A Sharp Thrust. This is a quotation from a Connecticut woman's diary, dated 1790: "We had roast pork for dinner; and Dr. S., who carved, held up a rib on his fork and said: 'Here, ladies, is what Mother Eve was made of.' 'Yes,' said Sister Patty, 'and it's from very much the same kind of critter.'"—Christian Register.

America's Sweet Tooth. If America's annual candy supply were loaded on one train there would be over eight thousand trucks full of boxes, buckets and glass jars. This load of sweetmeats for the sweet tooth of the American girls costs the consumers about \$125,000,000 every year.

YES! IT'S TRUE that the famous

HOSSETTER'S STOMACH BITTERS

is the best medicine and tonic you can take when the system is run down—when the stomach is weak—when the liver and bowels are inactive—when a real health-maker is needed.

Try a bottle today. It always gives satisfaction.

Lacking Army Qualifications. "No one knows until he makes the try," said a man who was looking for "something to do," "how hard it is to get into the army. I am down and out, and I thought that would be a good three-year job. On the same day that I tried 22 others did, and not one got in. Bad eyes, bad teeth and all sorts of things are booked against you. One fellow who went with me got 'like' put after his name when they shut him out. We didn't know till the sergeant told us that it meant 'insufficient knowledge of English.'"

Rembrandt's Museum. Within a short time Amsterdam will possess a new attraction to lovers of art. The house where Rembrandt lived from 1639 to 1668, and where he passed the happiest years of his married life with Saskia van Uilenburg, is being restored and arranged as a small Rembrandt museum. The historical building, long much neglected, became the property some time ago of a society and is now being restored under the direction of a famous architect.

A New Jinricksha. A one-wheeled jinricksha, on the monocycle principle, is being introduced among the Chinese of the Malay states. It is said to be safe, and to have many advantages over the old-fashioned vehicle. The wear and tear is reduced to a minimum, the work on the pulleys reduced and speed increased.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, stomach, liver and bowels. Sugar-coated, tiny, granules, easy to take. Do not grip.

Record Senatorial Career. Thomas H. Benton's 30 years of continuous service in the United States senate, which ended March 3, 1861, held the record in that respect until Justin S. Morrill of Vermont entered upon his thirty-first year on March 4, 1897. Morrill served 32 1/2 years continuously. John Sherman served 32 years, broken by four years in Hayes' cabinet. Allison of Iowa served 35 years, which is now the record for continuous service in the senate.

Two Tries. A youth was going out to his first formal dinner party. His mother said: "Now don't forget your manners, James; be sure to say something complimentary when the food is passed," he endeavored to do so. When butter was served he remarked pleasantly: "This is pretty good butter, what there is of it." The remark was not well received; he saw that he had made a mistake, and he endeavored to correct it by saying, "And there's plenty of it, such as it is."

Peculiar Liquor. "Comitec" is the name given to a spirituous liquor manufactured in Comitlan, state of Chiapas, Mex. It is an exclusively local product, since in no other part of the country is anything similar produced; the species of maguay or agave from which it is distilled thrives only within a radius of ten or twelve miles.

Examine Signatures. A number of the larger banking institutions employ from one to half a dozen men whose sole duty is to examine every check that comes in through the clearing house, and vouch for the genuineness of the signatures.

New Idea in Finance. "I have found a man with eight children who has apparently grown wealthier with each addition to his family," said a lawyer who is endeavoring to build up a practice on the east side. "He is a small shopkeeper, and by diligent investigation I have found that with the arrival of every infant he has filed a petition in voluntary bankruptcy, shedding all his debts and starting life nearly as unencumbered as the child."—New York Sun.

Olive Oil for Leather. Leather furniture, especially when placed near the register, is liable to dry and crack. An excellent method of keeping it from looking old and showing cracks is to go over the leather with a soft rag dipped in olive oil and then going over the whole surface again with a dry rag. It is not necessary to go over the leather more than once in three or four months, just enough to keep it soft.

Not an experiment, but a proved fact. Hamilton Winard Oil has cured numerous cases of painful rashes for which we recommend it. We have testimonials as proof.

Spread Wisdom. "Tell all you know and you won't have any knowledge left for yourself" is the slogan of an exceedingly small mind, which, if it could but get wise, would realize it knows nothing worth telling—men learn in the same measure that they teach or explain and make things clear to themselves.

Petters Eye Salve RELIEF FOR WEAK SORE EYES To the Point. "In time of trial," said the preacher, "what brings up the greatest comfort?" "An acquittal!" responded the boy who should never have been admitted by the usher.

Time Saving. A new variation of the now long familiar "while you wait" sign is found in an uptown avenue where a barber shop and a tailoring shop stand side by side. In front of the building hangs a sign on which are displayed the name of the tailoring concern and the name of the barber shop and this announcement: "Seats cleaned and pressed while you are getting shaved."

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

Worthy Suggestion. Whatever may your faith—and every man, even so-called infidels, have a belief of some kind—I wish to make one suggestion: Keep it sweet! Rest assured that if your belief makes you crabbed and pugnacious, or critical, or morose, then it is bad. No matter what your creed is it ought to bring forth the one flower that makes any creed worth-while, and that is amiability.

Finding Pearls With Roentgen Rays. According to a report from our consul in Birmingham, England, a suggestion was recently made that Roentgen rays be used to ascertain whether an oyster contains pearls. In this way, it will be unnecessary to open the oyster's shell and destroy the oyster, unless it contains pearls. If the Roentgen rays show that there are no pearls present the oyster will be put back into the water where it may continue to grow.

Hellum in Mount Vesuvius. Hellum, the "sun metal," thus named because it was found in the sun by spectroscopic observation, before it was known to exist on the earth, appears to exist in perceptible quantities in a number of minerals exuded from Vesuvius, and also in the air about Naples.

India's Cultivation of Sugar Cane. India has a larger area under cane than any other country, and yet is one of the heaviest importers of sugar. There was a time when India manufactured practically all the sugar it required, which was used in the form of molasses, but a taste for refined sugar sprang up, since which time it was found more convenient to import than to manufacture.

Facts About Motherhood

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman now, always has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results. There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial. It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty. In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong. Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.
