"Effie," said Margie, who was laboriously spelling words from a first reader, "how can I tell which is a 'd' and which is a 'b'?"

"Why," replied Effie, wisely, "the 'd' has its tummy on its back."—Tit-Bits.

KASPARILLA

This sterling household remedy has long been recognized as the best and safest Blood Purifier, the most successful prescription for spring humors and such disorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be the best remedy for that lack of energy and the peculiar debility so prevalent during the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.

Thief Proof.

Some years ago a well known London solicitor, recently deceased, successfully defended a man charged with burglary, and a few days later there came by post a valuable gold hunter watch, with an inscription to the effect that it was a gift from a certain London society, presumably of doubtful practices. Years afterward the solicitor had the watch stolen from his waistcoat pocket, but it came back to him by post with a letter of apology, stating that "we never rob one of our pals."—London Answers.

Spring Humors

Come to most people and cause many troubles,—pimples, boils and other eruptions, besides loss of appetite, that tired feeling, billousness, indigestion and headache.

The sooner you get rid of them the better, and the way to get rid of them and to build up the system is to take

Hood's Sarsaparilla

The Spring Medicine par excellence as shown by unequaled, radical and permanent cures.

Get it today in usual liquid form or chocolated tablets known as Sarsatabs.

Somewhat Suspicious.

"Why do you refuse me an interview, Mr. Gotrox? I only wanted to ask you how you earned your first $1,000."

"Excuse me, young man, I thought you wanted to know how I got my last million."—Louisville Courier-Journal.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

Poor health can nearly always be traced to a disordered stomach, weak kidneys, sluggish liver or constipated bowels. The Bitters acts directly on these organs, making them strong and healthy. Try it.

SOMETHING FOR EVERYBODY

In Russia cigarettes are used more widely than cigars.

The earth's fertile area is estimated at 28,269,200 square milets.

Every day the railroads of New York City move 85 per cent of the population of the city.

Oklahoma has the greatest Indian population of any of the states of this country, numbering 117,370.

Though heat will make a solid or a liquid incandescent, it can only increase the pressure of a gas.

During the last year the steamboat inspection service of this country passed on 161,206 life preservers.

The highest inhabited place in the world is the Buddhist monastery of Ilaine, Thibet, which is about 17,000 feet above sea level.

Pure ground coffee will not discolor cold water until it has been soaked for some time, while the addition of chicory as an adulterant will immediately impart a brownish hue.

A new English safety oil lamp for miners is lighted without removing the protecting gauze by a platinum wire through which a current of electricity is passed from a storage battery.

A Californian has taken advantage of the fact that flies always walk up a window by inventing a trap to be fastened to a pane in such a manner that a fly will enter it without being aware that it has left the surface of the glass.

One of the big Brazilian railroads has just completed a plan by which it will send four of its mechanics to the United States every six months and put them at work in some of our big railroad shops, so that they may become familiar with American methods.

A will was contested not long ago in New York because the testatrix had bequeathed a grand piano, several oil paintings and five pieces of Japanese pottery to a police station. The protesting legatee won out and there was a reversion of those art treasures to the regular heirs.

Rumors have been rife that the constitution of young Japan is degenerating year after year, says the Eibun Tsushinsha, but they are firmly denied by the authorities, who are of the opinion that according to the reports of the physicians of conscripts both constitution and weight are showing an upward tendency on the whole, and there is not a bit of cause to justify the rumors.—Japan Advertiser.

King Albert of the Belgians has the distinction of being the only royalty who has served an apprenticeship as newspaper reporter. For four years he was the regularly accredited marine reporter of a Belgian weekly, and in the pursuit of his duties traveled through most of the countries of Europe, visiting the ship yards. The incentive behind it all is a deep interest in the maritime future of Belgium.—London Opinion.

Europe's forest schools—at Charlottenburg, Dresden and Elberfield, in Germany, also at Bristal Wood, near London—are attracting the interest of physicians and teachers. Charlottenburg school is situated in the midst of the pine woods, and the only protection ever offered is a mere roof in case of rain. No lesson periods are longer than 25 minutes, and much time is given to play. Five simple meals are served the children daily.

At the opening of the Ruskin park extension, Denmark Hill, Mr. George Alexander said that in coming down he asked Mr. Severin what was Ruskin's favorite game, and was told, "Battledore and shuttlecock." Mr. Severen also told him that Ruskin believed in exercises that were useful, and when at Oxford advised some ladies who had given him a catalog of the various exercises they practiced that better than all would be to carry the coals upstairs.—Westminister Review.

Many amazing sounds have been heard in various parliaments, and it is not so very long ago that the barking of dogs, the mewing of cats and the quacking of ducks were upon occasion heard in our own house of commons. It is rather curious, therefore, that yesterday is said to have been the first time that the shout of "Pfui!" was raised in the Prussian chamber. It is a sort of combination of the English "boo" and the French "Gonspuez!" and is singularly impressive. — London Globe.

"Any one with the price can, do as Gaylord Wilshire did—go to Inyo county, California, and stand on a mountain of gold and silver ore," said a mining man. "Every one of my age in the business," he continued, "knows about that mountain of gold and silver ore. The late Senator Stewart and ex-Senator Jones, both of Nevada, spent millions trying to get gold and silver out of that ore at a profit. That was the famous Panamint mine operation. Jones and Stewart and others lost every cent they put into that deal. The gold and silver are there, sure enough, but the rock is 'rebellious' to a degree that the science of mill men and furnace men has never been able to overcome."—New York Sun

Munyon's Paw Paw Pills coax the liver into activity by gentle methods. They do not scour, gripe or weaken. They are a tonic to the stomach, liver and nerves; invigorate instead of weaken. They enrich the blood and enable the stomach to get all the nourishment from food that is put into it. These pills contain no calomel; they are soothing, healing and stimulating. Sheppard's Plaid.

Of course everybody knows the popular black and white check patterned cloth "Sheppard's plaid," but ninety-nine people of every hundred ascribe the origin of this cognomen to some connection with the pastoral personage which is apparently indicated. Indeed, the description is generally written erroneously by tailors as "shepherd's plaid." Sheppard was the manufacturer who first introduced this fabric, and he exhibited his invention at the great exhibition of 1851.—London Scraps.

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood."

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection
WICK BLUE FLAME
Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
