KEEPING THE LOG.

Simple System by Which the Mariner Records Weather Conditions.

How many landmen know how a logbook is written up? It seems just as complicated as double entry bookkeeping when one does not know, but after a little careful attention and study it's as easy to keep a logbook as to eat hot gingerbread. There is a list of letters arranged, and they look like so much Greek to the uneducated.

The letter b, for instance, stands for blue sky, whether there be clear or hazy atmosphere. C means cloudy or detached, opening clouds; d denotes drizzling rain; a small j, fog; capital F, thick fog; g, gloomy, dark weather; h, hail; l, lightning, and m, misty or hazy so as to interfere with the view.

The letter o represents overcast or when the whole sky is covered with one impenetrable cloud. Passing showers are noted by the letter p, and q indicates the weather to be squally. Continuous rain is indicated by an r, snow by an s and thunder by a t. Any ugly, threatening appearance in the weather calls for the letter u, and visibility of distant objects, whether the sky be cloudy or not, is represented by the letter v. A small w is wet dew. A full point or dot under any letter denotes an extraordinary degree.

As an example of how the letters are used take q p d l l. This reads very hard squalls and showers of drizzle, accompanied by lightning, with very heavy thunder. Numerals denote the force of the wind.

A cipher indicates calm, 1 light air, 2 light breeze, 3 gentle breeze, 4 moderate breeze, 5 fresh breeze, 6 strong breeze, 7 moderate gale, 8 fresh gale, 9 strong gale, 10 whole gale, 11 storm, 12 hurricane. This system of abbreviation is generally adhered to on all merchant vessels.—Exchange.

A Difference.

An American girl, pretty and bright, had been spending some time in Leamington, England.

The afternoon before her departure she suddenly remembered that several books from the public library should be returned. She took the volumes, sailed forth and presently encountered a young Englishman whose acquaintance, though brief, had not been without attraction.

"Really, now, how queer you American girls are!" he said. "Now, I suppose if you were at home, walking on Fifth avenue, you would never be seen with a fellow juggling all these books."

"Certainly not," she quickly and archly answered. "If I were in America the gentleman would be carrying them."

The Mysterious Handful.

A troupe of wandering musicians were playing before a Swiss hotel. At the end of the performance one of the members left the group, approached the leader of the band and pulled out a little paper box which he emptied into his left hand while the eyes of the leader followed every movement. He then took a plate in his right hand, passed it round, and a large sum was collected, every one meanwhile wondering what he held in his left hand.

"Why, it's very simple," said the leader when questioned. "We are all subject to temptation and to be sure of the fidelity of our collector he has to hold five flies in his left hand, and we count these when he returns to make sure of the money."

The Interlocking U.S. Cream Separator contains the four cream separator requisites in a degree unequalled by any other cream separator. They are close skimming, easy washing, easy running and durability. We offer to prove this right on your farm.

N. I. Morrison, Scio, Oregon

A POINTER FOR YOU Always see what you are buying before buying it. If you wish to know before buying a bill of lumber that you are going to get the very best and the most your money will buy, don't make any mistake, but bring your bill to us. We preach quality because we buy a superior stock for our trade and want everybody to know that they can buy the best from us and that it will not cost any more than ordinary lumber elsewhere. Quality, Price and Service is our motto.
