungs is said to be effected in from four to six months.

FARM CENSUS ECONOMY.

Director Durand Hopes to Save Several Hundred Thousand Dollars.
Washington, Oct. 11.—U. S. Census Director Dana E. Durand hopes to save several hundred thousand dollars in taking the census of agriculture and also to increase the accuracy of the statistics.
The director stated today that at the census of 1900 the agricultural data were handled by means of punched cards. For each farm a large number of cards had to be punched, as the number of facts recorded regarding a farm was far greater than the number of facts required regarding an individual in the population census.

Director Durand said the statistics of population and of agriculture are collected by a different force from that employed in gathering the statistics of manufactures. The population and agricultural data are secured by enumerators of whom there will be about 65,000 at the present census, they in turn being appointed by the supervisors, of whom there are about 330. The difficulty of securing competent and faithful enumerators is very great. The length of service is very short, 15 days in the cities and 30 days in the country districts. The pay is small, averaging perhaps three dollars per day in the country districts and a trifle more in the cities, practically the pay of ordinary mechanics. Not only, therefore, are most of those who seek to be enumerators able to command only moderate pay in their occupations, but many of them are men who can not command regular employment and who are looking for odd jobs.

The director hopes that a considerable number of the colleges and universities of the country may see fit to give leave of absence to their students for the short time required to do this work of enumeration. The college student is a very useful enumerator in some cases, and it is exceedingly desirable that enumerators should actually live in the districts where they work, and there are multitudes of districts where no college students reside or where such students are in institutions hundreds or thousands of miles from their homes. Another class who can render good service as enumerators are school teachers, but, with the enumeration taking place in April and May instead of June as formerly, few school teachers can be spared from their duties to take the census.

DRY FARMING CONGRESS.

Great interest is shown from all parts of the country.
Billings, Montana, Oct. 11.—An interesting example of the widespread interest in the dry farming movement was given in the morning mail received by the secretary the other day when fourteen states and Canada were represented in the memberships recorded. They ranged from the Pacific coast on the West to Pennsylvania on the East and from Canada to New Mexico. There were several memberships from Canada. The states from which the applications came were California, Colorado, Idaho, Montana, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Oregon, Pennsylvania, South Dakota, Washington and Wisconsin.

Memberships are being received at such rate that the edition of the Handbook of Information, which contains the report of the third session of the congress, has been exhausted and the secretary has been compelled to announce to new members that there are no more of these valuable books available. All persons joining the congress from this time on will receive the second annual Handbook which will contain the proceedings of the Fourth Dry Farming congress which will meet at Billings, Montana, October 26-28, and a resume of the contents of the first edition.

The officers of the congress set out after the close of the Cheyenne meeting with the ambition of making the membership of the congress total 10,000 before the Billings meeting and the indications are that they will come very near that goal. In one day recently the secretary received 180 memberships coming from all parts of this country and from several foreign lands. Every mail brings more.

Say Anti-Betting Law is Void.
New York, Oct. 11.—The Coney Island and Brooklyn jockey clubs, which were indicted recently with 30 bookmakers and detectives for alleged violation of the law against betting at racetracks, served notice today that they would on October 15 interpose a demurrer on the ground that the Hart-Agnew law was unconstitutional. They assert that the special election which sent William C. Wallace to the state senate from Niagara county was illegal. Without Mr. Wallace's vote the bill would have been defeated.

Improve Immigrant Station.
El Portal, Cal., Oct. 11.—One direct result of President Taft's trip to the West has been the immediate improvement of immigration conditions at San Francisco. By the president's direction Secretary Nagel ordered that the new immigrant station at Angel Island, San Francisco harbor, be opened at once. The opening of this station had been held up for a long time for want of an appropriation for furniture and supplies.

Riches Fall on Old Man.
San Antonio, Tex., Oct. 11.—James Fagan, an aged switchman here, received official word today that a Carnegie pension of \$40,000 was awaiting his disposal. Fagan worked on the Pennsylvania railway when Mr. Carnegie was his division superintendent, and the \$40,000 is accumulation of a snug pension paid aside some years ago for the switchman.

FAMILY COUGH SYRUP
Cures Any Cough in Five Hours.
NEW PRESCRIPTION HERE.
Here is given the most effective cough prescription known to the medical world. It is a mild, laxative, too, and this is what a body needs when suffering with cough and cold on the lungs. A cough or cold indicates poison in the system, causing inflammation and congestion. Nearly all cough syrups relieve, but make the trouble worse by their stimulating effects. This prescription not only relieves quickly, but it cures any cough that is curable. Get one-half ounce fluid with cherry bark, one ounce compound essence carbol and three ounces syrup white pine compound. Mix in a bottle. Take for acute cough or bronchitis twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. A few hours' treatment will cure and heal the throat and lungs of all but consumptives. Cut this out and give it to some friend who may need it to be saved from an early death by consumption.

Merely Postponed.
Mrs. Hewlig (having freed her mind)—Why don't you answer me, if you can?
