Household Remedy
Taken in the Spring for Years.

Ralph Rust, Willis, Mich., writes: "Hood's Sarsaparilla has been a household remedy in our home as long as I can remember. I have taken it in the spring for several years. It has no equal for cleansing the blood and expelling the humors that accumulate during the winter. Being a farmer and exposed to bad weather, my system is often affected, and I often take Hood's Sarsaparilla with good results." Hood's Sarsaparilla is Peculiar to Itself. There is no "just as good." Get it today in usual liquid form or tablets called Sarsatabs.

Old Colliery Closed.
Tranent colliery, Haddingtonshire, from which coal has been taken for nearly 700 years, was closed recently. For many years women went down the mines at Tranent and worked with the men. One or two old women who were formerly engaged in the mines are still living in the district.—London Daily Mail.

RHEUMATISM
Murray's Rheumatism Remedy relieves pain in the legs, arms, back, stiff or swollen joints. Contains no morphine, opium, cocaine or drugs to deaden the pain. It neutralizes the acid and drives out all rheumatic poisons from the system. Write Prof. Murray, 533 and Jefferson St., Philadelphia, Pa., for medical advice, absolutely free.

Zuni Toys.
Zuni Indians make their toys out of clay and bake them hard so that they will not crumble. They know how to model dolls and goats and frogs and cows, and birds that warble when one fills the hollow body with water and blows through a tube inserted in the back. And they make all kinds of curious clay rattles.

Mothers will find Mrs. Winston's Soothing Syrup the best remedy to use for their children during the teething period.
Finest Water Vegetable.
We are only just now beginning to have stirrets in our market. This vegetable is an Asiatic one, being known to China and India. It has been a favorite in Europe and especially in Paris for 25 years, and has tuberous clustered roots, very white and sweet, and when served with butter they are delicious. It is a most desirable winter vegetable.

"Girls whose grandmothers used to get outdoors and boil a big iron ketle full of maple sirup or soft soap," says Deacon Palmer, "think they are doing something when they can roast a marshmallow in a chafing dish."—Atlanta Constitution.
Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Pellets. Tiny sugar-coated granules.
Perforated Stamps.
Perforated sheets of postage stamps were unknown six decades ago. Until the year 1854 postage stamps were issued in sheets which the purchaser had to cut up in any way he found convenient. The perforating machine was invented by an Irishman named Archer. When it was submitted to the British government the treasury offered him \$3,000 for his patent rights. As Archer had spent over four years in perfecting his machine, this offer was indignantly rejected. Eventually Archer was awarded \$10,000.

Heart is Best Guide.
The man who offers sympathy to a neighbor and who comforts him in time of trouble can afford to run the risk of being accused of not minding his own business. An act of genuine kindness is readily distinguished from intermeddling. The heart is sometimes a better guide for action than the head.

WHERE WOMEN ARE BANNED
No Female of Any Sort Has Been Allowed on Mount Athos for Many Centuries.

For centuries past, Duke Max von Sachsen informs us, women have not been allowed on the Turkish peninsula. Even female animals are prohibited. Condensed milk is imported from Switzerland, so that the eyes of the inhabitants may not be offended by the sight of a cow.
The peninsula is Mount Athos, and its inhabitants are the members of 20 monasteries, which have existed there since the days when Christian emperors held rule at Constantinople and gave laws to all Europe. For 1,400 or 1,500 years, let us say, no woman has trodden the ground of Mount Athos.
A vast quantity of art treasures and precious manuscripts has been stored in the monasteries, but for the most part their contents and even their character remained entirely unknown.—Tit-Bits.

Rather Read Than Be King.
If anybody would make me the greatest king that ever lived, with palaces and gardens, and fine dinners, and wine and coaches, and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king—I would rather be a poor man in a garret with plenty of books, than a king who did not love reading.—Macaulay.

But he didn't groan or cuss until his wife inquired if it "hurt him." Then he did both.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

FLOATING ISLAND FOUND
Queer Discovery Made by the Crew of the Bark Atlas in the Pacific Ocean.

The crew of the bark Atlas, which arrived in Seattle recently after rounding the Horn from Philadelphia, reports a queer discovery for one day of the 138 of her voyage. She had been out many days without seeing anything—only three ships were seen on the entire trip—when one morning in the Pacific the lookout reported that he had sighted land off the port bow where no land was supposed to be. Nor could any be found on the charts.
It seemed low in the water, but too much like the real thing to be a mirage, so the captain ran toward it. It proved to be land, right enough; an island covered with trees and thick low underbrush. Birds and a few monkeys were seen upon it, but no other signs of life. These precluded the possibility of the island being of volcanic origin, and leads the captain to claim it as a floating island. He believes that it was washed out to sea from delta of the Rio de la Plata or the Negro, and that the undergrowth was so thick that its roots held the whole together.
As he saw two trees tumble into the water from the island's edge before he sailed away his theory appears to be somewhat substantiated.

Postic Apprentice.
A grocer's apprentice addicted to poetry has summoned his employer, a rich merchant of Ogutia, Servia, for unlawful dismissal. The merchant explained that his customers left because the boy answered all questions in rhyme and detained people while he fixed meter and verse. Moreover, he greeted his employer with a new couplet every day. The court found the merchant justified and advised the apprentice to mend his ways.—Belgrade Cor. Pall Mall Gazette.

Rise in Russian Lakes.
