When a Man Buys Clothes

He goes to the store in which he has the greatest confidence. He does not judge stores by what they claim to do, but by what they do do. He goes to the store that he has learned always gives all or more than they promise. While some stores are always promising unheard of values, it is quite often the case that some other store not claiming so much, is really giving better values. While we believe in advertising, we know that men judge us mostly by what we do, and hence we depend upon real, genuine value-giving, to get our customers, and keep them. ¶ When in Albany you are welcome to come to our store for a place to be at home. We are anxious for the particular young fellow, the slim young man, the fat man all who seem to have a hard time to set clothes to fit and suit, to come to us, as our store is the largest south of Portland, and none there are better.
