Magnificent Apples
 The News has always contended that Eastern Linn county, especially the hill lands, were just as valuable for fruit purposes as either Hood or Rogue rivers. All that is required is to give the same care and attention to our orchards, which is given to the above mentioned celebrated fruit sections.

This week Mr. George Rodgers brought the News family a box of fruit, which demonstrates this contention to be a fact. Apples and pears without a bluish and apparently free from codlin moth or scale and moisters in size. Bluepearlains measuring 1 3/4 inches in circumference and northern spy 1 1/2 inches around them and pears equally as large.

He brought, also, a head of flat Dutch cabbage which measured 47 inches in circumference and weighed 20 pounds. Mr. Rodgers will please accept thanks. If our other subscribers will do equally as well, the News family will have a guaranty against hunger, during the winter.
