If Congressman Lafferty is the masher which a dispatch in the Telegram of last Saturday leads one to infer, Oregon should certainly invoke the recall or he should be required to resign. Oregon is surely entitled to be represented in congress by reasonably decent men.

Hogs in Yamhill county are assessed for \$5.10 each. Let us suppose they are worth \$9 each, and the wicked farmer is dodging taxation on them. Then here is the industrious railroad paying net dividends of over \$6,000 a mile, or 5 per cent on \$120,000. It is assessed at \$13,500 a mile, or about one-ninth of the value. At the same rate the farmer should only pay taxes on his hogs valued at one dollar each. It would seem as if there were some hogs not assessed very high in Yamhill, eh?

A Poor Recommendation

The State Engineer recommends that there be placed on water power an annual license tax. There are thousands of acres of the finest timber in Linn County escaping taxes on millions of dollars. The assessor should corral that before going after Editor Dugger's wad. He of the Scio News. The timber was created by nature, cannot be concealed, belongs to the people of Linn County, and is worth many times its assessed values. Linn county don't need to tax anybody's cash.—Labor Press
