This will serve patrons luncheons south bound and dinners north bound.

Dr. Cook, who reported that he had discovered the North Pole nearly one year before Peary, has been turned down completely by the Copenhagen committee. His much talked of data is puerile and proves nothing further than that Cook appears to be a fraud of the first water. The Dutch have completely cooked his goose. Now if some interested party will prosecute him for obtaining money under a false pretense when on his lecture tour, the public can wash its hands of the whole fraudulent affair.

WIRE FENCE SALE.
I will have a car of American Farm fencing at West Scio, on or about January 1, 1910. About one half of this car has been sold and as I placed my order before the raise on wire of 2 cents per rod, parties wishing wire fencing, can have the benefit of the old price, if they place their orders before the car arrives, and receive the same at West Scio.

If you want fencing, now is the time to buy, as the next car will be higher in price and fencing will take even another raise before spring.

Leave your order at the Scio Planing Mills and I will notify you when the car arrives.
N. I. MORRISON,
Scio, Oregon.

UNNECESSARILY ALARMED

The Stayton Mail Sets up a man of Straw and then Proceeds to Demolish Him

Certain action in this city, last week, caused our neighbor of the Stayton Mail to become so excited that he, figuratively, fell all over himself and, at once, proceeded to sound the tocsin of war in its most heroic form. The aforesaid action was simply the circulating and liberally signing of a petition, praying the County Courts of Marion and Linn counties to, sometime in the future, construct a wagon bridge across the North Santiam at or near the present Woodburn-Natron railroad bridge across that stream. Just why the circulation of this petition should cause our neighbor to froth at the mouth so copiously, is somewhat difficult for us Scioans to understand.

In the first place, our neighbor will admit that there is no crossing of the river between Stayton and Green bridge, a distance of some fifteen or sixteen miles. Because of this fact, people who wish to drive from Scio or vicinity down to Salem, are required to travel a roundabout way, making a distance of about thirty miles. Whereas, if this bridge should be constructed, the road would be direct and the distance scarce twenty miles. Secondly, our neighbor is surely in favor of public improvements and this bridge would be a most valuable public improvement; beneficial, not only to Scio, but to the whole eastern half of the Willamette valley, when traveling by wagon, buggy or automobile.

No doubt, the cause of our neighbor's fierce alarm is, he fears bridge agitation for this point on the river, might interfere with the rebuilding of the Stayton bridge. If this be his idea, his excitement is wholly uncalled for. The Stayton bridge will be replaced during the coming year and, we hope, with a steel structure. Surely, when Stayton has or will have a bridge at her door and another one only four or five miles above, our neighbor should not begrudge Scio a direct route to Salem, which this proposed bridge would provide.

Now neighbor, so far as the NEWS is informed, nobody in Scio will place a straw in the way to prevent the rebuilding of your bridge. Possibly someone may have remarked that, owing to the law banks, the Stayton bridge site is not a good one. We believe every citizen of Stayton, if he will express an honest opinion, will admit this to be true.

So, neighbor, be brotherly! Please do not oppose our project! But if you do, we are going to get the bridge anyway. It may take several years to do so but, in the end, the bridge will be built. It is even now, a public necessity. And besides, when has Scio ever undertaken a public enterprise and failed? Yes, neighbor, we are going to get the bridge. We are not quitters. Moreover, we are going to have a railroad as well. And, neighbor, as we feel somewhat charitably inclined, we hope Stayton will get a railroad, also.

West Scio Items.

Schools Close for Holidays.

The public schools of Lebanon were closed Monday by order of the directors and will not reopen until January 3. This action was deemed advisable by the board on account of two or three cases of scarlet fever being reported, and a disease in a mild form diagnosed as smallpox. All cases of the latter disease are reported as being in a very light form, some of those afflicted not being confined to their beds. The scarlet fever cases are in a more severe form, although none of the patients are reported in a dangerous condition.

Owing to the near approach of the holidays the school board was of the opinion that it was best to close the schools for three weeks, believing that this would aid in stamping out the disease.

At the present time four cases of the fever and two of smallpox are reported, but in none of the cases are the patients seriously ill.—Lebanon Express.
