**LOOK IT OVER**

The News wishes to call the attention of its readers to the increase in the size of the paper this week, from 4 pages 6-column to 8 pages 5-column. We believe our readers will appreciate this improvement, as in addition to the home news, the news of the state and of the world will be given in condensed form. The following are some of the added features that will be found on the inside pages:

Oregon state items.  
Market reports corrected to date.  
Latest telegraphic news.  
Farm and stock news.  
A page of miscellany and other items not enumerated.

If a choicer collection of material for a weekly paper can be gotten together we cannot imagine what it could be.

It comprises the week's world news in a condensed form, and a choice selection of miscellany.

And when looking over this paper, the attention of our readers is especially called to the inside pages.

They are made up of "live stuff" and should not be confounded with the ordinary "patents" which are made up of snake stories and similar matter that will be as good a hundred years from now as today.

Every class of readers of this paper will find something of interest on the inside pages.

This matter is complete, up to date and ideal for the weekly newspaper.

To this choice collection of matter, add a condensed resume of home affairs on the outside pages and the reader is given a local paper that covers the field pretty thoroughly.

It is our aim to make the News the equal of any weekly published in a town of this class in Oregon, and we hope to meet with the continued patronage and assistance of the public along that line.

**ATTENTION**

As a special inducement to delinquents and new subscribers, we are going to give for a limited time to each one who pays at this office \$1.25 on subscription, a complete set of four beautiful lithographed pictures. These four pictures could not be bought for \$1.25 at any art store. Following are the subjects: A Friend at Court, The Golden Opportunity, The Possessive Case, The Leap Year Question.

"Taxpayer" comes back at "Jordanite" this week, but as the discussion has about simmered down to where it is neither entertaining nor instructive and cannot do either party any good, we have concluded to let them settle their differences "out of court."

The Youth's Companion calls attention to the fact that weekly papers that publish on Thursdays will have, this year, five publication days in the month of February. This has not happened before since 1872 and will not occur again until 1940.
