Bird Music. Bah! Lying on the soft grass before his tent, a camper sipped a tin cup of coffee and listened to the birds. "You'd think from all this pure melody," he said, "that birds were musical—that, like the New York critics, they loved the best and only the best. But, as a matter of fact, they have a degraded taste. The thrush and the lark are as wrong in their musical ideas as Puccini and Leoncavallo are said to be.

"I have tested the thrush. I have set him to learning the notes of the nightingale. But he doesn't care for the nightingale's divine music. He will have none of it. The sparrow's ugly twitter, on the other hand, he masters with delight.

"The finch and the mockingbird are the same. They won't learn fine music, the music of Beethoven or Chopin or Wagner, but they take to ragtime and jigs like a pig to hog-wash. "Hark to that burst of melody from the pine copse! You'd think the singers inspired. But if thrush or lark or mockingbird went to New York, the critics would say their music was as rotten as that of Thais of Tosca.

Unprofitable Sport. "Possums are abundant around Wattsboro," says the Luenburg Tribune, "but a man in that neighborhood went out hunting the other night, and after his dogs got after something he cut down two trees and finally ran his own cat into the dining room at his own home."

Society Friends. Mrs. Gossp—How does it come that Mrs. Newrich invited you to her party? I thought you were enemies. Mrs. Sharp—We are, but she thought I had nothing fit to wear and wanted to make me feel bad.

STONE THAT BURNS ITSELF
East of the Jordan Lime is Made From Rock That Contains Its Own Fuel.

While making a trip through the Hauran district recently the writer's attention was attracted to a curious stone which might be described as a "self-burning limestone." Our party came upon some natives burning it and was enabled to see the operation. This district is south of Damascus, east of the upper Jordan. At this place the rock lay in a stratum between ordinary limestone; it was of grayish black color, and when freshly broken had an odor of petroleum. Near by were outcrops of what looked like the same material many rods long and 20 to 30 feet thick.

Quarrying is easily done with primitive picks and other tools, as the rock is quite soft and full of seams. The stone is broken into small pieces with hammers and piled up against the bank of rock. A wall of the same material about two feet high is roughly laid up around the pile on three sides, making a pile of small stone eight to ten feet long and nearly as wide, and two feet at the front, rising to nearly three times that height at the back, where it lies against the bank.

In building the wall around the pile small holes are left for draft and in which to start the fire. When the kiln is ready to burn a few small bunches of straw are placed in the holes mentioned. It with a flint and steel and in a short time the whole pile has ignited. The men then begin working on a new kiln while the other burns and cools.

After about two hours of burning the stone has all become converted into lime, except the stones in the wall and the very top layer, which are only about half burned. When cool the lime is air-slacked and sifted to remove any pieces not thoroughly burned, which are thrown into a new pile to be fired again.

The workmen told us that it made a very black smoke with a bad odor like kerosene burning. The lime is white and said to make a very strong plaster, superior to the ordinary lime burned with brush. This stone is so located that, should it prove to be of commercial value, it could be easily transported.—Consular Reports.

Novelty Brings Profits.
A New York grocer has combined an advertising novelty and a source of profit in a butter churn, which is in almost constant operation in his store. The churn is driven by a small electric motor and the scheme is to sell a patron a quantity of cream and then, for a small charge, churn it into butter. The operation takes but a few minutes.

Revolutionary General's Uniform.
A Continental uniform more than 100 years old, which was once the property of General Christie of Revolutionary war fame, was one of the interesting relics of the estate of the late Margaret C. Benjamin of Ithaca, N. Y. The uniform is of white broadcloth, with silk and satin waist, knee breeches and satin stockings.

Evils of Underwear.
An Ohio citizen, eighty years old, claims that he never has worn any underwear. Many a citizen of Africa has done the same thing and yet failed to get his name in the papers.

Selfishness Universal.
A Kansas City judge announces as an original discovery that selfishness is the chief cause of divorce. Of course it is. It is also the cause of most of the other troubles of humanity. Eliminate selfishness from the nature of man and the millennium would be with us.

If you use Eye Salve use the best. **PETTIT'S EYE SALVE** is the standard, is reliable and costs no more than inferior goods that are unknown. Used by Physicians and Oculists, helps where all others fail. It is not the TUBE or BOX that cures, it is the SALVE that does the work. Sold by Druggists throughout the known world.

Employed a Substitute.
Two small city boys, visiting the country, were afraid of a horse which was quietly grazing near. They made no movement toward driving the horse away, but it was evident that they desired its absence. At last another boy hove in sight. "Oh, Billy," one of the waiting boys called to him, "just throw a stone at that horse, will you? We're Band of Mercy, and we can't."

SAVED FROM AN OPERATION
How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For twenty years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sanative Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.
Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed. "Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.

Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

His Security.
When Elson Folsom asked Squire Lane to lend him \$200 to invest in that dry good business, the squire dryly inquired what Mr. Folsom had to offer him in the way of security. "Security?" said Eben, with an air of injured dignity. "Well, squire, I'll tell you what I have to offer: Three solid silver teaspoons, a handsome brass warming-pan, a pair of deal comany vases, large size, and the material for as much as three feather beds, if not four, right on the backs of my flock of geese, and five Plymouth Rock hens.

"You can call 'em all yours till I pay the money back, an' I'll take care of 'em free of charge. I don't know what anybody could want more'n that for security."—Youth's Companion.

Money in Gathering Gum.
A gum hunter gathered 1,300 pounds of spruce gum the last summer in the Adirondack mountains. The most he ever secured in a single day was 30 pounds. His profits may be estimated when it is known that any druggist will gladly pay \$1.50 a pound for the gura.
