Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Sold by druggists 75c.

REMINGTON UMC
METALLIC CARTRIDGES and Steel Lined SHOT SHELLS

The amount of powder in Remington-UMC cartridges is so uniform, the combustion so perfect, the bullet of such a model and so accurately gauged, that at long or short range your shots are always "kills" if the aim be true.

The steel lining around the powder in Nitro Club and Arrow Shot Shells insures better pattern, better penetration and greater velocity for the same load. It makes the shell stronger, surer and safer.
