## GOOD RECORDS OF TWO GOVERNORS

(Continued from page 1)

by petition only and elected on non-partisan ballots.

A nine hour work day for employed women.

A back-to-the-farm movement by requiring agriculture to be taught in all Ohio village and country schools.

Ratification of the proposed income tax amendment to the federal constitution.

Memorializing congress to call a convention to provide for the direct election of United States senators.

Insuring the honest handling of all state money by depositing in banks under the competitive bidding plan.

A complete reformation of tax laws that will put tax dodgers out of business and will compel corporations and owners of intangible property that have been dodging taxes to place their holdings on the duplicate the same as small property owners. Included in this is a maximum one per cent tax levy limit bill.

Providing for the construction of a women's reformatory and placing all girls in the state correctional institutions under the control of women.

### The Wilson Bills.

The big bills in the legislative program of Governor Wilson, as set forth by one close to that executive include:

A corrupt practices act.  
Public utilities bill.  
Employers' liability bill.

The commission form of government in cities desiring it by a 30 per cent majority vote, including the initiative, referendum and recall.

An election reform bill providing for personal registration and an identification system in addition to the non-partisan blanket ballot of the Massachusetts type.

Civil service for election of officers. A primary bill providing for direct nomination and election of all officials, including delegates to the national convention and United States senators—a more drastic measure than the Oregon plan.

A law placing New Jersey on record as ready to aid in building a ship canal that will serve as a connecting link between the two most populous districts of the American continent.

A law that will protect the New Jersey public from the abuses of the cold storage companies.

A set of laws that will reorganize the schools of the state along economic and progressive lines.

When Democratic legislators jumped the party traces and refused to stand for any of these bills, both Governor Wilson and Governor Harmon disregarded party ties and went over to the Republican side and got sufficient votes to have them enacted.

In his message to the Ohio general assembly demanding the enactment of pending measures, Governor Harmon, in addition to the bills in his legislative program enumerated above, advocated the abolition of the party emblem in purely municipal elections; smaller city councils, with a large part of whom elected at large; the nomination by state wide primary elections of all who are in any way to act for or represent the state officially or politically and the non-partisan nomination of judges. The general assembly, however, disregarded Governor Harmon's suggestion with respect to the last four bills.

## Did it Ever Occur to You

That perhaps you are making a mistake by not getting our prices before buying lumber, sash, doors, lime, cement, plaster, etc., somewhere else? You are old enough to know that there's a lot of difference in the quality of every one of these articles, just the same as there is in tea and coffee. And that there's always more or less difference in the prices, too. Then, as you can always get the most and best here, at the lowest prices, why aren't you making a mistake by not buying here. From where we sit, it looks like you were passing up a good thing.
