## It's Different in Life.

"In novels the virtuous hero always waits twenty years for the equally virtuous heroine; in real life neither waits for the other more than 20 minutes, and sometimes not even that. If there is anything more exciting going on."—"Diana of Dreams," by G. B. Burgin.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

## His Parting Shot.

A local minister had a serious time in fighting the saloon element in his town and had not been backed up in his efforts by the members of his own church. This with other troubles had led to his resignation, and in announcing his departure at his farewell sermon he said: "I am going to do something the devil has never done. I am going to leave C—."

## Shake Into Your Shoes

Oregon Man Invents New Process Which Will Revolutionize Industry.  
A feature which created great interest not only among growers, but the general public at large, at the apple show given under the auspices of the Oregon State Horticultural society at Portland, was a display of dried fruits and vegetables made by Professor W. H. Swett, of that city. Professor Swett had on display about one hundred and thirty varieties of fruits and vegetables which he had prepared by his method of evaporation. Unusual interest was attached to this display, not in the fact that these products were dried, but in the claim that by a process of evaporation which Professor Swett employs, only the water is eliminated, and that therefore these products are always the same, as far as food values and flavors are concerned, as they were before being evaporated, only the addition, by absorption, of the percentage of water extracted being necessary to return them to their fresh state. Professor Swett's products and the machine which he employs has been on display in Portland at his home for the past year and is attracting widespread attention.  
Likfresh Dinner.  
In order that these products should receive a practical test, for "the proof of the pudding is in the eating thereof," a six-course dinner composed of these products, was prepared by Mrs. Geo. K. Rogers and served to the judges and officials of the apple show. The following was the menu:  
Soup—Clam broth. Fish—Fried smelts, codfish balls with tomato sauce. Meat—Stewed beef. Vegetables—Mashed potatoes, green peas, string beans, corn on cob. Salad—Vegetable salad with French dressing, salad consisted of beets, apples, beans, peas, onions and tomatoes. Deserts—Berry jelly, consisting of blackberries, black raspberries, strawberries, cherries and nuts. Strawberry shortcake; loganberry and apple pies; cherry raisins. Coffee.  
The entire meal including clam broth, fish and meat consisted of Oregon Likfresh products, except bread, butter, nuts and coffee.  
Among those present at the dinner were: Honorable Homer C. Atwell and Frank W. Power, president and secretary respectively of the Oregon State Horticultural society; Professor H. E. Van Dieman, horticultural expert from Washington, D. C., official judge of the apple show; Professor C. I. Lewis, head of the horticultural department, Oregon Agricultural college and Professor W. H. Swett, the inventor of the Likfresh system of food preservation.  
Here was given a practical demonstration of this remarkable invention. Those who partook of this dinner state that in no case could they have told that these foods from the fresh products. What this invention means to the agricultural and horticultural districts of the country is beyond the power of the imagination to portray. The loss that is being sustained by fruit and vegetable growers because of their inability to economically care for their products, and inability to obtain a market during the glutted season, runs into hundreds of thousands of dollars annually on the Pacific Coast alone. Not only can these losses now be conserved but an even greater loss can also be avoided. That which is now being wasted is a portion of what the ground produces but there are in every fruit and vegetable growing district, vacant tracts, lots and city blocks which can be thrown into cultivation and the products therefrom taken care of by this system. These vacant lands represent a complete financial loss to the several communities. The conserving of present waste and the bringing into use of idle lands will add tremendously to the population of the fruit and vegetable producing districts of the country and will in turn have an enormous influence on land values.  
To the residents of arid lands or far-away barren countries; to the armies and navies and merchant marine and also for the city resident, this invention opens up tremendous advantages. When the products and lands now wasted are conserved, these consumers may have, not inferior canned or old-style dried products, and also not only each fruit and vegetable during its particular season, but every variety of fruit and vegetable which mankind consumes, throughout the year. Hence it is that Professor Swett's discovery and invention is attracting a tremendous interest not only here, but in distant states and promises to rank among the highest of the great discoveries which this age has presented to mankind.

**Got Nothing From Legacy.**  
The deacons of a Baptist chapel in Meltonham, England, got a shock when they heard the contents of the will of one of the chapel trustees, who died in December, 1908. By a codicil he left a hundred pounds to the chapel for each deacon who attended his funeral. There were nine deacons, but not one of them attended; so instead of the £900 by which the chapel might have been the richer, the legacy was void.  
**Appeal Made Effective.**  
A certain Harford (Md.) farmer has hit upon a mode of relief from trespassing fowls belonging to his neighbors. On one end of a thread four inches long he fastened a grain of corn and on the other end a tag inscribed "Please keep me home." These were scattered where the trespassers were usually found, and a score or more of hens carried home the appeal.  
**Feminine Moods.**  
"Women will go far in certain moods, far beyond their own fears and nearer to the dictates of temper than a man would dare. Let the stress be great enough, and the kindest of them will become as the most cruel, the gentlest as the actually criminal."—"The Girl With the Red Hair," by Max Pemberton.

**Stops Hair Falling**  
Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.  
Does not change the color of the hair.  
Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.  
**Ayer's**  
The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.
