Bridge Partly Burned

It is stated that the eastern approach to the Stayton bridge was burned, last Monday, together with a quantity of material which had been placed beneath the approach, preparatory to rebuilding the span carried away by the storms of last winter.

This bridge seems to be rather unfortunate. Several times in the past few years the two counties, Marion and Linn, have had to make repairs, and the floods usually do some damage, each winter. Of course repairs will be made at once.
