Curious Remedies.

In some parts of England one of the best cures for a swollen neck is to draw a snake nine times across the throat of the suffering one, after which the snake is killed and its skin sewed in a silken bag and tightly sewed around the neck. Another way, almost as good, is to put the live snake in a bottle, which is tightly corked and buried near the roots of a rosebush, and as the helpless snake decays the swelling in the neck of the patient will disappear.

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

Its Painful End.

The last of the Labrador ducks was about to die.

"It isn't the thing of dying, in itself," gasped the duck, "that grinds me! It's the fact that while my race hereby becomes extinct, the gaunt, ungainly, worthless shitepoke will live on!"

Uncheered even by the reflection that the carrion crow survived the dodo, the hapless bird breathed its last.

A Storekeeper Says:

"A lady came into my store lately and said:

"'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."
