Attractive Letters.

Rodrick—Yes, he came over here to learn our language and started on the alphabet. Began picking up letters, you know.

Van Albert—And what progress has he made?

Rodrick—Oh, he soon found that the only letters he had time to pick up were the X's and V's.

An Amendment.

"Are you ready to live on my income?" he asked softly.

She looked up into his face trustfully.

"Certainly, dearest," she answered.

"If what?"

"If you get another one for yourself."—New York Journal.

The Ambiguous Cook.

Mrs. DeAyker—Did your cook leave on account of the extra 15 cents a week that the Razer woman offered her?

Mrs. Von Holmer—I can't tell; she said she was going to leave because she wanted the change, and I don't know whether she meant the money or the new place.

His Definition.

At a London board school the teacher had explained to the children the meaning of the word "ability." "Now, children," she went on, "what word would express the opposite to ability?"

A sharp faced little boy at the end of the end form bobbed up his head and exclaimed, "Please, teacher, nobility!"—Work and Play.

Strawberries Grown in City.

To show that strawberries can be grown in the heart of the city, Willis A. Hendricks of East Twenty-first and Albert streets brought to the office of the Oregonian a number of boxes of Magoon and Oregon Improved berries containing an average of twenty berries to the box. The berries were grown on an ordinary city lot without irrigation. Mr. Hendricks had 1,000 plants on his lot and at the first picking he picked a total of 56 boxes of the monster berries. A number of the berries were over five inches in circumference and one measured 7 1/4 inches in circumference.—Portland Oregonian.

All to Do Over Again.

It is an open question if the old fisherman in the following story ever got the right answer to the problem that was puzzling his head. A writer in Everybody's Magazine, at least, leaves one in doubt on that score. The riddle was this: "If a herring and a half costs a penny and a half, how many herrings can you buy for a shilling?" The old fisherman had worked on it for some time.

"What did you say the mackerel and a half cost?" he asked at last.

"I didn't say mackerel; I said herring," explained the skipper.

"Oh, that's different," said the other.

"I've been figuring on mackerel."

Cleaning the Henhouse.

If you wish to rid your henhouses of lice and mites now is the time to do it.

Clean them perfectly, whitewash the sides and roosts, remove all litter from the nests and whitewash them outside and in. Take out all droppings and litter on the floor and sprinkle ashes over the floor every few days.

Fumigate the house once or twice a week with sulphur or tobacco smoke. Make a war on the insects for the next two months, and you will not be troubled much with them during summer.

Checks for the Communion Table.

The author of "The Sabbath in Puritan New England" mentions a custom which prevailed in several New England churches that made it the duty of the deacons to walk up and down the aisles of the church at the close of each service and deliver to every person who in their judgment was fitted to commune a metal check, which entitled him at the next celebration of the Lord's supper to join in the sacred ordinance. On the communion Sabbath it was the deacons' duty to see that every one who presented himself at the Lord's table had this check and to collect it from the communicant before passing to him the bread and wine.

Domestic Fiction.

Mrs. Brown—I used to be so fond of fiction before I was married. Mrs. Smith—And don't you read much now?

Mrs. Brown—No; after the tales my husband tells me about why he is late getting home merely printed fiction seems so tame and unimaginative.

Protecting Seed Corn.

A method of protecting seed corn against the crows is to add a tablespoonful of chloride of lime to a peck of shelled corn mixing it well. It is a very cheap and easy way and the seed is more agreeable to handle than when coated with tar after the more common method.

What the Wild Waves Heard.

"You're looking blue," remarked the lobster. "What's the matter?"

"I have just heard," the oyster answered, "that there are such things as vegetable oysters."

"What's the difference?" rejoined the other. "There are human lobsters, too, but I don't let that worry me a cent's worth."—Chicago Tribune.

How a Boomerang Acts.

Rich Father—When I was a young man of your age I was compelled to keep an accurate expense account and wasn't allowed to be out at night later than 11 o'clock.

Son and Heir—Sorry to hear it, governor; your father couldn't trust you as safely as you can trust me.

Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

Ayer's

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.

Aeroplane Made Comfortable.

Aeroplaning is to be made comfortable. Henri Deutsch of Paris, whose prizes did so much for the advancement of aviation in its early days, is having an aerocab built for his own use. The aeroplane is of the Wright type, but a little cab of basketwork is being made to shelter the driver and his passenger from rain and cold.

PILES

"I have suffered with piles for thirty six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man."—George Kryder, Napoleon, O.

PACIFIC REPELLANT

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

Four sizes, 25c, 50c, 75c and \$1.25. Ask your merchant for it.
