All should remember the Linn County Fair dates August 29-30-31 September 1 and, also, that the Fair is just what the people make it. Success depends upon whether the people bring their products for exhibition and to attend in person. Everyone will admit that the Fair is contributing greatly in the development of this section of the country. Therefore there is a sort of moral obligation resting upon everyone to give the Fair their support.

State Forester Desires Prompt Reports

The State Forester is constantly getting notice through the daily press and from residents of the State of fires having gotten beyond control after several days fighting, that have not been reported to his office until after becoming a menace to the neighborhood. He wishes to urge upon all state fire wardens the necessity of reporting to him all fires as soon after being discovered as possible, instead of waiting until they become dangerous to life and property. One such fire has just been brought to his notice after having burned three weeks, that might have been controlled and probably entirely extinguished if reported earlier so that proper assistance could have been given.

Every State fire warden, or other persons, in case they are unable to get in touch with a State warden, should telephone or telegraph (collect) F. A. Elliott, State Forester, Salem, Oregon, informing him of forest fires before they get beyond control.

Keep Your Money Here

Following is a little lesson in finance which illustrates very aptly the principle involved in the slogan, "Keep Your Money at Home."

Mr. Brown keeps a boarding house in a certain Oregon town. Around the dining table one evening sat Mrs. Brown, Mrs. Andrews, a milliner; Mr. White, the baker; Mr. Jordan, a carpenter, and Mr. Laidlaw, a flour, feed and lumber merchant. Mr. Brown took a \$10 gold piece from his pocket and handed it to Mrs. Brown with the remark that there was \$10 of the \$20 he had promised her. Mrs. Brown then handed the money to Mrs. Andrews, remarking: "That pays for my new bonnet." Mrs. Andrews in turn passed it to Mr. Jordan, saying it would pay for the carpenter work he had done for her. Mr. Jordan handed it to Mr. Laidlaw, requesting a receipt for a bill for lumber. Mr. Laidlaw returned the money to Mr. Brown in settlement for his board bill. Mr. Brown passed the gold to his wife, saying that he had now paid the \$20 he had promised her and she in turn paid it to Mr. White to settle her bread and pastry account. Mr. White handed it back to Mr. Laidlaw, requesting credit on his flour bill, and Mr. Laidlaw again returned the money to Mr. Brown, saying that it settled for his month's board. Brown put it in his pocket and remarked that he had not supposed a \$10 gold piece would go so far.

To illustrate the purpose of the above narration in these columns, let us suppose that Mrs. Brown had sent to an Eastern mail order house for her bonnet. The \$10 would have gone out of circulation so far as Mrs. Brown's town was concerned. No better illustration of the power of money could be had, and a better argument for buying "Made in Oregon" goods and keeping the money in the home State, instead of buying mail order goods from Eastern States, could hardly be advanced.

The dealer must educate his townspeople along these lines. Residents of small cities and towns must be taught that the life of the town depends upon how much money is kept in circulation in the community; that for every dollar any resident spends so much is returned to him, sometimes all, as in the foregoing. Sending money away from home serves to build up other communities, which is not a bad thing. Help neighboring States when you can; it is a laudable thing, but Oregon should come first in all things, and one way to build up Oregon institutions and Oregon factories is by keeping money at home.

Seemed to Give Him a New Stomach

"I suffered intensely after eating and no medicine or treatment I tried seemed to do any good," writes H. M. Youngsters, Editor of The Sun, Lake View, Ohio. "The first few doses of Chamberlain's Stomach and Liver Tablets gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health." For sale by all dealers.

Handsome Pictures

We have a lot of handsome pictures to give away to new subscribers and to old subscribers more than one year in arrears who will pay up and one year in advance. New subscribers as well for the next 30 days. Or, if you wish a full set of four, you can get them by paying 50 cents extra, to pay for the other three. These are beautiful pictures and you should take advantage of this offer.

RELATIVE MERIT OF BREWING BARLEY

Barleys will be valued according to the standards herewith given at the international barley and hop prize exhibition in Chicago, Oct. 12-22, 1911. The relative merit of a brewing barley is expressed in the percentage of points it receives.

The total number of points is determined by deducting from the average of the sum of the credits the sum of the penalties corrected for percentage. The barleys will be valued on the basis of maturity, viability (germinat-

BRANCH OF FEMALE HOP FLOWER. ing ability), berry weight, uniformity, albumen (or nitrogen) content. These five divisions standing as credits, while penalties are provided for excessive amount of moisture, for trimmings (screenings, etc.), for inseparable admixtures, damage indicated by off color, off odor or by general impression and irregularity of growth.

Barley is disqualified if in any credit division it receives below eighty points and contains more than 20 per cent of screenings or more than 5 per cent of inseparable admixtures; more than 15 per cent of moisture; if color, odor or general impression indicates heavy damage.

Four and six rowed barley should contain approximately for each middle or straight furrowed kernel two lateral or twisted kernels.

The viability (germinating ability) will be determined after proper artificial drying of the specimen.

Did it Ever Occur to You

That perhaps you are making a mistake by not getting our prices before buying lumber, sash, doors, lime, cement, plaster, etc., somewhere else? You are old enough to know that there's a lot of difference in the quality of every one of these articles, just the same as there is in tea and coffee. And that there's always more or less difference in the prices, too. Then, as you can always get the most and best here, at the lowest prices, why aren't you making a mistake by not buying here. From where we sit, it looks like you were passing up a good thing.
